It is the unanimous opinion of President McKinley, every member of the Cabinet, and every member of the Philippine Commission, that the first and most imperative duty of Congress, at the coming session, will be to adopt a joint resolution declaring the intention of the U S. to permanently retain the ownership of the Philippines, and there is in Franklin, N. J., and removed prices as are within the reach little doubt that such a resolution there this week. will be adopted by both House and Senate. If it could be put through at the first day's session, it would do much good, both in the Philippines and at home, but that, of Wednesday, course, is too much to hope for. The House will be the first to adopt the resolution and the Senate will eventnally follow, but the antis in the latter body will take advantage of the Senate rules, just as they did when the treaty of Peace, the delay in the ratification of which is responsible for every drop of blood shed in the Philippine insurrection, was before the Seaate, to delay action by talk about any old thing to prevent a vote. No stronger argusuch a resolution could be found the wagon. than Aguinaldo's recent statement that "the American Congress is know that that decision has already been made—by the people—but resi-
