GREAT DAYS ... AT THE ... PAN-AMERICAN

OCTOBER FLOWERS.
There is a beautiful display of them at the Pan-American—The Gardens of the City of Light are one of its most attractive features. Artistic scenes which the Lover of Beauty should not fail to see.

The Pan-American is one of the greatest flower shows that ever was, but there are so many other things in which it is great that the rarity and beauty of its floral features are perhaps apt to be overlooked. If people would take more time to allow the artistic and beautiful features of the Exposition to impress their senses and permeate their thought being instead of racing from one part of the grounds to another, trying to see every exhibit and every show on the midway, they would go home feeling greater benefit from their stay in the Rainbow City.

The Pan-American is full of gardens which tempt the visitor to rest while and drink in the beauties of nature. It may seem surprising that in the month of October there are flowers worth looking at, but such is the fact. The rains of the past few weeks have kept the landscape as fresh and beautiful as in May and June, and as one flower goes out of the scene another takes its place. On opening day the hyacinths filled the air with their dainty fragrance, to jump willows lifted their proud heads, later in the month of brides and sweet girl graduates came roses, with their rich perfume, and as the summer passed the other flowers in their season sprang up as if by magic to take the place of those which had done their blossoming and served their turn to the entertainment of the visitors to the City of Light. And now one sees the tall canna, the gay geranium and such old-fashioned flowers as grandmother's garden had—the phlox, the pink, the begonia, the petunia and other posies which are no less beautiful because they do not happen to be novel.

In entering the grounds by the Elmwood gate visitors pass two tall and curious looking trees, which perhaps few in their anxiety to reach the heart of the Exposition stop to notice. If they realize that they were century plants just budding, a thing which, as all know, century plants only do once in a long, long time, they would doubtless stop and look with open mouths and wondering gaze. It is a sight which one cannot see very often anywhere else. One of these century plants is nearly forty feet in height.

The Rose Gardens around the Womans' building, by going for their back-ground the outlines of the Spanish renaissance buildings about the main court and the Electric Tower looming up at its north end, with the Mirror Lakes and the Triumphal Bridge and the groups of stately abounding, form a scene whose artistic aspect must appeal to even the least artistic visitor. The canna are very effective decorative plants, with their tall leaves in green and red and brown. A rich canna one sees here is named Governor Roosevelt. It would seem appropriate now to change its name to President Roosevelt.

On the opposite side of the Triumphal Bridge is the Wooded Island, and here one roams amid old-fashioned flowers, growing as though they had sprung up there all by themselves without any assistance from the landscape designer and his corps of assistants. But of course that is not the case. The studied carelessness of the gardening of this island is only one of the pretty deceits employed to produce the impression that it is all the work of Mother Nature herself.

Have you seen the fairylike effects in the garden about the Fountain of Abundance at night? It is one of the new things. This small garden is very beautiful by day, and at night electric lights of different colors have been hidden among the flowers and plants, so that one sees the surface of the ground dotted with these little spots of light, bringing out the beauty of the flowers, and all forming a scene impossible to describe, but very charming indeed to witness. It is quite a pretty surprise even to old Pan-American visitors.

Did you ever notice in crossing the Court of Lilies, south of the Machinery building, a heavy vapor arising from the basin in the center of that court? Sometimes it has so much the appearance of smoke that people think something must be a-fire in the garden, but it is only the steam or vapor created by the heating of the water in that basin for the benefit of the tropical lilies which grow therein. These lilies, which are known as the Victoria Regia, have enormous leaves, some of them three feet in diameter.

Other gardens where there are flowers in bloom during this month of October are those in front of the United States Government building and the Horticulture group, where the gay geraniums and sweet petunias contrast their colors with the green flags growing in the basin and with the white estuary disposed along their slopes.

There was a floral fête at the Exposition during the first week of October, and this in its way, of course, was an affair of such beauty and magnificence; but, as a matter of fact, there have been floral fêtes at the Pan-American since opening day.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good delivered from H. I was a slave, chained with patrician sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overpromised yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-sized bottle."

Rev. Dr. Morris Wechsler, Rabbi of the Cong. B'nai Israel, New York, Jan. 8, 1901.

DR. TAYT BROS., MEDICINE CO.
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 15 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 10th street, New York. I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
Yours respectfully,
O. D. PHILLIPS, M. D.
