Prevention is always better than cure, even when cure is possible But so many times pneumonia is not cured that prevention becomes the natural act of that instinct of self-preservation which is "the first law of nature." Pneumonia can be pre-vented and is often cured by the use of Ayer's Cherry Pectoral.

"Some years ago I had a severe cold and was threatened with pucumonis. I could neither eat nor alcep, and was in a wretched condition. I procured a bottle of Ayer's Corry Fectoral and took it according to the directions, and at the end of fifteen dayaw as as well and sound as before the attack. I have recommended it in many cases of pneumonis since, and have never known it to fall in effecting a cure."

JOHN HENRY, St. Joseph, La.

"I was attacked with a cold that settled on my lungs, and defied the skill of my phy-sicians so that they constlared me incurable. At last I began to use Ayer's Chorry Fectoral and was entirely sured after having taken
