

# Some Pointed Questions

Does your urine contain any sediment? Is the lower part of your back sore, weak and lame? Does your urine have a whitish, milky color? Is there a smarting or scalding sensation in passing it? Does it pain you to hold it? Do you desire to urinate often, especially at night?

If you have any of these symptoms your kidneys are diseased and your life is in danger. More people die of such disorders than are killed in wars.

**Dr. David Kennedy's Favorite Remedy** is a direct and sure cure. It goes straight to the seat of disease in the Kidneys, Bladder and Blood. It hunts out and drives from the system all the impurities that cause pain in the back, Stone in the Bladder, Bright's Disease, Urinary Troubles, and diseases of the Stomach and Liver. It acts at once. There is no long waiting to see if it will help.

"For years I suffered with my kidneys," writes THOMAS QUACKENBUSH, of Pittsfield, Mass. "The pain in my back was so severe at times that I was obliged to keep to my bed. I suffered awfully when passing water, which was often discolored with blood. It tried almost everything in the shape of medicine, but nothing seemed to help me. One day I got a bottle of Dr. David Kennedy's Favorite Remedy and used it but a little while when it braced the right up. My back became all right, no pain at all; my water cleared up and passed from me without pain, and I grew better in every way. I consider it a great medicine, as it has done wonders for me. My wife used it for female complaint, and thinks it's the finest medicine in the world."

### Sample Bottle Free.

Every man and woman who reads this paper and is in need of medicine, is invited to send full postoffice address for a free trial bottle of **Favorite Remedy** to the Dr. DAVID KENNEDY CORPORATION, Raritan, N. Y. Our offer is genuine, and the fact that it appears in this paper is a guarantee that the trial bottle will be sent prepaid. Don't delay in writing, and mention this paper. A large bottle costs \$1.00 at all drug stores.

### FARMERS INSTITUTE.

Interesting Sessions and Able Speakers Present—Topics of Great Interest Discussed. (Conclusion.)

In the evening Mr. Peck took up the subject of building silos and said one holding 100 tons could be built for \$40. He gave full details of the best methods of constructing them and claimed the green fodder was far more beneficial and profitable to feed than dry. Mr. J. M. Aldrich of Milford who has a silo fully constructed in the opinion of the speaker as to the advantages of this storing fodder. Mr. Aldrich is a practical farmer progressive in his views and after the test he has made his opinion of it decided value.

In the evening Prof. Hess spoke of lime as a plant food and its mechanical effects on the soil. There was nothing especially new in his address, but his ideas were clear, and his details of results on plots of ground at the station verified the idea that lime of itself has no manurial value, but that as an adjunct to green manures, and in its operations on the soils in making them release other substances it is very valuable, large quantities may be used per acre, and the speaker said where it could be obtained for a reasonable price its free use would be amply repaid particularly in the results produced on grasses and clover.

Senator Critchfield of Somerset county was present and spoke on unproductive soils. He bought a farm years ago which was run down and one field especially was absolutely too poor to raise anything. This he plowed and planted to corn following with oats and wheat and clover and showed how it had been gradually brought to a highly productive state. He said it was a good practice to spread water slaked lime on clover sod and turn it under, this produced the best results.

The planting of trees around the houses and beautifying the homes was also urged. He illustrated how he made his garden by sowing the seeds in long rows so that power cultivation could be adopted. His garden is in three strips, one planted to vegetables, which next year will be seeded to barley and the next to clover and thus the three are alternated. No barnyard manure is used hence weeds do not spring and keeping the garden clean is easy. So much was said and so well said by all the speakers that it is impossible to give any resume which will do faint justice to their remarks. It is highly regrettable that our farmers and the town people generally evinced so little interest in this institute. Here were pleasant entertaining and instructive speakers, bearing testimony to no uncertain methods, but practical men who have tested their theories, and proven them successful. Men in touch with the most approved and progressive methods of farming with economy and for the greatest profit, here are farmers who need just this knowledge who would be profited by the instruction, who could not fail to be benefited by listening—not to book farmers—but to actual, practical well tested and proven facts. The remarks were appropriate to all classes not alone farmers but villagers, and yet very slight interest was manifested, and it was all free too. Turn some fakir or medicine show loose here and mark the contrast, how the crowds will tumble over each other to get there first to spend their money and listen to the coarse gibes, vulgar witticisms meaningless and lying assertions and there can be no wonder why things are as they are and why so many here are willing to keep up the white of hard times, and that farming does not pay. We are pointing at those who willfully neglected this opportunity to acquire valuable hints which would enable them to better their condition and render their home surroundings more pleasant and attractive with very little outlay of labor only, and can truthfully say there can be no wonder why intelligent men point the finger of satire at the Pike, and why medicine men find it a paradise in which to sojourn.

**County Indebtedness.** The Commissioners authorize the statement that the present indebtedness of the county does not exceed \$8000, any reports or rumors to the contrary notwithstanding. Bonds will be issued for that amount and they will cover the full sum. It is further intended barring unforeseen contingencies, that during the coming year no expense possible to be avoided will be incurred which will swell the outlay of county funds beyond the certain income provided for by the tax levy. The rate levied for the current year is ten mills for current expenses and three mills for indebtedness purposes.

Pillsbury's vitas at Mitchell's.

### SHERIFFS' SALE.

By virtue of a writ of Fieri Facias, issued out of the Court of Common Pleas of Pike County, to me directed, I will expose to public sale by vendue or outcry, at the Sheriff's office, in the Borough of Milford, on

**SATURDAY, MARCH 16, A. D. 1906,** at ten o'clock in the morning of said day

All those several tracts or parcels of land situate lying and being in the township of Porter, in the County of Pike, State of Pennsylvania, and more particularly described as follows:

A part of a tract of land surveyed containing three hundred acres, (300) on a warrant from the Land Office of Pennsylvania, granted to William Feltman, and the tract heretofore conveyed, situate being lot 125, number one hundred and seventy-four (174), Jacob Stutz and Barnes Eibelberger, and numbered on the Commissioners' Books of Pike County as one hundred and seventy-seven (177).

### To New and Old Subscribers!

A Special Offer. We have made arrangements to get for our subscribers a valuable set of premiums, and are able to offer them almost free of cost.

#### FARM NEWS.

Regular subscription price, 20 cents. Farm News now reaches more than 80,000 families. It holds this large and loyal following of subscribers, because they regard it as one of the chief essentials of their success in farming. It keeps in touch with the most progressive agriculture of the day. It is a scientific treatise, and at the same time is never obscure in its meaning, nor stiff in its style. It's the kind of a paper the farmer values in his every day work, because in it he finds what other successful farmers are doing, and how they do it. Its 14 pages contain no "dead weight"—no "fillers." Every line contains something about the farm and farm life, examine Farm News and you will understand how much its subscribers appreciate it. And it grows better every year, by the comparison it makes with any other farm paper, and it stands ahead in practicality and real value.

#### WOMANKIND.

Regular subscription price, 50c. A ten page magazine containing stories, poems, sketches, bits of travel and such general literary matter as appeals most strongly to the average reader, who wants pure and wholesome literature of the entertaining kind. Its practical departments devoted to the kitchen, the flower garden, the care of children, dressmaking, home decorations, etc., are greatly valued by every woman who has ever read them. Exclusive improvements have been made in **Womankind** during the past year, and as a result its circulation has been increased from 25,000 to 60,000—a growth that could only possibly be obtained by giving the people what they want. We invite comparison of **Womankind** with other papers of its kind.

We will send one of the above papers—(take your choice)—Free for one year to every person paying up his subscription to the Press and **Womankind** 1 year, \$1.00, and the three Premium Books, price 75c. Total value \$3.25 for only \$1.75.

#### OUR PREMIUM BOOKS.

"BUTTER MAKING." A series of prize essays in which farmers' wives and daughters who are in the habit of getting the top prices in the markets, tell how they make their butter. It is a most valuable book. Price 25 cents.
