TRESPASS NOTICE. Notice is hereby given that trespassing upon the premises occupied by the undersigned in Dingman township, known as the Buchanan farm for hunting, fishing, or any other purpose whatsoever is forbidden under penalty of the law. Any person or persons violating this notice will be dealt with in the severest lawful manner. GEORGE H. MCCARTHY, Owner.

TRESPASS NOTICE. Notice is hereby given that trespassing upon the southern half of the tract of land known as the William Denny, No. 98, in Shoshola township, for hunting, fishing, or any other purpose, also trespassing on Sawkill pond in Dingman township, or fishing in it is forbidden under penalty of the law. L. M. MILLER, Attorney for owner.

TRESPASS NOTICE. Notice is hereby given that trespassing upon the property of the Forest Lake Association in Lackawanna township, Pike county, Pa. for the purpose of hunting and fishing, or any other purpose is strictly forbidden under penalty of the law. ALEXANDER HADDES, President.

TRESPASS NOTICE. Notice is hereby given that trespassing on the premises of the undersigned, situated in Dingman township, for any purpose whatsoever is strictly forbidden, and all offenders will be promptly prosecuted. IBA B. CASE, Owner.

FOR SALE. A small farm located near Matamoras, known as the Hensel or Hensel place, containing 21 acres of fine land, well watered. House and barn. Fruit of all kinds. Part improved. Title clear. For terms, price, etc., address Lock box 61, Milford, Pa.

CORRESPONDENCE

Correspondents are particularly requested to send in all news intended for publication not later than Wednesday in each week to insure insertion.

DINGMANS FERRY.

Mrs. D. O. Broadhead, Mrs. Emily Downs, Garret Broadhead and Arthur Emery, of Centre, made a pleasant call a few days ago at the residence of Ed Cooper in Montague, N. J.

Mr. Tepper and wife of N. Y., who were in this township last spring looking for a farm in exchange for a house in the city made a trade for a place in Connecticut, consideration, the farm and \$600 for the house.

No flies on our supervisor Irving Angle. The late heavy storm having washed his share of the hill road as well as the rest very badly, he lost no time in putting them in shape for a bicycle to run smoothly.

No mush and milk around here. Dealers or millers do not keep corn meal on sale.

Our old and venerable townsman Joseph C. Lattimore is out on crutches having the misfortune to have one of his ankles swell and give much pain.

A very large acreage of buckwheat will be planted here this summer. The seed brings 60cts. a bushel, and some farmers would be willing to give more if they only could get it.

Crows are quite plentiful this season, and farmers were prepared for them, remembering their depredations last year.

If potato bugs and blight leave the fields alone this season, potatoes will be cheap next fall, as large quantities have been planted.

It was quite a surprise for many readers to learn through the Press that our general miller, Ed. Darragh, had become a benedict.

William Peiper, who rented Kei, Frazier's farm says he is well satisfied with the place and his landlord.

Louis Chastillon, Democratic candidate for Sheriff of Dingman Township, was around here last week on an electioneering tour. Elijah Vandemark, the Delaware candidate for the place, is also doing his share of the business.

John W. Kilsby, late of Dingman Twp., is quite well at the old homestead at the Ferry.

Strawberries 10 cents a quart and three baskets for a quarter.

No prospects so far for a Sunday School at Centre. It is most always the case that so soon as any one takes charge, some disagreeable busybody wants to run the business themselves, and the result is a Kil. heavy affair, and a home divided against itself must fail, so with a Sunday School.

Peter T. Doty, of Jersey City, made a short visit among relatives in Delaware recently.

W. Mason, of N. Y., is visiting the family of W. K. Gilmore, at Centre.

At the M. E. Church Conference held in this village it was proposed to have the outside of the church painted. The following Sunday a subscription amounting to \$80 was received for that purpose.

Corn is growing fast in this section to make up for lost time, and all crops look well.

Young pigs 4 and 5 weeks old are now \$1 apiece.

Would it not be a novelty if farmers having stock for sale or to trade, or in fact anyone else, would put an ad. in the Press and another novelty would be if the Editor would put it in the column under the name from that township, Montague under "Nail Keg," Layton under "H.," Delaware under "Dingmans," and so all around. Regular charge for letters and double for top, cash in advance. (If farmers and others will adopt this method we will classify the ads. in the out-a-word column, under the proper township, as more convenient to find.—Ed. P.)

Prices current at Milford is a good feature in the Press to many around here, for knowing them they can judge whether it will pay to go there or stay home to trade. It saves disappointment.

Brown & Van Aiken are remodeling Charles Person's milk wagon into a platform.

Farmers are almost with the work. Buckwheat will be generally sown this week.

MATAMORAS.

This place has the distinction of containing two new professional men—Mr. Charles O. Wilkin and Richard Jeffrey, who, this year graduated from the Philadelphia School of Dentistry. Mr. Jeffrey is licensed to practice in Pennsylvania and New York, while Mr. Wilkin is licensed for New York. Their diplomas arrived the 2nd. It was an important event for them. Dr. Wilkin is with Dr. J. J. Mills and Dr. Jeffrey with Dr. Swensay.

The Milford road is in good condition now and should be utilized as much as possible by the riders, for as soon as the new railroad gets in operation, all the gravel or shale on the mountain between Pittston and this place is going to be shipped to New York and none will be left for our roads. It seems hard to be deprived of this, but such is the outcome of the progress of a railroad into a new country.

The railroad is progressing; the large force of Italians are steadily at work; an immense quantity of earth is turned up in a day; there are five derricks at work daily and the laying of the iron work has begun across the wooden trestle, which is in place temporarily to hold it. The middle pier is completed and by the time the Pennsylvania pier is completed the iron work will be up to it and rails laid for the furtherance. Men are busily engaged moving the house of Mrs. John Deckley out of the line of road and things are humming.

As Mrs. J. F. Keyes and a party of ladies were driving down the Milford road on Sunday afternoon, just below Matamoras one of the young ladies alighted from the carriage to pick some flowers, when a gentleman on a bicycle came along at a furious pace and knocked her down. He did not stop, but continued on his way for some time until Mr. Keyes called him to return. The accident was due to his failure to turn out on the right side of the road. The young lady had quite profusely for some time. It was thought at first she was seriously injured, but on examination it was found that she was not seriously hurt. The young gentleman should have had better control of his wheel and turned to the right, then the accident would have been avoided.

The Young People's Society of Christian Endeavor of Hope Church gave a very unique social on Thursday evening at Prescott's Hall. All the members of the society appeared in shabby clothes. Some were arranged in all colors of the rainbow, while others were more sombre colors. Take it all in all and it was a very successful affair. Patriotic songs were sung by the society. Mr. Wm. F. Speldt was the organist. After singing, cake and cream were served. The society realized quite a large sum. We trust the poverty social will be repeated some time in the near future.

Mr. Alvin Haines, of Chicago, a son of Mr. Harry Haines, of Matamoras, is at his father's residence. He came on to attend the funeral of his mother, and expects to take his father to his home in Chicago in a few days. Mr. Haines will be very much missed by his friends here.

Sheriff H. I. Courtright of this village, has been appointed the official L. A. W. repairer, with shop up-town, for this district. He is also authorized to procure members who wish to join the Pennsylvania State L. A. W., and has the blanks and all necessary information on all L. A. W. matters. The sheriff says that if all roads were as good as the Milford road there would not be much cause for complaint and the good roads committee would have little to do.

Mrs. C. VanEtten, of Stroudsburg, Pa., is a guest of Mr. Harry Haines.

Doerpark Council No. 99, R. T. of T. held an ice cream social at the home of Mr. Edson Kimball, at the corner of McCallum and Cookson streets. A good sum for the benefit of the council was realized and everyone present enjoyed a good time. The waitresses were Mrs. Geo. Eisenberg and Misses Nellie Noe, Mamie and Iva Connor.

Miss Laura Shannon, of Lackawanna, is the guest of Mrs. Frank Gonsalus.

Mr. and Mrs. Victor Ennis entertained a few friends at their home on Washington street, on Monday evening, in honor of the tenth anniversary of their marriage. The event was much enjoyed by all. The out of town guests present were: Mr. Ennis's father and mother from Montague, Mr. and Mrs. James Mitchell and daughter Lella and Mrs. James Robinson and niece, of Port Jervis.

The Ladies Aid Society connected with Epworth Church gave a Dime Social on Monday evening at the residence of Mrs. Ruth Quick, on Washington St. Various games were played, which afforded a great deal of amusement. Rev. Mr. Morton, the pastor of the church, favored his friends with vocal solos, accompanied by Miss Lulu Billman and others. The evening was one of pleasure to all present.

Current Bushes.

Current bushes often seem to have a much weaker growth than should be natural to them. When such weakened branches are cut across they will often be found hollow from the work of the currant stem-borer. Before winter comes the larva crawls out and goes into the earth to undergo its transformation. If the affected branches be cut away and burned early in Autumn, the larvae are destroyed. The puncture on the stem where the egg was deposited, can easily be detected.

To Prevent Chicken Cholera.

Keep their house clean and wash their roosts once a week with a solution made by mixing one part of creosote carbolic acid, to 100 of water. Also scatter elaked lime around so they can roll in it.

Anthropologists have ascertained that the Andaman Islanders is the smallest race of people in the world; they average less than four feet in height, while few of them weigh more than seventy-five pounds.

"Calapph"

was my great affliction for a number of years. Doctors did not help me. By a friend's advice I began using your medicine, and was perfectly cured after taking three bottles of

Ayer's Sarsaparilla.
J. MURPHY, 178 Malberry St., Newark, N.J.

PRESERVING EGGS.

Recent experiments with twenty methods of preserving eggs brought out some valuable information, says an exchange. In each test the eggs were examined eight months after the preserving was done. Of the eggs preserved in a solution of salicylic acid and glycerine, 80 per cent, were found bad when tested. And this method of preservation was sold to unsuspecting public several years ago in the form of a receipt at a dollar each, and it was calculated from the quantity of mail received by the seller that he reaped a golden harvest from the scheme.

Eggs treated with a solution of alum were 50 per cent bad, and those put in a solution of salicylic acid alone were also 50 per cent bad when tested.

Eggs treated with manganese of potash were 20 per cent bad, while those varnished with vasoline were all good, as were those preserved in lime water.

Many packers of eggs throughout the country use vaseline varnish, which is very satisfactory, although it takes considerable time to apply the varnish. This is a drawback to its being generally adopted, but eggs so treated do not have the disagreeable odor and taste of preserved in lime water, the method most practiced. The vaseline method is to be recommended for home use, though whatever method is used the egg must be perfectly fresh and clean when the preserving is done.

CARE OF THE THROAT.

Women are at last beginning to realize that they are ruining their throats by keeping them too warm, and by wearing the stiff, high lined collars and canvas-lined stocks. Such neck decorations are the cause of women's looking old long before their time. They keep the throat overheated and sealed from the air. Ribbon and silk collars are now being worn by all prudent women who wish to keep their necks in condition to wear low-cut corsets, blouses and shirt waists to be worn with what might be called the sanitary collars, are built with a low band, without any stiff interlining. If ribbon is used cut it long enough to pass twice around the throat and tie in a bow in the back. White is becoming to all women. Little ruffings of white lace, chiffon, or net, sold by the yard, are sometimes sewed in the silk collars that are out wide enough to give them body. A pretty arrangement for the neck is made of accordion-pleated chiffon seamed on a very thin crinoline collar. It can be patterned in the front with a bow of the same material pleated, or fastened in the back with a fan-like bow. Long neckties of lace, net, chiffon and India silk trimmed with lace at the ends are most becoming. Small collars and revers of white and colored pique are very smart with tailor-made suits.

ONE DOLLAR TO N. Y. AND RETURN

On Monday, July 4th, Independence Day, the Erie will run a special one dollar excursion train from Port Jervis to New York, leaving Port Jervis at 7.15 a. m. and arriving in New York at 10 a. m. Returning train will leave Chambers St., N. Y., at 7.45 p. m. The seashore resorts will all be in full blast and there will be base ball games at the Polo grounds, between the champion Boston and N. Y. Clubs. Remember, only one dollar for the round trip.

Good Enough and
Cheap Enough.

65c. per bottle; 3 bottles for \$1.75 made by C. O. ARMSTRONG, Druggist, Milford Pharmacy.

THE "BUNION" SHOE.

Plenty of room for enlarged joints closely fitting elsewhere. This describes shoes made on the "Bunion Lasts." The foot with the bunion was very much like other feet before the bunion grew. It needs a shoe having more room in certain points. It has been impossible to obtain a satisfactory fit in ready made shoe. The nearest approach to it was obtained by buying a shoe which was two or three sizes too long or too wide. The "bunion shoe maker" has frequently failed to give a satisfactory fit simply because he had no last of proper shape to work on. Repeat on a bunch here and a bunch there, but the outline was wrong and the shoe didn't fit. The "Bunion Shoe" is the only shoe that will fit the foot with a bunion or an enlarged joint. The words "Bunion Shoe" and "Bunion Last" registered as trade mark, May 7, 1892.

JOHNSON, FITTER OF FEET, Port Jervis, N. Y.
