SANDYSTON.
Two men at Bevan's are happy and they have reason to be. The wife of Ezekiah South presented him with a son in the morning and in the afternoon the wife of George Van Shale made him a similar present.
The residence of George D. Shay in Shayton was burned to the ground on Friday noon. The family were eating dinner when a neighbor discovered the fire in the roof. They saw that nothing could be done to save the building and endeavored to save the contents. The furniture in the lower part was carried out but everything above was burned.
Madison Shay on Monday last moved from the Van Ethen farm near Tuttle's Corner to the Westbank farm over along the river.
The town committee met on Saturday last and appointed road overseer and apportioned the road money. The method of district overseers is the one in vogue and the shovel and the hoe rest will come into play but it is hoped that the roads will be put in good order.
When a man runs for an important office and puts forth his greatest efforts to attain the desired office and when the final count is announced and nine votes is the measure of his popularity wouldn't that jar the aspirant. I think it surely would and it certainly did.
The contract for rebuilding the school house at Dingman's Ferry was given to Joseph Benschley on Saturday last. The new building will be placed on the site of the one recently destroyed by fire and will be several feet longer in length and width.
Harry Benschley and family left on Saturday for his new place at Summit, N. J. Miss Edna Shoemaker will remain at Layton for a few weeks.
Mr. John V. Major, of Layton, is lying very ill at this writing with a complication of diseases and his life is despaired of. He has been confined to his bed only a few days.
Mrs. Abbie Warner had the misfortune to fall on Sunday last and broke her hip. She is well along in years, and this will probably render her a cripple for life.
The first of April once had good roads free from mud but the wind was terrific and blew a steady gale all day long, and there was more moving than I ever noticed before. But all reached their destination without accident.
Frank McKeeby moved from the Robt. Everitt farm into the store house of Frank Rosencrance in Centerville and will continue the mercantile business. Rosencrance moved in with his father-in-law near Hainesville.
Overseers of road now that they are appointed should start in at once to repair the washouts. If those appointed are as solicitous as some of the outgoing Overseers are our roads will be boulevards especially in front of their houses even if it is done after term of office has expired and the committee should sit down hard on such mesally bills, once for all.

DOWN THE COUNTY.
RECEIVED TO LATE FOR LAST WEEK. Jupiter Pluribus is in evidence.
An unusual number of vendues are taking place in Smithfield, Monroe county.
A farewell dance is to take place at Wm. Trebbles, in Lehman, this week.
Samuel Ward, an old citizen of lower Lehman, has recently been very sick, and is still much indisposed.
A very pleasant time was had at Wm. H. Stoddard's house last Thursday night, when a happy party of young people assembled there to trip it as they went until toward morning.
Harmon Heater is to move upon the Peter Pierce property (near Schuyler's) this spring, and has placed an entirely new roof on the house located on the premises.
At the present writing (Wednesday) Mr. John Eshback, near Bushkill, is lying very low with that dread disease consumption. For some weeks Mr. Eshback has been steadily failing, and no hopes are entertained of his recovery. He has since died.
On Sunday last Mrs. Barbara Titman, widow of Jacob F. Titman, was dangerously sick, and so was Mrs. Peter Smith, also of Delaware. Both these aged ladies are held in the highest esteem by the entire neighborhood, and all deplore their critical conditions.
In the lower district of Lehman there will be many changes of location among those who rent farms. In Monroe the case is the same.
George W. Raitt, of Center, has lost one of his mules, and this adds much to his already severe misfortune. He deserves the sympathy of the entire neighborhood.
Joseph Benschley's boys have their steers saw pull on "Toma Creek" in position but it is found that the boiler is unable to generate sufficient steam to do heavy work, and it will be necessary to procure a new boiler. Truly we are sorry for this set back to the progress of the work they have in hand.
There seems to be quite a scarcity of hands for farm work and a general demand for laborers prevails.
There have been a few cases of scarlet fever in lower Lehman, but the type is not malignant and as no new cases are developing the alarm at first felt in the community is disappearing. The Bushkill Independent school closed for a couple of weeks until it could be seen what the result would be.

DINGMAN'S FERRY.
Some farmers are running around trying to find help for the summer. Considerable of the land here is so poor that the owners can hardly raise enough to pay the wages and have to take the butter and eggs, the money for which ought by rights to go to the wife, to help pay their hired help. Better put some kind of fertilizer on the land to make crops grow and then plant less and gather more.
The Academy at Dingman's will no doubt be rebuilt on the former site. The land was deeded by Judge Dingman for school purposes, and it abandoned it might revert to his heirs.
Some ice houses here were not filled because of the ponds being dry from whence the supply came.
Sheep raisers are losing many lambs this spring and cows too are having bad luck. It may be caused by the bad weather this winter.
Two accidents occurred recently at the foot of Donaldson's hill. Charles Martin had one wheel and the rest of his wagon considerably damaged and Howard Ambrose, of New Orleans, was thrown from his carriage because of a snow bank in the road and an icy slope with a deep gutter on the side. He went to New York for an examination for internal injuries.
Peter Smith and Charles Van Anken have gone to Jersey where they have secured situations for the summer.
A 4 1/2 mile tax has been levied this year to pay the township indebtedness and so stop interest. It may be that some politicians have a scheme to pave the way for other appropriations.
Our representative might try to have a law passed fining township authorities in all places where there are hills which could easily be avoided \$100 a year for every year they allow them to remain. Part of the \$22 a ton we have to pay for middlings here is probably caused by the fact that a team cannot haul a good load by reason of the bad hills and the tax on other products is no doubt in like proportion.

H., "who remedied himself until I began using Electric Bitters which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them.
