DINGMAN'S FERRY.

The fence club has had an old fashioned pot-row to discuss affairs.

Our servant Governor Stone in his proclamation says we should be thankful for our bountiful crops this year, we think he has not visited here.

The business of the day is chickens, roasts, steaming chickens, hold-ups, dances and revivals. It looks as if the devil would reap a bountiful crop by Christmas.

Reeder Morgan, the butcher, was held up one night last week in the woods back of Long Meadow when returning from the Raymondskill Valley. It is said he was saved by the speed of his horse.

Our roads will be in a smooth condition this winter. The Supervisors are filling in gravel with the money not expended in the spring. No doubt they will all be re-elected.

Those willing to work have no excuse for being idle this winter. Yetter has two large lumber tracts in Lehman, Wolf one in the same township and Donaldson one in Delaware.

John Smith, for several years manager at Ardross, is now residing on his farm.

Heavy weight porkers are scarce this fall, bountiful crops may be the reason.

John Youngs, of Tri-States, will take his engine and machinery to Blooming Grove Park where he has a contract to drive two wells.

The snow storm Saturday turned to rain.

Van Etten Bros. have slaughtered about a dozen 250 pound pigs. The price is 6 cents for heavy and 7 for light.

Eggs will soon be 30 cents for the whites and on a strike.

Our excellent collector was around last week notifying delinquents that the five per cent would go on taxes after Nov. 28. Such consideration should not be forgotten at election.

Revel meetings have been held at Centre this week.

David Heater on his way to church found a pocket book and returning discovered its owner, Mrs. Babcock, and restored it.

Mrs. Hattie Van Etten visited her friend, Miss Fannie Titman, a day this week.

Jas. B. Angle recently killed a fine deer.

One hundred and sixty-five cans of trout fry are on the way destined to be placed in the dams on Adams creek.

David Cron is making repairs to his dwelling.

SANDYSTON.

Talk about Belgian hares not paying, I heard the owner of a fine lot, make an offer for hares, of a certain age, that startled me, and the party making the offer meant just what he said. The fault with many breeders of these animals is, that they do not exercise enough care in breeding consequently instead of getting the best kind of breeding they get all colors and that is the kind to bring fancy prices.

The Rev. Mr. Post has been holding revival meetings at Layton for the past month, and I am sorry to say with little or no success. He has been ably assisted by prominent ministers but with no avail. The meetings closed Sunday night.

A mite party was held at the residence of Bez. Smith at Bevans on Thursday evening last. The rooms were comfortably filled and all had a good time.

Walter Drake and Henry Elliott went to Newark on Thursday last in pursuit of a position. Every country boy thinks, if he can only get a position in the city then he is on the road to prosperity, but in many cases the country boy will save the most money by remaining at home. The girls go to the factory and the boys go to the trolley and where the farmers help to come from is a question.

I notice a writer in the Newark Sunday News comes out strongly against vaccination. Whether she is right or not, the argument advanced by the writer is pretty convincing and then she shows by statistics that vaccination does not protect a person from taking the disease and that frequently persons contract diseases from vaccination which would lead one to believe that vaccination is more superstitious than any thing else. Let the people decide for themselves whether they will be vaccinated or not then no one can find fault.

The ladies of the Doreca Society of Hainesville will give a turkey dinner in the basement of the church on the evening of Nov. 28. The ladies of that place always have tip-top suppers and this will be no exception to their rule and it will go ahead, rata or shine. Get your girl and go, and thus assist this society in their first effort.

I see there is some talk in the State press advocating the holding of the spring and fall elections at our election in the fall. It would certainly curtail the costs of the elections and I can see no reason why our lawmakers should not give it a trial and if it won't work, go back to the present ways. The elections of the present are pretty costly affairs and when the result does not go your way it hurts. Let us hear the opinions of the people on this matter.

I read in the Gazette that the cremery at Montague will close for the winter. It has been a success

PAUPAC.

The people of this section, as well as all over the country, are suffering from the drouth. Wells and springs that have not failed for years, contain little or no water, and unless we have rain before winter sets in, our people will be put to great inconvenience to obtain water.

Mark Edgar, of Scranton, has been visiting his grand parents, M. N. B. Killam and wife.

Mrs. Walter Vettelein attended the wedding of Miss Louise Krusi, at New York, the beginning of the month.

Mr. and Mrs. E. L. Guest were the guests of C. E. Williams and family last Sunday.

Miss Eunice Kimble is at home with her parents for the winter.

A number of hunters have returned from their hunting expeditions, the majority of them without bagging any game. B. F. Kilham and party—including Frank Nicholson, of Salem,—on their return reported having seen very little game and as the springs and brooks are all dry, it was their opinion that deer had retreated to the marshes.

School re-opened at the Red school house on Monday after a vacation of two weeks.

Charles Doppel, of Tafton, has purchased of Sheriff Vandermark the farm occupied by W. W. Bennett, and thither he intends to move in the near future.

The most popular street song heard among our young men seems to be "Oh! I'm so dry." This surely ought not to be the case judging by the quantity of older turned out by our steam older mill this fall.

Our lads and lassies are to be numbered among the brave and those that take their evening walks near our cemetery certainly have no fear of ghosts.

Getting Thin

is all right, if you are too fat; and all wrong, if too thin already.

Fat, enough for your habit, is healthy; a little more, or less, is no great harm. Too fat, consult a doctor; too thin, persistently thin, no matter what cause, take Scott's Emulsion of Cod Liver Oil.

There are many causes of getting too thin; they all come under these two heads: over-work and under-digestion.

Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself with your work. You can't live on it—true—but, by it, you can. There's a limit, however; you'll pay for it.

Scott's Emulsion of Cod Liver Oil is the readiest cure for "can't eat," unless it comes of your doing no work—you can't long be well and strong, without some sort of activity.

The genuine has this picture on it, take no other.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

and I earnestly hope that the stockholders of the one standing idle at Bevans will take time by the forelock and have that running next summer. It certainly can be made a success and undoubtedly will open this coming spring.

The "hasking math" and dance are with us again and the farmer at Barton Latta on Friday night was a success. A dance is scheduled for the same place, one night this week and that it will be a success goes without saying. So long as the haskings are confined to haskings all right but keep the paste boards off the programme.
