The jailers in the prison, one to every twenty-five convicts, were drawn exclusively from the ranks of war vet erans. Old beroes of the Crimea and the Indian mutiny, many of them with their breasts covered with clasps and medals, went down the road to the grave side by side with the men they guarded. With the passing of the years the hand of time began to lay heavy on all alike. In 1885 there were only about seventy veterans and four hundred convicts left, and of these nearly all were white-headed and tot-tering. Most of them hobbled slowly round the enormous quadrangles, pottered about the gardens that latterly they had been permitted to keep, and prisoners and keepers alike. Every Saturday afternoon the veterans donned their threadbare and faded milahead, would march proudly but slowly down through the principal street of the little town to the beach and then back again "home." Cut off by many years of absence from the old ties and held close to their prison life in the new colony, they had become

Look for the Warning.

Heart disease kills suddenly, but never without warning. The warnings may be faint and brief, or may be startling and extend over many years, but they are none the less certain and positive. Too often the victim is deceived by the thought, "it will pass away." Alas, it never passes away voluntarily. Once installed, heart disease never gets batter of Itself. If Dr. Miles' Heart Cure is used in the early stages recovery is absolutely certain in every case where its use is persisted in. "for many years I was a great sufferer from heart disease before I finally found relief. I was subject to fainting and sinking spells, fullness about the heart, and was chable to attend to my household dutses. I tried nearly every remedy that was recommended to me and doctored with the leading physicians of this section but obtained ao help until I began taking Dr. Miles' Heart Cure. It has done me more good than all the medicine I ever took."
