Administrator's and Executor's notices - 5.00 Auditor's notices - 1.00 Divorce notices - 5.00 Sheriff's sales, Orphans' court sales, County Treasurer's sales, County statement and election proclamation charged by the square.

J. H. VAN KESTEN, PUBLISHER, Milford, Pike County, Pa.

The county auditors completed the task of verifying the addition and subtraction of the several officials yesterday. They found no mistakes which shows that all are good accountants.

The bill for repairing the abutment of a bridge in Delaware township over which the Dispatch made such a hullabaloo a few weeks ago found easy passage by the auditors. It went through slick as a greaser, but this is not intended to imply that any one got any grease on their fingers.

Elsewhere will be noted the election notice to submit the question of bonding the Independent School District to raise funds to erect a new school building to the electors of the district. This is a matter of grave importance and should be thoroughly discussed. As previously the Press offers its columns to any wishing to give their views publicly.

The Supper at Montague

Wednesday evening a sleighload of our town people went over to the Montague Reformed church and enjoyed one of the best chicken picnics any one ever sat down to. Those in the party were: Mrs. Royce, Mrs. Winnie Bourgeois, Mr. and Mrs. Geo. B. Quirk, Mr. and Mrs. Thomas Armstrong, Mr. and Mrs. L. F. Hafner and grandson, Miss Cora Struble, Mr. and Mrs. Chas. H. Wood, Mrs. Alice Drake, Miss Shepherd, Mr. and Mrs. Chas. G. Wood, Mr. and Mrs. Chas. Lattimore, Mr. and Mrs. J. B. Van Tassel, Mr. and Mrs. H. Ludwig and daughter, Mary.

It was a lively load and the eatables went fast after they sat down to the well loaded tables. Thomas Armstrong and Charles Lattimore could eat the most. Jake Van Tassel drove in his usual good style. Sorry the Editor of the Press was not along.

Last Monday the D. V. R. R. Co. elected for directors J. H. Shull, E. F. Peters, F. W. Eilenberger, Thomas Masters, Joshua Bray, Charles Shuman, J. R. Zerfoss, Harvey Huffman, M. F. Coolbaugh, W. Shafer and M. Yetter, who was chosen president. E. F. Peters Vice, H. Huffman Secretary, W. Bray Treasurer, J. H. Shull counsel and I. S. Case superintendent.

D. H. Unsworth, Henry Wohlbrandt, Fred Kurtz, Ed. Klein and Louis de Berle fished Promised Land Pond this week and got ten fish.

Remember the Chas. K. Champlin company at Brown's Hall tonight. There will be a fine play.

Mr. Bryan has returned from Mexico to the United States, and our young children have ceased their mournful wailing.

When Mexico adopts the gold standard, the money's country will be numerous. In time of great national peril men always go to the land. Recognizing this, Mr. Bryan is wise in owning a farm.

A Good Recommendation

"I have notice that the sale on Chamberlain's Cough and Liver Tablets is almost invariably to those who have once used them," says Mr. J. H. Weber, a prominent druggist of Cascade, Iowa. "What better recommendation could any medicine have than for people to call for it when again in need of such remedy? Try them when you feel such after eating, when you have a bad taste in your mouth, feel bilious, have no appetite or when troubled with constipation, and you are certain to be delighted with the prompt relief which they afford. For sale by A. W. Balch and Son, Matamoras, and all drug and general stores in Pike County."

Pains in the Back

Are symptoms of a weak, torpid or stagnant condition of the kidneys or liver, and are a warning it is extremely hazardous to neglect, so important is a healthy action of these organs. They are commonly attended by loss of energy, lack of courage, and sometimes by gloomy foreboding and despondency.

"I had pains in my back, could not sleep and when I got up in the morning felt worse than the night before. I began taking Hood's Sarsaparilla and now I can sleep and get up feeling rested and able to do my work. I attribute my cure entirely to Hood's Sarsaparilla." Miss J. N. PEARL, care H. S. Copeland, Pike Road, Ala.

Hood's Sarsaparilla and Pills

Cure kidney and liver troubles, relieve the back, and build up the whole system.

Methodist Church Jottings.

(By Rev. C. E. SCODREA.)

The topic for next Sabbath morning is, "Knowing Christ, and for the evening, "Saved From Wrath."

The week of prayer was all that could be expected as far as the attendance and interest of the people were concerned. This is another proof of the fraternal feeling and good will that prevails in the churches of Milford. This is right, and it is a source of great satisfaction to those who have the interest of the church life at heart. We trust that as the years come and go that this spirit of unity may grow till it attains to that perfection, so that two in name, humanly speaking, we may be one in spirit and name also, divinely speaking, since we all belong to the church of God, and in every fact are Christians.

The special services that are in progress will continue another week. We rejoice in the interest taken and urge that all who are interested in spiritual things will work and pray that we may, under divine guidance, bring forth fruits unto eternal life; that we may lead the wanderers into the life of the redeemed.

At the meeting of the Ladies Aid society, held two weeks ago today, at the home of Mrs. P. N. Bourgeois, it was decided to purchase an Epworth organ for the Sabbath school room. The organ has been sent and is expected any day. This will be another valuable addition to your work of praise. Thanks to the good ladies of the church.

An abridgment of the Articles of Religion of the Methodist Episcopal church has been made by the writer for use in our Sabbath school work, as a union service. This is a part of the covenant that we make when we join the church and needs to be more thoroughly understood. There is no better place to teach that which is necessary to a rational Christianity, than the Sabbath school.

PROF. LONSCHE RETIRES

His Work Will be Continued by Prof. George Oakley, of Paterson, N. J.

We announce with regret, that Prof. Lonsche has decided to give up teaching in Port Jervis. His future plans are as yet unsettled, but it is likely that he will, the latter part of this month, take a trip South and West, probably as far as the Pacific Coast for the benefit of his health. Mrs. Lonsche will accompany him on this tour. His work will be continued by Prof. Geo. Oakley, an educator of note, who is and has been for 18 years, president of Columbia College, Paterson, N. J., and who is also president of the National Business College of Passaic, N. J. For the present, no radical changes are intended, the rooms in the Wyckham Building, used by Prof. Lonsche, being retained, and the school will probably be conducted as a branch of Columbia College Paterson, with a competent teacher in charge, under the supervision of Prof. Oakley, who will be in town once a week, as occasion demands. Those who have met Prof. Oakley, say that he is a very pleasant gentleman, the kind who make friends wherever they go, and as he is said to bear considerable resemblance of Prof. Lonsche in stature and features, the pupils will, no doubt, take very kindly to him. He arrived in Port Jervis on the noon train yesterday (Thursday), and will remain the rest of the week. Former pupils of Prof. Lonsche are invited to meet Prof. Oakley on Friday and Saturday, during office hours, rooms 24 and 26 in the Wyckham Building, and Mrs. Lonsche will take pleasure in introducing them. Others, who contemplate taking up a business or agricultural course, are also requested to call on these days, so that Prof. Oakley may form an estimate of the number of pupils to be taught, and formulate his plans accordingly. Prof. Oakley's school will, no doubt, prove a great boon to the town and its young people, as he possesses the advantages of capital, health, energy, and large experience in organizing and conducting business schools, and will take pride in giving Port Jervis a first class business college. If for months the proper arrangement.

It would be a sad blow to the small democratic editors to have the tariff taken out of politics. Bantling against protection is their one mainstay when the people forget "paramount" issues.

The Berlin papers do not accept the suggestion that Ambassador von Holleben's leave of absence from Washington was occasioned by illness as has been stated. Some of the German papers take the view that Emperor William expected the ambassador to induce President Roosevelt to become arbitrator of the Venezuelan dispute, and conclude therefrom that the emperor's resentment at the failure of his representative.

The \$250,000 Carnegie Library was opened in Washington the other day with appropriate ceremonies. President Roosevelt attended the function and made a brief address. Mr. Carnegie expressed gratification at the spirit of appreciation in which his gift had been received by the Washington people, and has made another offer of \$250,000 for the establishment of branch libraries at the capital. The conditions are to be similar to those governing the original donation, congress to provide the sites and maintain the buildings.

The Cuban treaty continues to be an interesting subject of discussion in the antechambers of congress. People interested in beet sugar enterprises who have been opposed to Cuban reciprocity seem now equally anxious with their opponents that the matter should be settled, but settled definitively, so that beet sugar capital will know where it stands and upon what it can rely for a succeeding period of years. They claim that it takes a number of years for a large sugar factory to get into full operation and for the farmers to get to growing sufficient beets to keep it busy, and that if there is danger of continual changes in tariff, capital cannot be induced to invest to the large extent necessary to erect beet sugar manufacturing factories.

Mr. R. A. Pearson, who lately made a visit to Cuba for the department of agriculture, says that the island is an excellent stock country, and that many go so far as to predict that at some future time beef will be sent from the markets of Cuba to the United States. At present, however, owing to the great slaughter of stock during the war, not enough cattle are raised for home use, and it is necessary to import large numbers from Texas and elsewhere. Recently large numbers of Mexican cattle have been imported by the Cuban government and distributed at cost on easy terms to the farmers in certain districts where cattle were practically destroyed during the war. The farmers are gradually recovering from the effects of the war, and the general conditions through the country are reported in much better shape. Cuba's natural resources are such that had she Anglo-Saxon energy and push instead of Latin-American laziness and indifference she would have been before this on the high road to prosperity. As it is she is making a progress astonishing to the pessimists.

Miss Carolina Singer, formerly of this place, was united in marriage to Theodore Schmidt of Egypt on the 1st. After spending a few days here they went to Honesdale where they intend to reside. Much joy to the happy couple.

CONASHAUGH

H. L. Davenport filled his ice house last week from Thomas Armstrong's pond. The ice was of good quality.

Milo Weeks an export rider rode his bicycle to Milford last Saturday night in zero weather. He says the wheeling was good only he could not climb the hills. If there had been even hunters around they would have thought of wild cats the way the wheel screamed in the snow.

Election is near and candidates for supervisor are numerous, but voters should select only the best men. John Schreiner has done good work for two years and should be re-elected.

The thermometer has been below zero nearly every night the past week. The M. M. & D. R. R. is frozen up and trains are so scarce that people think it a nuisance. The company better quit railroading and go fishing for suckers.

Certain western members of congress maintain that it would be unwise to repeal land laws which are furnishing the money for the irrigation fund, even though such laws be the means of despoiling the public domain. This is illogical reasoning, when the situation is understood. A certain class does not want the desert land law and the homestead commutation clause and the timber and stone laws repealed. But if they are allowed to remain upon the statute books for half a decade longer, and the present activity of the western land stealers and perjurers continues, all the best land which the government wishes to reclaim with its irrigation fund for settlers will have been stolen.

This government is becoming so steeped in crime that it is thought Mr. Erving Winslow, the secretary of the anti-imperialist League will feel obliged to move out into some island.

Rev. J. M. Yentling, pastor of the Bedford St. M. E. church, Cumberland, Md., says: "It affords me great pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used it and others who have never known it to fail. For sale by A. W. Balch and Son, Matamoras, and all drug and general stores in Pike county."

Rev. J. M. Yentling, pastor of the Bedford St. M. E. church, Cumberland, Md., says: "It affords me great pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used it and others who have never known it to fail. For sale by A. W. Balch and Son, Matamoras, and all drug and general stores in Pike county."

Scott's Emulsion for bone, flesh, blood and nerve.

We will send you a free sample. Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy. SCOTT & BOWNE, CHEMISTS, 409 Pearl St., N. Y. Men and Women, all druggists.

25c EGGS which some coffee roasting etc to give their coffee with - would you eat that kind of egg? Then why drink them? Lion Coffee has no coating of storage eggs, glue, etc. It's coffee - pure, unadulterated, fresh, strong and of delightful flavor and aroma.

PAUJAC

Isn't it funny how folks will follow up a fashion? If one person has a cold they all have one.

Miss Thelma of Hawley spent a few days with friends in town.

There was a dance at the home of Walter Vetterlein December 31st and all reported they had a very good time welcoming in the new year.

Parties seem to be right in fashion for the beginning of 1902. A few of the young folks collected at the home of W. H. Clark, January 3rd, for a good time and to all appearances we think they had it.

Mrs. Chester A. Pollett is visiting her daughter, Mrs. Anise, in Brooklyn.

A new way to send out invitations is to wait till the young men get there and then send them after "the one they like best."

Why not start a choir in this town? August Singer has another son, who, being a Singer, will undoubtedly join.

Mary Gumble is visiting at her home.

Say girls, won't you be sorry when "they" get through surveying for that lake?

Gertrude Pullett returned to her work in Scranton after spending the holidays with her parent's C. A. Pallett and wife.

Miss Carolina Singer, formerly of this place, was united in marriage to Theodore Schmidt of Egypt on the 1st. After spending a few days here they went to Honesdale where they intend to reside. Much joy to the happy couple.

HEAT HELPS

You can never appreciate the worth of a hot water bottle until used in some time of need. Heat helps almost any pain, is often the only remedy required and with a hot water bottle you can have continuous even heat for hours if necessary. It helps to cure toothache, earache, neuralgia, cramps, etc. And at this time of the year it is worth many times its cost as an antidote for those disagreeable bed-fellows, cold feet.

C. O. ARMSTRONG DRUGGIST.

PATENTS GUARANTEED

Our fee returned if we fail. Any one residing within and description of any invention will promptly receive our opinion free concerning the patentability of same. How to obtain a Patent sent upon request. Patents secured through our medium, 25% of our expense. DON'T TOBACCO SKEET and S.M.O.K.E Your Lungs!

You can be cured of any form of tobacco habit, and your lungs saved, by taking S.M.O.K.E. that makes weak men strong, and old men young in ten days. Only \$1.00, 25c per tin. All druggists. Our guarantee is good. Address: P. H. RICE, 111 Broadway, New York, N. Y.

WHY PYRAMIDS WERE BUILT.

Notably for Van of Astronomers. But in Reality in Advance of the Science of the Present.

The interest of the Delhi and Benares observatories lies for us in the fact that they reveal a time for the past when astronomers sought for evidence by the erection of huge structures of stone. Of these the great pyramid is by far the greatest and most perfect example. Britain has its own monument - Stonehenge - which has been claimed as if not indeed an astronomical observatory, at least an astronomical temple, and many attempts have been made to determine the date at which it was erected. The difficulty, not to say the impossibility, of solving this problem in the present state of the monument may be inferred from the fact that the dates which different careful observers have deduced for its erection extend over a period of more than 2,000 years, says a writer in Knowledge.

The real work of astronomy was never done in edifices like these. Nor, indeed, does it require much knowledge of human nature, essentially the same 5,000 years ago as to-day, to see that the true secret of the pyramid, the really sufficient cause for its building, was the vanity of the ruling Pharaoh. At the Delhi, at Ghizeh, and at Salsburgh Plain, as by the Emperor, to "make a name" was the exciting motive. Astronomers may have been employed to append the work, astronomy, or the cult of the celestial bodies, may have been the excuse, but the real object was advertisement.

The Debtors.

When some great question bothers me, I do not waste my breath. I talk the matter over till I die a natural death. - Washington Star.

Some time ago my daughter

caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendergast, merchant, Annetto Bay, Jamaica, West Indian Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. For sale by A. W. Balch and Son, Matamoras, and all drug and general stores in Pike county.

Wyckoff's New York Store News.

Second Week of RUMMAGE SALE

Economy will prompt you to buy liberally. The money loss is ours, but there is good merchandising sense in giving you the buying benefit. Read on.

Cloaks and Suits The fact not to be lost sight of is that these cloaks, except three, are all this year's garments, tailored in top notch of style. You know the good values they were before, now see. Prices did run on ladies', \$5 to \$17. They are \$4 to \$11. Children's were \$6.50 to \$9, are now \$5 to \$6. Three electric seal jackets, were \$20 to \$25 are now \$12.50.

Hosiery Underwear Just a few items in this line, but all of our Boys' and girls' were 40c to 50c, are now 25c to 40c. One lot of natural cotton were 10c to 25c, all sizes now 10c. Men's all-wool half hose, 15c, worth 25c. Ladies' all-wool, black hose, 17c, worth 25c; ladies' all-wool black hose, 25c, worth 40c.

Suits and Skirts With but few exceptions all this season's. Some suits with silk drop skirts all-wool material, prices that were \$3 to \$18 are now \$6 to \$14. Liberal reduction all along the line of skirts.

WAISTS: Silk and flannel waists are now an indispensable and independent article of dress. All up-to-date, made from best material in the newest style. Silk waists that were \$4 to \$5.95 are now \$3 to 4.50. Flannel waists were \$1.50 to \$3.75, now \$1 to \$2.50. Two lots of black aesteon waists, all sizes represented, were \$1 to \$1.25, now 75c to \$1.

Furs Past has been one of the most successful for seasons we ever had, leaving our stock of ladies' scarfs nearly all sold. A few left, in genuine mink, that were \$12 to \$14, now \$9 to \$10. Good imitations of stone marten at \$3, good value at \$5. A few misses' fur sets - scarf and hat - were \$4 to \$7, now \$3.50 to \$5. Children's fur sets were \$2.75 to \$3.75 are now \$1.95 to \$2.75. Best of it is there's a lot of good winter weather ahead of us and then ready for next season.

PICKINGS HERE AND THERE

Dressing accessories were 60c, now 50c. Towels, 70c, now 50c. Pillow cases, 45 and 36 inches, 8c, good value at 10c. Large cotton huck towels, 7c, and 10c, worth 10c, and 15c. Best fancy prints, reds, purples and fancies, at 4c. Printed flannellettes, 5c, value, 10c; 25-inch printed flannellettes, 10c, worth 15c. One lot of cuttings, 4c, value, 5c. Case of good apron gingham, 5c. Lot of printed silk-gloves, 7c, worth nickel more; one lot of cretome, 6c, value, 10c. Good linen crash, 4c.
