ing of a fing does not make a patriot ing of a fing does not make a patriot, but the American flag is the symbol of patriotiam, and no party has a greater right to use that emblem of a united country than the Republican party. The Republican party saved the Union fittact. The Republican party made it possible to unfurt the flag today "with-out a star missing or a stripe erased or polluted," and all this was accom-plished by our party without the ald of Mr. Wanamaker. So far as history gives us any account he took no part in defending the flag when the life of a nation was threatened. The only pa-triotic service performed by him, so far as we have any knowledge, is that re-hated by himself, when he stood on the corner of Sixth and Market streets in 1861 and watched the boys in blue as they marched by on their way to the front in defense of their country and its flag.
