thistles or gallons of thistle tea only strengthen his spirit. There are those who never change their opinions, and he intimates he is one of that class, and in this we perfectly agree with him. So long Mr. L. S.

"Cain" Harvey's new book has not met with sufficient demands to even warrant a second edition. It appears that the people are prosperous and contented this year.

It is becoming entirely apparent that the "anti-imperialist" movement, as pursued by the Democrats, is not based on any ideas of a superior sense of right and justice or any humanitarian desire to see a higher order of liberty accorded a semi-barbarous people, but is solely a desire of Democratic leaders to embarrass a Republican administration which has carried two wars to a successful termination.

There is a marked reduction in the importation of liquors into Cuba, Puerto Rico, and the Philippines since their transfer to the control of the United States. In former years the importation of wines from Spain alone ranged above \$5,000,000 per annum and the total importation of wine and spirits into the three Spanish colonies in question ranged from \$4,000,000 to \$5,000,000 per annum. On the other hand the total exportation of spirits of all kinds from the United States to these islands during the calendar year 1899 was about \$1,250,000, while the amounts from other parts of the world were correspondingly small.

The anti-imperialists, who have been shuttling in the proposed oppression of the Filipinos by the Administration, are considerably embarrassed at the recent speech of President Schurman at Chicago. As one of the Philippine Commission he pointed out the plan of government for the islands which the Commission has recommended, and to carry out which the President is to appoint another Commission, follows closely the lines of Jefferson's plan for the government of the Louisiana purchase. It will hardly be claimed by the anti-imperialists that the Filipinos to-day.

"We are to-day Greater America, but that greatness will be lost if we forget the political philosophy which has made us great—expansion of American thought, mechanical skill, civilization and the philosophy of development. Under a destiny unforeseen and uncontrolled by us, the power and institutions of the nation have been planted in the East. I believe that if we do our duty it means not only the elevation and uplifting of the people of that far-off land, but that it will add to the power and glory of our free institutions and commercial supremacy of the nation."—Senator McLaurin (Democrat) of South Carolina in the U. S. Senate.

The Puerto Rican tariff bill, should it become a law in the form in which it passed the House, will give to the people of Puerto Rico a couple of hundred thousand dollars a year for improvements of general conditions, educational and otherwise, in the Island, and yet will give them such commercial relations with the United States as greatly stimulate the interchange of commodities, while by the higher duties imposed on articles coming into the Island from other countries we will be given practically its entire market. The duty collected on merchandise coming into the United States from Puerto Rico at full Dingley law rates amounts to a little over a million dollars a year, and with a collection of but 15 per cent. of the regular rates, perhaps \$200,000 would be realized, which would be immediately expended for internal improvements in the Island.

The gold standard in Japan has proved a success. An official report on it is subject by the Minister of Finance, Count Matsukata, has just reached Washington, and it states in explicit terms that the experiment has been extremely satisfactory, both in its relations to the internal and foreign trade, and especially in its relations to labor, the permanent standard of value and the avoidance of fluctuations which is furnished. The report says that, leaving out of account the questions concerning the effect on foreign trade, it can be very clearly seen that prices, since the adoption of the gold standard, have kept comparatively even, with fluctuations remarkably slight and the relations between the claims of the creditor and the liability of the debtor less subject to sudden and unexpected changes, and as a result the way has been opened for the steady and orderly growth of commerce and industry.

HEALTHY A man with a thin head of hair is a marked man. But the big bald spot is not the kind of a mark most men like. Too many men in their twenties are bald. This is absurd and all unnecessary. Healthy hair shows man's strength. To build up the hair from the roots, to prevent and to cure baldness, use—

AYER'S HAIR VIGOR It always restores color to faded or gray hair. Notice that word, "always." And it cures dandruff. \$1.00 a bottle. All druggists.

My business calls me out among strangers a great deal, and I would not take of my hat, my hair would be so thin and the bald spots showed so plainly. I began the use of your Hair Vigor less than three months ago. Today I find I have a fine head of hair as I ever had. I tell everybody what I use, and they say it must be a wonderful remedy. GEO. YEAL, Dec. 14, 1898. Chicago, Ill.

If your fowls have Cholera or Roup, use Orange Electric Food at once. For sale at T. Armstrong's.
