The franchise bills which passed the legislature last week, and were signed by the Governor, have been prolific of a large number of corporations designed to cover by their charters streets in Philadelphia and other cities, and it is said will effectively prevent cheaper fares. The bills were rushed through in hot haste and grant most extraordinary privileges to those corporations which are successful in obtaining charters under them. It is further reported that presents will be made to those members who "wont along" on the two bills. Senate members it is stated will be made richer by two and house members by one hundred saw bucks. As a matter of local interest it may be stated that our member and Senator both voted aye, and so, if the above reports have foundation, they are in the line of vision.

Attention is called to the synopsis of the new fish law in this issue. Preserve it for reference for the information of yourself and neighbors.

The Cuban constitutional convention adopted the Platt amendment Wednesday. Now that they have demonstrated their good faith in the United States it is expected that a reasonably speedy evacuation of the island will follow, and contingent on the establishment of a stable government this may be accomplished before autumn.

The Industrial convention held in Philadelphia this week brought delegates representing all the southern states and most of the principal cities. Speeches were made by many prominent men representing the commercial and industrial interests of the south and north and it is expected that great benefits will accrue from this interchange of opinions and through the deliberations of the delegates. It is the first time the convention has been held in the north.

Last summer the Deepark Reformed church of Port Jervis instituted twilight services which were so popular that they have just been resumed for this season. It would seem much pleasanter for a congregation to worship in the early twilight, before lamps were necessary, besides being to many people more convenient, especially during the warm season. The change has some novelty and might perhaps be introduced here with the result of a larger attendance at the evening services.

THE CHURCH COLUMN

"The Manifestation of God" is the topic for next Sabbath morning, and for the evening, "An Open Door."

The topic for the Wednesday night prayer service is "Forgiveness." "Forgive us our trespasses as we forgive those who trespass against us."

The Children's day service at Union was largely attended and was a grand success. Mr. Angle, the superintendent, may well be proud of the school. The earnest effort and devoted services of Mr. and Mrs. John Darling and Mr. and Mrs. Albert Gavaille, together with those of the faithful assistant superintendent, Mr. Frank B. Fletcher, have made the school at Union a great blessing to the community. The entire school and all their friends express their hearty thanks to Mrs. Nobs for the kindness shown in the treat that she gave to the primary department at the close of the Children's day service. Much thoughtfulness is very commendable and calls for our highest appreciation.

The Children's day services at the home church were largely attended there being over four hundred present. These are occasions of great rejoicing. All the children who had parts did nicely and deserve credit for their efforts. Those who have had charge of the training know best how to thank all who have given their time and effort to this occasion. The personal thanks of the writer are extended to all such and to all who labored so hard to decorate the church.

One of the subjects of great interest to all lovers of peace and order is temperance. The general public still needs enlightenment on this important subject. Mrs. L. E. Bailey, a national temperance lecturer, will visit Milford on June 24 and 25 and will give two of her popular lectures. The following is a report of her work in this state: "One could hardly conceive how a human being could put forth such untiring efforts, speaking in colleges and public schools and holding ladies' parlor meetings during the day, traveling and speaking to crowded houses, frequently so full that standing room was impossible. Yet her brain never seemed to weary while dwelling upon the all absorbing theme, the crushing out of the liquor traffic. Her clearness of thought as regards methods, her kindly, though energetic, forcible language, so convincing, won many, very many, to action and duty. May God send more such lecturers into the whitened field."

REV. C. E. SCUDDER.

Temperance Addresses.

Mrs. L. E. Bailey, the national lecturer of the W. C. T. U., who is to speak at the M. E. church here Monday and Tuesday evenings, June 24 and 25, will speak at Rowland Wednesday night, the 19th, at Walker Lake Thursday and Friday nights, the 20th and 21st, and at Dingman's Saturday and on Sunday, the 22nd and 23rd. The people of these places will do well to attend her meetings for she is spoken of in the press as of unusual ability.

Additional Local Matter.

The force of men on the Delaware valley railroad has been largely increased and efforts are being made to have the road in operation by July.

The United States leads the world in coal production. Official reports show that in 1900 over 267 million tons were mined worth nearly 300 million dollars. Pennsylvania led in the amount produced with over 57 million tons of anthracite and nearly 80 million tons of bituminous. Twenty-eight states mined the rest.

While tanked up to his fullest capacity last evening, Philip Moisenholder amused himself by throwing a dead rattlesnake which he carried in his pockets, his boots being already full of live snakes, around people's necks. He was interrupted in his diversion by Officer Wood and escorted to the lockup, and this morning the burgess imposed a fine of \$3.

Clarence Dewitt, whose radiant orbs are barely free from the pneumonia shades cast upon them by the dexter fin of J. A. Watts last week while in a little discussion over a telephone wire, had his opponent haled before Esquire Schorr last evening on a charge of assault and battery. After hearing the respective stories of the disputants the justice concluded there were two sides to every Johnny cake and that in this instance Watts had the better on his and discharged him but to teach him the lesson not to deal too harshly with impetuous youth he suggested he pay the costs, which he didn't do.

Compulsory Cleanliness.

Uncle Jeremiah Hayercraft had returned from a visit of a week with his relatives in the great city, and was at his customary place in the village grocery store.

"Well, Uncle Jerry, I asked one of the longhairs, 'How does life in the city compare with life in the country?'"

"Well," he said, reflectively, "in the country, ye know, we wash our neck an' years every day, 'cause hit's the right an' proper thing to do, but in the big city, 'y George, ye've just got to do it! An' that," added Uncle Jerry, shifting his gait to the other cheek, "is differ'nt." - Chicago Tribune.

FOR CHILDREN

Nothing that comes in a bottle, is more important for children than Scott's emulsion of cod-liver oil. And "important" means that it keeps them in even health on the highest plane of physical life.

"Do they live on it then?" No; they don't touch it, except when they need it. "When do they need it?" Whenever they show, in whatever way, the least disturbance of even balance of health. It is not for acute diseases, with some exceptions; it is for a slight falling off from first-rate condition.

It is to be used as a food, whenever their usual food does not quite answer the purpose of food.
