A BANK IN MILFORD.

Under the late Act of Congress the conditions necessary to organize a bank are far less difficult than formerly, it being as we understand only necessary to raise the sum of twenty-five thousand dollars as capital stock. For many years among the improvements for Milford, that of a bank has been frequent-mentioned and now that the amount of stock necessary is so small comparatively it would seem that there should be little difficulty in perfecting an organization, if proper parties will undertake the project. Such an institution would be a great conenvience to people here, and would tend in no small degree to keep the money our people have in our own town. Any business established here is a benefit because it enables the people to some extent to be more independent by saving them the necessity of going to some other town to transact it. For all the past years Milford has been largely tributary to out side markets because of lack of proper facilities to do business here, and all the idle money has sought a foreign depository. Now that the bank here seems to be within the means of this community the people should encourage the enterprise by taking such amount of stock as may be within their means. It is desirable that the stock should be generally held and there are few who could not afford to take at least a share. This would foster the enterprise and it would be a benefit to the community in many ways. Let some one now start the project and let our people give it proper encouragement and we will soon rank in that respect at least with other towns in the country. Business begets business, and who will say that with a bank here the railroad may not be sufficiently attracted to push its tardy length to the town.

A GREAT WONDER.

There used to be seven wonders in the world but the number has been greatly increased, until now it may be difficult to exactly specify just how many there are. We have one here however, and that is, why the M. M. & P. J. R. R. is not built to this town. Rights of way have been mostly secured, considerable grading done, and compared with the amount of money so far spent the cost of completion to Milford would be small. The reason will soon open when there would be considerable traffic at least more than sufficient to pay the cost of operation and a good dividend on the investment, and why should the road not be be built? It is a wonder to us all.

Republican gains have been notable, both in Kansas and Nebraska. This is encourasging.

While wage-earners are on strike and receive no pay the salary of the labor leader and agitator continues.

An excess of $50,000,000 a month in exports over imports is a pretty good favorable trade balance to carry on our national ledger.

Porto Rico is no. very large, but the politicans in the Democratic party are hoping it is big enough to serve as a grave for free silver.

When the Supreme Court decides that the recent Porto Rican legislation is constitutional, Mr Bryan will have another reason for demanding the suppression of that body.

The next measure to be taken up for consideration in the Senate is the Frye shipping bill. Its passage by a large majority seems assured when ever a vote can be reached.

BLUES

Ever have them? Then we can't tell you anything about them. You know how dark everything looks and how you are about ready to give up. Somehow, you can't throw off the terrible depression.

Are things really so blue? Isn't it your nerves, after all? That's where the trouble is. Your nerves are being poisoned from the impurities in your blood.

Ayer's Sarsaparilla

purifies the blood and gives power and stability to the nerves. It makes health and strength, activity and cheerfulness.

This is what "Ayer's" will do for you. It's the oldest Sarsaparilla in the land, the kind that was old before other Sarsaparillas were known.

This also accounts for the saying, "One bottle of Ayer's is worth three bottles of the ordinary kind."

$1.00 a bottle. All druggists.
