The raffle for the rifle of J. V. Major came off Saturday night and was won by Alfred Elliott. Bruce Drake put up his \$2 col. rifle to be raffled for and that was won by Leo Elliott.

Some complaints are heard that letters do not reach their destination, but where the fault lies I cannot say. At least the party to whom they are addressed says they fail to arrive.

H. L. Rises to remark that he is surprised that we have hogs that at fact cows, and are four legged hogs at that. What kind of hogs does he suppose exists in this locality, but I will admit there are some hogs traveling on two legs but that species prey upon humanity, not cows. If there is none of that breed in his vicinity, he is thankful.

Congressman Grant attacked the sale of Oleomargarine in the House on Friday last and succeeded by a vote of 198 to 92 in placing a tax of ten cents per pound on colored Oleo, and the two cent tax on uncolored is reduced to a quarter of a cent a pound. The day before the House by a vote of 246 to 88 knocked the canteen out, and of course the W. C. T. U. must be happy and the soldier has nothing to say. Score one for the ladies.

If there should come a snow it would stop all all hunting, as it is unlawful to kill or have game in possession while the ground is covered with snow. The fishing season for black bass, pike, perch, yellow perch or white bass ended on Nov. 30 and top it all, you cannot slip your game out of the state after you get it, under a fine. We are getting pretty near the point of having neither fishing or hunting.

The farms of the estate of E. H. Smith were sold at public vendue on Saturday at the hotel of John A. Westbrook. The homestead brought 18 dollars per acre and was knocked off to Wm. T. Smith. The farm at Hainesville brought \$25 per acre and was bought by James Black of Montague. Not many years ago this property cost \$80 per acre. The first named property contains 96 acres and the last 130 acres. At the same time Mrs. Zelma Van Fleet sold her place consisting of 17 acres to Jos. Johnson for 550 dollars. The above are all good properties and the rule seems to hold good that farms in this section bring just about the cost of the buildings thereon, and in several instances not that. If the times are so good, will some one tell me when the boasted good times will strike farm lands.

Saturday was an ideal spring day and it is not often that we have such weather at this time of the year. While other sections of our country are getting their due share of rain we are still suffering from lack of it. The recent rain has not helped, the wells and springs to any appreciable extent yet we hope before freezing weather sets in that rain may be forth coming.

The donation given the Rev. E. H. Post was well attended from the Layton end of the charge, and am sorry to say that the other end failed to respond in person and dollars. However, all had a good time and left the Rev. gentleman financially better off, to the extent of 16 dollars.

A Christmas entertainment is being talked of to be held in the church at Layton. If they intend holding one it is time drilling the children should commence. The time is getting short.

Consumption

is destruction of lung by a growing germ, precisely as mouldy cheese is destruction of cheese by a growing germ.

If you kill the germ, you stop the consumption. You can or can't, according to when you begin.

Take Scott's Emulsion of Cod Liver Oil: take a little at first.

It acts as a food; it is the easiest food. Seems not to be food; makes you hungry; eating is comfortable. You grow stronger. Take more; not too much; enough is as much as you like and agrees with you. Satisfy hunger with usual food; whatever you like and agrees with you.

When you are strong again, have recovered your strength—the germs are dead; you have killed them.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

FROM ANOTHER CORRESPONDENT.

Reading an old paper recently concerning the effort of Rev. Sheldon in Kansas to edit a paper as Christ would do. We were impressed with the idea that if every one would make the attempt to follow in His footsteps exactly many more souls would be saved, but one incongruity would be that Christ never married.

Van Etten Bros. do not deal in fies this winter. Our active makers are on contracts and do not cut their own timber. Struble is buying and that will leave few for this place.

We observe among the items of Sunday observer that a whiskey vat was open down here about election time. That is one of the fertilizers which keeps the spot green.

Wolf Bros. steam mill is working on Donaldson's timber.

Porkers are scarce down this way. Many pigs died last spring apparently from some epidemic disease.

The rain started the wheels of our grist mill a few days ago.

Jersey roads must be muddy judging from the amount of soil sticking to vehicles coming over the river.

Cow buyers will need to come early next spring to secure stock. The practise of selling calves with the cows depletes the supply.
