REPUBLICAN PRIMARY.

The primary election throughout Pike county will be held on Friday, April 15, 1902, from 3 p. m. to 8 p. m. for the following offices: Prothonotary, etc., one to be voted for. County commissioner, one to be voted for. County treasurer, one to be voted for. County auditor, one to be voted for. District attorney, one to be voted for. County committeeman, seven to be voted for. Town committeeman, one to be elected in each election district (who shall only be voted for in the district in which he resides). Twenty days before the said primary election each candidate shall notify the county chairman of his candidacy and pay his assessment, which shall be as follows: For county commissioners, \$15, and for each of the other offices, \$1 each. By order of the county committee, HENRY B. REED, Chairman. March 13, 1902.

A NEW COLONY.

If the proposed Norwegian colony in Lackawanna is not built along different lines from that of the Pennsylvania colony which was attempted to be established in this county by Greeley and others along in the forties it will not have a very long road to travel. They may be profitable to some parties as real estate speculators but it is a law of nature, established by a long line of precedents that families thrive better when they sit under their own vine and fig tree than when they are united in limited partnerships with many. However, any scheme which tends to populate the county is of advantage. The lumber is all gone—only the soil, and in some places not so rich as that in left—and any who now locate here must thrive by cultivating land or growing stock. The county is well adapted to the business, well watered and much natural grass land. So let us hope to soon see its thousand hills tenanted with sheep and cattle.

It is said photographs or pictures cannot be but the one printed in a contemporary this week of the old mill at Dingman's reverses the situation and makes the bridge and stream north of the mill and the mill house south, when the very reverse is true. The picture is good of the mill—but the surroundings are askew.

The diligent husbandman will now plant trees whether he ever expects to eat the fruits of them or not and he will also prune those heretofore pruned either by himself or others if he expects to keep them thrifty.

Tuesday, April 1, is the last day for lifting licenses granted at last court.

Ex-Sheriff E. Vandermark is being urged by many of his friends to become a candidate for county commissioner this fall and is inclined to throw his hat in the field. The sheriff is well acquainted with county affairs and ought to make a good official.

There is a best time for doing everything—that is, a time when a thing can be done to the best advantage, most easily and most effectively. Now is the best time for purifying your blood. Why? Because your system is now trying to purify it—you know this by the pimples and other eruptions that have come on your face and body.

Hood's Sarsaparilla and Pills

Are the medicines to take—they do the work thoroughly and agreeably and never fail to do it. Hood's are the medicines you have always heard recommended. "I cannot recommend Hood's Sarsaparilla too highly as a purifying medicine. When we take it in the spring we all feel better through the summer." Mrs. S. H. Neal, McCreary, Pa.

THE CHURCH COLUMN.

The topic for next Sabbath morning is "The Resurrection Life," and in the evening, "Christ's Triumph." The cantata, "Jesus of Nazareth," consisting of a baritone solo, a female trio and thirteen choruses will be given tonight at 8 p. m. at the M. E. church. No admission fee will be charged. A silver collection will be taken. The Newark annual conference will be held at Elizabeth next Wednesday. An account of the way in which conference is conducted will appear in next week's Press on this page. Special music will be rendered at each of the services on Easter. We trust that the day may be one of great joy and that the conference year may close with the richest blessing.

The season of fasting is nearly over, that is, the Lenten season. Shall we forget now that we have a soul and persuade our selves that we are all stomachs? Shall we conduct ourselves as though the time for goodness was over and now we can act as we please? In other words, shall our fasting and prayer be but a thing of a few days to die out and give place to a reaction toward the world and worldliness? Then the keeping of Lent is a farce. If we breathe a deep sigh of relief and express our thanks that it is over—only to run now without restraint in our own way, then better be no Lent. It is easy to talk of the abiding seed sown in the life during this period, but abiding character is far better than abiding seed, as the full ear is of more value than the single kernel. Why write this? Because I do not believe in Lent? Not at all, because the law of reaction is so strong that it is likely to carry us out of the spirit of true sacrifice, and lead us to depend too much for our religious life on time and seasons rather than on the sure foundation of the presence of Jesus.

HOME AND CHILD

Does your horse "feel his oats"? What a difference between the grain-fed and the grass-fed horse! The first strong and full of ginger, the second flabby, weak and tired out before he begins. The feeding makes the difference. Children are not alike either. One is rosy, bright-eyed, full of life and laughter, another is pale, weak and dull. The feeding again is responsible. Sickly children need special feeding. They don't "feel their oats." Scott's Emulsion adds just the right richness to their diet. It is like grain to the horse. The child gets new appetite and strong digestion. Scott's Emulsion is more than food. It is a strong medicine. It rouses up dull children, puts new flesh on thin ones and red blood into pale ones. It makes children grow. Scott's Emulsion makes ordinary food do its duty.

This picture represents the "Lucky Block" of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample. SCOTT & BOWNE, 439 Pearl St., New York City.

with us all the time and the need of perpetual self-denial. I believe in Lent in the same sense that I believe in revivals. Both are judged by their fruits. After the revival is over if those who attend and those who are converted are more devout and manifest the fruits of the spirit then the revival is a success, otherwise a failure. So is it with Lent. If it leaves us more reverent, more devoted to the church of which we are members, more alive unto the things of God and more dead to things of the world, then Lent is a success and worthy of the most careful consideration.

Aboriginal Names.

The name Delaware was given to the river in honor of Lord Delaware, who was governor of the Virginia colony about the years 1610 to 1618. The Indian name of the river was Muck-ah-lah-kan, and it was also called Lenape Whittack, or river of the Lenapes. The Dutch and Swedes knew it only as South river, in contradistinction to the North river of New York.

BARRELS OF SAMPLES.

Over Two Hundred Thousand Trial Bottles Sent Free by Mail.

By special arrangement with the manufacturers of that justly famous Kidney medicine, Dr. David Kennedy's Favorite Remedy, the readers of the PIKE COUNTY PRESS are enabled to obtain a trial bottle and pamphlet of valuable medical advice absolutely free, by simply sending their full name and postoffice address to the DR. DAVID KENNEDY CORPORATION, Rondout, N. Y., and mentioning this paper, the publisher of which guarantees the genuineness of this liberal offer.

Of course this involves enormous expense to the manufacturers, but they have received so many grateful letters from those who have been benefited and cured of the various diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia and Chronic Constipation and all weaknesses peculiar to women, that they willingly send trial bottles to all sufferers.

Upon investigation it was found that 91 per cent of those who had used the trial bottle had received such benefit from it that they purchased large sized bottles of their druggists.

It matters not how sick you are or how many physicians have failed to help you, send for a trial bottle of this great medicine, it costs you but a postal card, and benefit and cure will most certainly be the result.

Favorite Remedy is the only kidney medicine that acts as a laxative—all others constipate.

Put some urine in a glass tumbler and let it stand 24 hours; if it has a sediment or if it is pale or discolored, milky or cloudy, stringy orropy, your Kidneys or Bladder are in a bad condition. Dr. David Kennedy's Favorite Remedy specifically cures such dangerous symptoms as pain in the back, inability to hold urine, a burning, scalding pain in passing it, frequent desire to urinate, especially at night, the staining of linen by your urine and all the unpleasant and dangerous effects on the system produced by the use of whiskey, wine or beer.

All druggists sell Dr. David Kennedy's Favorite Remedy in the new 50 cent size and the regular \$1.00 size bottles.

The republican party has passed through one of the bitterest internal contests it has known for years in the matter of concessions to Cuba. But it will be noticed that it came through it all-right and still presents a solid front against democratic interference with the country's prosperity.

La Grippe Quickly Cured.

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is known as La Grip," says F. L. Hewitt, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic and I have never since been troubled with Grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by A. W. Balch & Son, Matamoras, all drug and general stores in Pike county.

A Horrible Outbreak.

Senator Frye made excuse that he was neither physically nor mentally able to make a good speech on the ship subsidy bill as he was a victim of vaccination. He compared vaccination and smallpox to Syllia and Charlybels and said that in trying to avoid the one he had run into the other and was still undecided as to which was worse.
