(From Cur Regular Correspondent.) WASHINGTON, D. C., JULY 29, 1901. Public commont upon the person-

nel of the court of inquiry named by Secretary Long to inquire into Rear Admiral Schley's conduct durtary Long has also been commended for instructing the court to render an opinion and make recommendations on the facts brought out by settlement of the controversy which has been deeply regretted, as it is quite certain that whatever opinion may be rendered or recommendations made by a court equiposed of Admiral Dewey and Rear Admirals cepted and endorsed by the American people. The choice of Captain cate general of the navy for more than nine years, for judge advocate of the court was quite as happy as that of the members of the court ified for the position, not only by ord of fairness toward everybody. Nothing but evidence will cut any sary to use it. figure before that court, which is as it should be. All honor to Secretary Long for having so chosen the court as to shut out prejudice and open the way for the unblased truth. Secretary Long is particularly anxious that the inquiry shall cover not only everything done by Admiral Schley in the campaign against the Spanish fleet, but also everything done by any other officer that has been the subject of public controversy. In a conversation, after saying that it was unnecessary to mention in detail everything in the precepts issued for the guidance of the court, he added: "Should there be any additional matter which Admiral Schley desires inquired into, the court will comply with his wish. The purpose is to have a complete investigation," Another popular thing that Secretary Long has done was issuing the order forbidding naval officers to publicly discuss the Sampson-
