IT IS OUR BUSINESS.

Some Democrats are fond of saying that it is none of our business how Mutchler was nominated, nor whether it was regular or not, or whether he was entitled to it, or whether it is right, it is not our kettle of fish and we don't have to eat it and we have no business to discuss it. That if Democrats are satisfied we should be. With the nomination as an abstract proposition we find no fault, but we have a duty to perform in the interest of good morals and clean politics. Will any Democrat here say that prior to the meeting of the convention there was the slightest suspicion that Mutchler was or would be a candidate? Was it not conceded that if Barber carried Carbon there was no question of his nomination and was not Mr. Barber so told by Mr. Mutchler, and did not Mr. Barber go to Easton with that promise. Why it was not fulfilled has not been explained. Pikes conferees came home and excused their flop by saying it was the only way to end the agony. That otherwise there would have been a protracted session and perhaps a dead lock. Had they voted persistently for Barber who would have been responsible for a failure to nominate? In other words had they done their plain duty could any blame have attached to their conduct? Is there a Democrat here who doubts for one moment that the nomination of Mutchler was not brought about by a bargain which will never be made public? Is there a Democrat in Pike who believes there is any force or truth in the reason given for the action of Pikes conferees? If Democrats have no regard for morality in politics, if they are content to submit without protest to any trade or deal which may be made and vote blindly for the candidate who is nominated by such methods, then of course we should have nothing to say, any argument for a higher tone of morals in politics would be simply casting pearls before swine.

But we do not believe that Democrats are willing to thus put aside their manhood and bow abjectly to the Bael.

We are not asking them to change their politics we are only suggesting that they act and vote like men who do not wear a collar or a brand. If they are willing to submit and to ratify with their votes such deals way go through the form of electing a man in Pike every two years! Why not give one person the conferees for life and let him dicker and trade and deal to his hearts content and assure him you will vote his ticket. It is because we think there are men in that party, and many of them too, who have consciences and will not submit to such methods if they are informed that we believe it our business and our duty to state the facts as they are known to exist and as they are represented by every Democratic paper in the district which dares and does speak its mind. Is there a voter in the county who honestly believes that Mutchler's nomination was made in a "legal and proper manner?" Because we think there is not one it is our business to ask them not to support it.

THINK ON THESE THINGS.

If you want legislation beneficial to the county you will send William Angle to the legislature. You have sent Democrats for over seventy-five years and aside from some local acts mainly regulating township affairs and land sales they have never obtained a piece of legislation of general benefit to the county. A Westbrook, sent there by the people perpetrated one of the roughest frauds the on citizens of this county they have ever suffered. It was in connection with an effort to compel the Erie to rebuild the bridge at Matamoras of which obligation the company had by a previous act, passed under the nose of a Democratic representative relieved themselves. Mr. Westbrook by his duplicity frustrated the attempt to have such legislation enacted as would have given the courts an opportunity to investigate the sale of the Erie's liabilities in the bridge to the Lamont Mining and Railroad Company, a paper corporation. When an explanation of his course was demanded he evaded it and moved out of the county which has several times honored him. These are not campaign assertions but historical facts, and can be proven by as good men as there are in the county. Do the taxpayers who are being each year more oppressed wish this to continue or would they like a change? If so vote for one who can effect it, William Angle.

TIME IS LIFE

The father? Gone for the doctor. The mother? Alone with her suffering child. Will the doctor never come? When there is croup in the house you can't get the doctor quick enough. It's too dangerous to wait. Don't make such a mistake again; it may cost a life. Always keep on hand a dollar bottle of

Ayer's Cherry Pectoral
It cures the croup at once. Then when any one in the family comes down with a hard cold or cough a few doses of the Pectoral will cut short the attack at once. A 25 cent bottle will cure a miserable cold; the 50c. size is better for a cold that has been hanging on.

Keep the dollar size on hand. About 25 years ago I came near dying with croup, but was cured with Ayer's Cherry Pectoral, since which time I have found it a medicine in the house and recommend them to all my friends. C. M. ALLEN, Druggist, Bristol, Vt. Jan. 16, 1899.
Write the Doctor. If you have any complaint, write the Doctor the best medicine advice, write the Doctor freely. Dr. J. C. Ayer, Lowell, Mass.

THE TILLAMOOK LIGHT.

Perched on the Highest Point used by Our Lighthouse Department.
The highest point used by the Lighthouse Department of the United States Government as a signal station is a precipitous rock in the northwestern part of Oregon, called Tillamook Rock. Its great height and perilous situation tend to make this rock the most avoided one on the government list, and it is only after long and careful search that men are found who are willing to go as keepers to the station.
Tillamook Rock Light Station is in the Thirteenth Lighthouse District, which includes the coast and rivers of Oregon, Washington and Alaska. It is situated in the midst of the surging Pacific, with ninety feet depth of water on all sides, at the great storm center of Tillamook Head.
It is eighteen miles south of the entrance to the Columbia River, and one mile southwest by a half a mile west from Tillamook Head, on the Oregon coast. The water near Tillamook has such a strong and unceasing current that vessels unacquainted with the coast are warned not to attempt the passage. The rock, which has a summit of eighty feet above the sea level, is an irregular column of basalt, apparently separated from Tillamook Head on the mainland by untold centuries of erosion prior to the days when the sea was receding on the Pacific and encroaching upon the land on the Atlantic.
The reason for the difficulty in securing keepers for Tillamook is said to be that a man not only risks his life in accepting the position, but his reason as well. At present a keeper and four assistants are provided, for the double purpose of dividing the watches and mitigating the awful isolation that tends toward unsealing the reason.
The mere monotony of seeing the same face of a man, of course) day in and day out for months and years, amid the same wild scene and in the same narrow treadmill of labor, is irritating. It heightens dislike by its very annoyance of monotony. It is so different when the face is that of a woman—a wife.
The redeeming feature of Tillamook Station is its Elysian sequester, known as the chinook wind, blowing with perennial delight from the northwest in Summer and imparting unequalled longevity, and coming in Winter from the southwest with healing on its wings.
Baby's overplus of Brain.
"Oh, John," exclaimed the fair young mother, "I am glad you're home. I have been so worried."
"Why, dear," he asked, "what's the matter?"
"It's about the baby. I tremble to think of it. You know they say children that are too smart never grow up."
"Yes, yes," he cried, "go on. What is it? Where is our darling? What has happened? Go on."
"John," she said, putting her arms around his neck and sobbing upon his breast, "he said 'Da, da, to-day, and he is only nine months old.'—Tri-Bla.
