SANDYSTON.

A grand musicale will be given by Mr. & Mrs. Dr. Hughes at their residence at Layton on Friday evening of this week. Music and singing will be the order and every instrument from the mouth organ to piano will come into play. Refreshments will be served and a grand good time is assured.

On the 12th inst. Mrs. Frank McKeely and her father went to New York for the purpose of placing her son in the hospital for epilepsy at 155 Lexington Ave., corner 121 street. Little Frank has been afflicted with abscesses for the past eight months and as the hip bone was affected an operation was necessary. After careful, thorough examination Mrs. McKeely was assured that her son could be cured. The little fellow stood the trip very well.

At this time of writing, Tuesday, our roads are pretty well blocked up, the effects of yesterday's snow storm. The high wind is still piling them fall.

There is a piece of road leading from the Van Elton farm along the Big Flatbrook to the Hoenbeck farm of about one mile that is made impassable every time there is a freshet and the recent high water has almost destroyed it. It would be a good idea if it were changed to higher ground and thus save a lot of money that it annually costs to keep it passable. The attention of our officials is respectfully called to this matter.

Valentine day has passed and some of our citizens received pictures that showed mighty poor taste in the sender and the recipients are exactly of the same opinion. In fact if those pictures were placed in the cellar they would paralyze every rat in it. Don't think this indicates that I got one for I didn't.

We don't hear anything more about the Roe fish bill and the people would be glad to know whether it is constitutional or not. Everything comes to those who wait and if we wait long enough that decision will be announced.

The D. L. & W. R. R. gets more than its share of abuse, I sometimes think, but I begin to think the abuse is justifiable. Last Sunday morning I left Hoboken for Branchville at 4.40 and reached my destination at 10 o'clock. Our train being a newspaper train let Sussex passengers off at Stanhope, and here we waited in the dirtiest station I ever saw, and yet D. L. & W. stock is quoted close to the 300 mark.

While in Newark I called upon John Schooley, a Sandyston boy, and found him engaged in the office of the Miller street trolley company and has a lucrative position. He kindly showed me all through the car shops, office building and in fact the whole business, and when I left him at midnight he was still at work in the office.

Equal Pay for Women.

A man who deserves the gratitude of women is Director of Charities (Cooley) of the Cleveland, O. Workhouse. The principal industry in that institution is broom making, and the custom has been to pay the women just half as much for their labor as the men, although the records showed that their work averaged the same. The present director sensibly declared this discrimination "a rank injustice," and he has just abolished it.

Mrs. Ida H. Harper says in the New York Sun: "Some reforms have to begin at the bottom and work up. Perhaps this one in time may reach the public schools, where the same practice is followed."

Where women vote the public schools quickly feel the influence of it. In Wyoming it has for many years been the law that men and women in the state employ, including teachers shall receive equal pay for equal work. In Utah the laws that suffrage had been granted to women was quickly followed by the news that the legislature had passed a bill whereby female teachers in the public schools were to receive the same pay as male teachers, provided they held certificates of the same grade. These are among the practical results of equal suffrage.

Colds

"I had a terrible cold and could hardly breathe. I then tried Ayer's Cherry Pectoral and it gave me immediate relief."
W. C. Layton, Sidell, Ill.

How will your cough be tonight? Worse, probably. For it's first a cold, then a cough, then bronchitis or pneumonia, and at last consumption. Coughs always tend downward. Stop this downward tendency by taking Ayer's Cherry Pectoral.

The blizzard this week happened just in time to blockade the roads so there was hardly a fair expression of public opinion at the polls. The contest over constable was very warm.

Last week a large deer was chased from the backwoods to the river by three hounds. After it went in the water the dogs left but when it returned they pitched in again and then the deer crossed over to the protection of the Jersey game laws. If a man gets ninety days there for shooting one quail illegally what would the penalty be for killing a big deer.
