HAND KISSING LEAGUE.

An Extraordinary Organization Recently Formed by Paristan Exquisites,

Some Parisian exquisites of both sexes have just formed the "handkiming lengue." Men belonging to it vow never to shake, or even squeeze, a woman's hand. In lieu of that form of salute they imprint a light kiss on her fingers or her wrist. Wamen belonging to the league bind themselves to cut any man refusing to discard what our neighbors call "le shakehand" in favor of the dainty and daintily named "le baise-main."

The new association, reports a Lon rupted Hooligan.—Catholic Standard don paper, is framing a code of hand kicking. This will define various forms of "balse-main," and will specify under what particular circumstances each is to be employed. It is alread; decided that the slight touch most frigid form of the greating, able cures of partial paralysis have while the kiss on the wrist is a privi-

CAME FAST, WENT FASTER. Portune Won by a New York flootblack at the Ruses Goes Back to the Bookies,

What is the difference between a Napoleon of finance and a plain gambler? A New York bootblack painfully realizes that there is a difference, although perhaps he cannot explain it in logical argument and elegant phrase, says the Rochester Democrat and Chronicle. Last year, having laid by a few hundred dollars, he played the races and won \$40,000. This year he tried the same game and lost all his winnings, as well as his original capital. Being not altogether friendless, he managed to borrow enough money to buy a new hootblacking out-fit, and is now industriously shining footwear and gathering in nickels and dimes. If he keeps at it he will soon be out of debt and again become a modest depositor in some good sav-ings bank. He has had his experience, and it was rather harsh, but it may do him good. Let him renounce Napoleonic ambitions, stick to his business and save his money. The races are treacherous things for those who play them, and the rocket-and-stick performance is less productive of hap-piness than that steady thrift whic. s sure, even if slow, as a promoter of prosperity and a builder of character.
