DINGMAN'S FERRY.

We really pity the idiot who fires the buildings of Robinson Shephard, but it is doubtful if he has any conscience or that remorse for the cruel act of causing the sufferings and death of innocent animals will ever trouble him. Such a person however must always walk in fear and trembling lest he be found out and punishment be meted out to him.

The Fence Club at a recent meeting proposed, and it was agreed to by the members, and all readers of the Press who own property on which they live, to occupy their spare time this winter in getting material ready to build what each one would call a model road to suit the lay of the land, along the frontage of their buildings or more if possible. A few days in spring will grade it properly and if this is carried out all will be benefited.

Cesar was equally unfortunate with Rumber in not finding his stockings full. We hope some Press readers faced better.

The need of the country is to have well trained and educated help in all departments of labor. Milford has rooms where young men can go and improve their minds and morals, and girls too should have some place where they might be educated along lines which would fit them for good positions, such as competent cooks or housekeepers. There is a dearth of such help and young ladies who are proficient could command excellent salaries. This is worth a trial and we hope to see some effort made in that direction.

We read of the success of creameries but do we hear of those that are failures?

Some people down here were quite hilarious over the remarks of Mr. Schwarz at the institute, that next to clover, turnips made the best green manure but after examining the remnants of the crops came to the conclusion that the lecturer was right. There are two varieties of cow horn turnips and the species that runs down in the ground is the kind to plant for manure purposes.

John Heid, of Brooklyn, was here recently looking after a farm, but did not purchase because of the price asked.

Send your name or a postal card to H. P. Arnaby, State College, Centre Co., Pa., for a card of membership and you will receive regularly all their bulletins and answers to any questions asked. The last bulletin No. 54 gives the manual value of the excreta of milch cows.

Charles Martin has brought the E. Vandermark farm.

It looks as if Metz Bros will raise dollars where turnips could not be raised to make them pay. Use land for what it is best adapted and it will pay.

PAUPAC.

'Tis a queer winter we have had thus far—neither snow nor rain. We miss our sleigh rides and some of us miss the water for the well (or spring) has run dry. Water courses that heretofore have at this season been full to overflowing are now as dry as the main road, and some of our neighbors are put to great inconvenience to obtain water for household uses. We wonder would it have been different if Bryan had been elected.

Mrs. B. F. Killam spent the past week at Paupac.

Miss Esther Killam returned to her home last Saturday after a weeks visit with friends and relatives in Soranton.

We are sorry that Mrs. A. J. Kimble is now in the care of the doctor and trained nurse. She has typhoid fever last reports were that she was rapidly improving and we hope soon to see her about as usual.

We also hear that Lewis Spangenberg is down with the same complaint. We have for some time missed seeing Lewis with his horseless wagon, and we trust he will soon again be on the route and give his usual call.

Our neighbor Henry Clark too has been quite seriously sick, but we are glad to report that his condition has greatly improved.

Mrs. Artemus Simons, of Hawley, spent the beginning of the week at her former home here.

Misses Isabelle Anley and Gertrude Pallett, of Soranton, have been spending the holidays at the homes of their parents at this place.

Henry Gumble has been on the sick list for a few days the past week.

One of our young men is contemplating a fitting to the sunny south and a future residence in the "Lone star" state. The ranks of our young people are rapidly thinning and one more will be sadly missed, as it is more than one person will be singing "Don't you go, Tommy, don't go."

SANDYSTON.

Dingmans in last issue sizes the situation over there about eight and when the next Institute comes along the good people of his vicinity will turn out for they must know by this time that they missed a mighty good thing by not attending this one.

Mrs. Hannah Maria, wife of Daniel D. Everitt, died at her home in Montague on Friday last. She leaves several children, all grown to adult age, and one brother John L. Creveling and one sister Mrs. Mark Sigler, both of Sandyston.

Albert Tillman, of Port Jervis was buried at Layton on Friday last. Many years ago he married Miss Phebe Layton of this place who died several years ago. Shortly after their marriage he moved to Port Jervis and resided there until his death.

For the past month we have had very fine roads only one little drawback to them and that is the loose stones. Throw them out and our roads would be first class.

Dayton Dupue and H. E. Montrose visited "Mink" pond over in Pike, and returned on Thursday night with 50 fine pickers. From what I hear that is the best pond for catching pickers. It is a won't be some city chap has not bought that pond and sent the public out. That is one of the many things that are done in Jersey.

Leo Elliott has rented the farm of R. H. Everitt near Layton, and will work the farm on shares the ensuing year. Leo is a hustler and will make it go, if any one can.

The dime social held at the residence of Mrs. Nellie Bevan on Thursday last was for the benefit of the Dorcas Society, and as the attendance was good the neat sum of \$10.00 was added to the treasury.

Miss Bertha Stoll, the energetic teacher of the Shuyton school, spent her two weeks' vacation with friends and relatives at Madison and Dover.

In talking with a neighbor he remarked that there were very few deaths in this section that had had no deaths in the past 30 years. Thinking it over I found he was right, and in many instances there had been several deaths in some residences. I keep a record of all deaths, and have for over 30 years, yet the above thought had not occurred to my mind.
