SANDYSTON.

In the recent report of the two banks at Newton I saw that the amount of deposits subject to check aggregated the sum of \$750,000, and I presume the bank at Deckertown has sufficient deposits to raise the total to a round million or more. This is a pretty good showing for an agricultural county.

How many there are, who will sleep over the time allotted them for paying an assessment, when they know that in case of a loss by fire they forfeit their insurance. They mean to pay it, but delay may prove costly sometimes and there is no time like the present in such matters.

A Mite party was held at the residence of Joshua Shay on Thursday night and the event brought out a crowded house. Everybody had a good time. The receipts were \$5 10.

The dance held at the Brick House hotel, on Friday evening, was well attended, and everything passed off to the satisfaction of all concerned. Montague is the place where dances are conducted as they should be and as a rule are largely attended.

On Saturday upon calling upon Randall Sayre I was shown the finest specimen of a Jersey heifer that I know of. She is a beauty in appearance and size, considering her age.

The school building at Dingmans was burned to the ground early on Sunday morning. Parties had been setting the building to rights the day before and as the chimney had turned out no one thought there was any danger. As the fire was first discovered in the roof it is thought to have started from fire smoldering about the chimney. Nothing of value was saved. The building was insured for \$1,200.

The amount of \$1,400 has, or will be asked for at our ensuing town meeting, and I understand that a greater part of this money will be used in hauling gravel upon our main roads. That is right and every driver of a vehicle will say ahead and gravel every main road in this town.

Town meeting is not far away and I am told that several candidates are hunting to be elected to some office in order to serve their country and rake in a few of the "long green." Let voters think the matter over and vote for the best man regardless of party, for Sandyston needs a shake up from top to bottom in its official line.

Again I call the attention of the proper officials of our town, to the fact that the two schools along the river are each running with from 1 to 5 pupils, and here we are paying 50 dollars incidentals per month for this work. It is an outrage upon the town, and the remedy is consolidation of these schools. Dare the Board do it?

It's Easy To Take

Thin, pale, anemic girls need a fatty food to enrich their blood, give color to their cheeks and restore their health and strength. It is safe to say that they nearly all reject fat with their food.

SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA

Is exactly what they require; it not only gives them the important element (cod-liver-oil) in a palatable and easily digested form, but also the hypophosphites which are so valuable in nervous disorders that usually accompany anæmia.

SCOTT'S EMULSION is a fatty food that is more easily digested than any other form of fat. A certain amount of flesh is necessary for health. You can get it in this way.

We have known persons to gain a pound a day while taking it.

CASTE OF TURKISH WOMEN.

Ottoman Fair Once Always Fair Continuation from Social Interiors.

A Constantinople correspondent of the London Telegraph writes: "It is not generally known that there exists among Turkish ladies of high class a kind of caste feeling similar to that prevailing among the Hindus. It takes the form of a fear of contamination, on from the outer world, and is only observed, as far as I know, by those who cannot afford to keep servants in sufficient numbers. Before meals ladies always wash their hands at a tap from which the water runs into a marble basin. They will turn on the tap when they are just going to wash, but when they have finished they let the water run till somebody shuts it off, as to do it themselves would make them unclean. They cannot open or shut a door, as the handle would be unclean, so a slave is generally kept handy for the purpose.

"One of these fastidious ladies was talking to a small niece the other day who had just received a present of a beautiful doll from Paris. The child presently laid the doll on the lady's lap, who was horrified and ordered the child to take it away. As the little girl would not move it, and no servant was near, and the lady would be defiled by touching a doll that was brought from abroad, the only thing she could think of was to jump up and let the doll fall, which broke to pieces. The same lady will not open a letter coming by post, but a servant opens it and holds it near her for her to read. If her handkerchief falls to the ground it is immediately destroyed or given away, so that she should not use it again. This sort of state of exclusiveness or fanaticism exists, I am told, in many of the large harems. Among men it is not practiced."

New Zealand's Finances.

New Zealand's revenue for the last year shows a surplus equal to more than \$3,000,000 over expenditures. The public debt of the colony stands at \$228,715,000, and the financial statement proposes that parliament should authorize another \$4,500,000 loan to be expended chiefly in the extension of railways. The loan will no doubt be authorized.—Chicago Inter Ocean.

Additional Local Matter.

Dr. J. T. Rothrock has been appointed by the Governor, and confirmed by the Senate, Commissioner of Forestry under the new act making that a separate department. There could have been no better selection made for the Dr. thoroughly understands the science of forestry, is indefatigable and doubtless will develop the State lands to the highest degree possible.

It is stated in some papers that a company known as the Sussex Light and Power Company, with a capital of half a million dollars, has been incorporated at Trenton, with authority to dam the Delaware river where the New Jersey boundary line intersects with that of this and New York State. It contemplates carrying on the electric light and power business. Wonder if the same act will creep into our Legislature.

A bill has been introduced in the Senate providing for the construction and maintenance of side paths in townships for the use of bicycles and pedestrians, providing for the election at November election this year and every three years thereafter, of three commissioners, no voter to be allowed to vote for more than two candidates. It also provides for the assessment of bicycles and the levy of \$1. annual tax on each wheel.

A terrible state of slavery is said to exist in parts of South Carolina. Under a contract to hire negroes, and occasionally white men are imprisoned in stockades, brutally treated and compelled to work. The outrage has grown up under a system of convict leasing in that state. Judge W. C. Bonet of the State Circuit Court recently in a charge to a grand jury directed an investigation which may develop the horrors of the system.

Since the discovery and application of ozone to use for various purposes, there will be no occasion for lovers of old whiskies to drink that which is not aged. By means of ozone the bilious fluid can be given the age and color in a few hours which formerly required years of time. This must necessarily cheapen 17 year old rye and its effect will probably be just as certain and prompt and the headache and other attendant next morrow's headaches just as realistic as from the ston pure stuff. Wonderful science in annihilating time.

The Organ Fund Association of the Presbyterian church expects to give the third, and last, of its series of entertainments in Brown's Hall, Friday evening March 15, and will make it a pleasant occasion. Prof. Leopold Fenner, of Port Jervis, a violinist of note, will have the music in charge and will be assisted by Mrs. Almarn Phillips, who sings with pleasing effect. Messrs. Hammond, Crane, Fenner and Sweeney will render a quartet. Admission 40 cents, children 20 cents.

WAS ALL FIXED.

One of the churches in a little western town is so fortunate as to have a young woman as its pastor. She was called to the door of the parsonage one day, and saw there a much-enamored young farmer of the German type.

"Dee said der minister lived in dis house," he said.

"Yes," said the fair pastor.

"Vell—me—I—want to kit merit!"

"To get married? Very well, I can marry you," said the minister, encouragingly.

"Oh, but I got a girl already," was the disconcerting reply.—Brooklyn Life.

His Impression.

Uncle Hiram—"Did I ever consider the question of the origin of evil?"

Uncle Silas—Well, I always thought the politicians was responsible for a good deal of it.—Pack.

Rather Encouraging.

He—What do you think is the most appropriate name for a girl?

She—That all depends upon the girl. Your name would suit me all right.—Tit-Bits.

A Danish Proverb.

Beauty without virtue is a rose without fragrance.

A Preference.

Rev. Dr. Fourthly—I honestly believe you think my sermons are too gloomy. Miss Park Slope—Well, frankly, I do like the more cheerful, he-married-the-girl-and-they-live-happy-ever-after kind of sermons best.—Brooklyn Eagle.
