generally make such things up there. Maybe the oysters had been a long time from home, but that shouldn't matter, just point them over with a little tollie roll them in cracker dust, and fry with a pinch of garlic, to a delicate seal brown. You wouldn't know the difference.

Now the crop is ripe and several of our neighbors are either filling or making preparations to do so at an early day.

The widows of veterans who have married again are stated as costing the government \$10,000 daily in pensions, or about three and a half millions yearly. The first step in pension reform will quite likely affect these, first because they have no moral claim and second, because they have no vote.

We are impressed by the gravity of the situation that called on the National Treasury for 141 millions of dollars last year, and is expected to reach the enormous sum of 170 millions of dollars three years later for war pensions. An idea can be formed of its magnitude when it is known that the cost of the Army: The Naval Service including new construction of war vessels; The Indian Service; and the interest on the National Debt is exceeded by the sum paid out for pensions. It is probable that the first steps toward correcting the evils of the present system will be the publication of the pension roll by States, and by cutting off the widows of veterans who have married again.

Dr. H. E. Emmons, of Milford, at present is a man very much sought after by the people on this side of the river. To-day he has the following patients to look after: Two in the family of the late Benton Bell; one at Daniel Carner's; one at Jud. Bevans in Sandyston; Mrs. DeGarmo, John Vansoy, Mrs. Rosie Vansoy, Mrs. M. Townsend, the infant child of Oliver Smith, a child of Mrs. Coons and George Davis, all in Montague.

A happy party of young people of Dingmans and its vicinity enjoyed a sleighride to Silver Lake, last Friday evening, and repaired to the hospitable home of Mr. and Mrs. Pierce M. Mills, where they tripped the light fantastic toe until the wee small hours. Evertime they go to Pierce's the better they like it, and that is saying a good deal, for they are always eager to visit that house.

John Sheppard, of Center, was prostrated by sickness last week, but we hope to see him around again soon, in usual good health.

It is said John Buckley, who left Dingman's last summer, and went to Seattle, Washington, has a high fever the Klondyke fever, and thinks nothing but a change of air and a more northern location will conduce to his mental ease. John is strictly temperance, but he has evidently got it in mind that nothing short of an Alaskan gold cure will bring happiness and content. Success to him anyway.

By far, yes, very much by far, the largest brightest and most desirable silver mine from the sparkling Silver Lake, and any admirer of this luscious denton of the lakes has only to see a specimen from that water so pronounced.

LETTERS FROM THE PEOPLE.

Under this head we will insert communications on current and political topics, without being responsible for the sentiments expressed, and invite such discussion as may be proper and of general interest to the people.—BIRTON PRESS.

A Democratic View of the Situation.
If the Disley tariff measure will not produce sufficient revenue to meet the expenses of the government, what then? To amend the bill is to confess judgment as incompetent lawmakers. To allow the deficiency to run into another bond issue would work disaster to any party. To head off the deficiency by any serious retrenchment in the expenses of government, such as would be necessary to bring about that result, would render many Republican congressmen, and cause the balance of power to gravitate to the Democrats in 1897. To a Democrat it looks, that were the Republican party to amend the bill to produce more revenue, they would thereby tax the trusts and lose the support of the men who put the party in power. It they cut the appropriations they cause the defeat of their congressmen. If they are forced to issue bonds will the people be enthusiastic? There are apparently several horns to this dilemma, and we shall watch with interest to see how the Republican party will avoid being impaled upon one of them. It were well to wipe out these trifling matters as issues, before the greater issue of 1897 comes upon us. The one great question before which all others pale into insignificance. The settlement of the currency upon basis as favorable to the people, as it now is to the manipulators of the world's money. "After me the deluge," so after a correct solution of the coinage question the elimination of other great evils becomes easy.
