PIONBERS TO BE HONORED.

Early british of Oregon Ase hash to Bare as Ariyontive Bunkment.

It has been decided by the planeer manument committee of the Society of Oregon Native Sons, with the conters, to hold in Portland next year w grand existration to just a week of ten days. While the plans are not fully matured, the consensus of opinion among insinces men, as expressed by many of them, is that it will be more ratiafactory to have it take the place of the annual exposition; that we should make it a state of fair-an exhibition of the wonderful improvements in manufacturing/ appliances and machinery in the nearly three-core years of our governmental existence and offer every encourage ment to the people to bring in the his torical reflex ther have laid away, savi the Portland Oregonian.

Bealdes the attractiveness of such a feature it will give ur histories. society an opportunity to augment its afrendy valuable collection. The Native Sons and Native Daughters pre historical societies, their common ab ine in ject being to see that the history of Pacer. the early days of the land of "inter-minable woods" is duly recorded. The purpose of this establishment is to raise money to hold a monument to the openes. It is proposed to erect in Portland a memorial building on ope of the Park row blocks which can be n meeting place for the pioneers, in dim war externs and the Oregon Historical scelety and as a depository for the archives of the latter.

GAMBLING FOR OFFICES.

Deligions People of London Scandalized by a Recent Occurrence in Pelities.

Some of the ultra religious people here are expressing astonishment that tie in the vote for member of the rough council was decided the othe cay by lossing a penny, says a Londor paper. They insist that the element o ought to have been eliminated m English politics long ago. As a is in the British constitution for Riu hance to build his throne in, and it i not many years since the house of commens deliberately asperioned the appost to chance in certain emergencies When city conneits were being estab-lished in Sectland the question arose it rilament as to the choice of a chair-in of the joint committee in case of equality of votes, and it was proso be taken by lat. Serious members bjected to such a frivelous method or deciding an important matter, but the mover of the resolution reminded the house of the apostolic precedent, and it was decided by a majority that what was good enough for the election of successor to Judas Isearlot was good nough for the chairman of a joint committee. So that the Camberwell election is likely to stand in law.

STORY TELLERS ORGANIZE.

They Will Receive Protection as Encouragement Down in Maine,

Long-distance story tellers have had a new field opened to them here. At Waterville, Me., an organization has een formed with the purpose of bring-ny together the best and longest "yarn ers" in Maine and award prizes. The cering was held in the parlors of the Elmwood hotel, where, according to the rules, all the storics must be told. The official little of the organization is the The meetings of the association wi

be held whenever the president shall accure storytellers who desire to enprizes for the longest and best original The rules will allow a story teller all the time he may ask for the telling of the story, to be continue with time out for meals.

Some of the best storytellers of the state have joined the association. Joho R. Mason, of Bar Harbor, who holds the erourd for long talking, sent a letter of application for membership. Mr ason secured his record at St. John, R., in 1865, when he teld a story, nuffing it up as he went along, for 25 murs. All stories must be free from entures that would be objectionable

PICTURE COST A FORTUNE.

One of the Duke of Marthorough's Art Trensures Worth a King's Manson.

The coefficit picture in the world is owned by the duke of Marlborough the has a large and very expensive ent tion of pictures which has com to him from the original duke Mariborough, says the St. Louis she-Democrat. The rarest of them the Blenheim "Madonna," painted to Ruphuel in 1207 and now valued a con. The picture was original; pulnied for the Church of the Service berugia. It is eight feet high, repre enling the mediana and child seated on a throne, with a figure of St. Joh the Elaptist on the left and that of St. Nichalas of Bart on the right, the last un heing life size. Its high value is due to the fact that it is one of the best preserved of the pictures of Raphael which are now in existence. It has been proposed that the British government buy this plature. Blenheim palace is seconded in honor of the buttle which the English, noder the duke of Markhorought won over the French, and was the walls of the castle.

NEW SOURCES OF ALCOHOL.

The Stimulating Product is Now Obtained from Several Atrienn Plants.

It is announced in the Revue des Caltures Coloniales (Paris) by Ch. E viere, of Algiers, that alcohol may) obtained from several African plannamely, the carob, the aspholel, the squill and the alfa. The fruit of the carob is a pod with very sugary con tents. The saccharine gum that form on its surface often ferments of itself Dry pods yield 41 per cent, of suga and 100 kilograms (62 pounds) give about 20 liters (five gallons) of absolualcohol, or 40 or 50 per cent, of alcohol. The alcohol is of good quality, but can not be freed from a disagreeable smel and taste. Asphodel alcohol has a re pailsive odor and disagreeable tuste and

is as harmful as it is displeasing. It is the tuberous root of the plant which is very common in Algiers and Tunis, that yields it. M. Riviere be lieves that with sterilization and purification it will furnish a grade of also hol superior to that obtained from bed root or molasses. As for the squil which is also very abundant in Algier it gives interesting results, notwith standing its aerid and toxic qualities The alcohol is not of as high grade as that from the asphodel, but it is fice from furfural and contains a very sma proportion of the higher alcohols Finally, the alfa yields alcohol from lis leaves. This alcohol has a very balloder, but it is more likely to be used practically than that from the other plants, since alfa is already cultivated as a grain and for paper-making.

Doing the Dieagreeable.

Naturalists say that, when examined minutely with a microscope, it will be found that no creature or object in nature is positively ugly, that there is a certain harmony or symmetry of parts that renders the whole agreeable rather than the reverse. So the most disagreeable tasks in life, when viewed in their proper proportions, reveal a poetic, an attractive side, hitherto undersmed of. Look for the Warning.

Heart disease kills suddenly, but never without warning. The warnings may be faint and brief, or may be startling and extend over many years, but they are none the lass certain and positive. Too often the victim is deceived by the thought, "it will pass away." Alas, it never passes away voluntarily. Once installed, heart disease never gets batter of itself. If Dr. Miles' Heart Cure is used in the early stages recovery is absolutely certain in every case where its use is persisted in.

"For many years I was a great sufferer from heart disease before I finally found relief. I was subject to fainting and sinking spells fullness about the seart, and was 'nable to attend to my household dubes. I tried nearly every remedy that was recommended to me and doctored with the leading physicians of this section but obtained se help until I began taking Dr. Miles' Heart Cure. It has done me more good than all the medicine I ever took."
