Howard A. Worman, Supt., East Stroudsburg, Penn.

### SANDYSTON.

B. B. Hursh, formerly of Hainesville, but now resident of Marano, Iowa, is spending a week here on business and visiting friends and relatives. He expresses himself as much pleased with his new western home and will return thence this coming week.

The vendors of Clark Aber, the past week, drew a large attendance and good prices were realized. I have not heard what Mr. Aber intends doing, but will vacate the farm of Mrs. Resner at an early date.

Layton now has a first class shoemaker, one having moved into the tenant house of G. E. Hursh.

Now that our legislature has passed a law allowing automobiles to go at the rate of 20 miles an hour in the country the best thing we can do is to put up gates or some other obstruction preventing them from going at that speed. I would like to see them try that 20 miles an hour on some of our roads.

Through the kindness of B. F. Rosenkrans the efficient manager of the Club House trout hatchery at Bevans I was shown the young fry in the hatching boxes. Nearly forty thousand small trout are now in the boxes of various sizes and among them is one perfectly white and it is a curiosity.

The specifications are now out for the construction of that McAdam road from Tuttle's Corner to Culvers Gap. Like all good things it will raise the taxes a little, but after it is completed no one will want to go over or back to the old road.

Those escaping the measles in former years are now getting their share of the disease. The latest family attacked is that of Abram Ratan near Tuttle's Corner.

In reply to H. L. would say that a residence of one year and five months in the county constitutes a residence in this state. Just come over here for a year and I will see that you can vote.

I am sorry to note that Mrs. Samuel Hovey of Bevans is not improving in health as rapidly as was anticipated. She was operated upon for appendicitis some time ago.

Ralph Vansickle and Miss Bertie Kintner have returned to their respective homes from the Trenton Normal School to spend their Easter vacation.

C. E. McCracken has sent his piano back to the factory at Washington, N. J., for repairs, as the case had opened a little.

### DINGMAN'S FERRY.

Mellvin Morrison accompanied by his family visited friends and relatives here last week.

Since the citizens of this township made up their minds to have public business done in a better manner they will look closer into the qualifications of candidates. A discussion recently evolved the following ideas with respect to road making, which they will try and find supervisors to fit:

First, No more scraping of gutter mud on top of gravel put on by a former official.

Second, No more cobble stone culverts covered with plank, all badly built and dangerous to the public.

Third, Cutting the brush and trimming out the roads and removing the rubbish from along the highway.

Fourth, Getting the most benefit out of the material used and the greatest amount of work out of those doing it.

Frank Downs has secured a position in the kitchen of a leading restaurant in Jersey City and expects to graduate from there a chef. This business is becoming one of the best and if Pike county boys and girls would learn it they would command good wages at any time.

Miss Emma Hornbeck of Centre recently spent a couple of days with parents in Port Jervis.

Mrs. Dalrymple of Branchville spent a few days with her parents here last week.

George Cortright has lost three sheep and a young calf by poison.

Nearly half a million feet of lumber besides a quantity of ties has been cut on the Frazer tract on Decker's creek this winter. The lumber will be shipped by the Delaware Valley railroad.

Daniel Jagger has been doing a good job on the road, and one for which farmers are grateful, putting on gravel before the mud dried up and allowing them to work out their tax before corn planting time.

Lesac Smith is very sick but is reported as slightly improved.

G. W. Donaldson and wife are expected home from California about the middle of next month.

W. H. Layton has recovered from a recent illness. Last week Albert Cotterill and wife went down to assume possession of the Maple Grove Hotel at Bushkill. We wish them prosperity and the cuisine we know will always be excellent. Try it traveler and be convinced.

### MATAMORAS.

Hon. William H. Dimmick of Honesdale called on relatives in Matamoras Wednesday. He was in attendance at the funeral of the late S. O. Dimmick.

Professor and Mrs. F. H. Lomacho, who have been absent from Matamoras some time, have returned and are guests of Mrs. Lomacho's aunt, Michael Blissam.

Joseph G. Huntington, an aged and respected resident of Matamoras, died at his home after a two weeks' illness of pneumonia and grip. He was born near Monticello, April 14, 1831, and lacked, therefore, but a few days of being 83 years old.

Theodore Durant, a carpenter employed by the Erie railroad company, received severe injuries while standing on the platform of the Erie station at Shohola Saturday afternoon last, and it will be some time before he will be able to resume work. When he was hurt, two employees were engaged in handling a large section of a new icebox. One of the men let go in order to take care of a horse that appeared frightened at a passing train, and the box toppled over, striking Mr. Durant. His leg was dislocated, and the ankle was sprained.

Geo. Keyes and family, who have been living on McCollum street, this village for some time, will change their residence soon, to a cottage on River street. It is a very pretty location on the banks of the Delaware.

The Matamoras friends of Miss Lella Young are pleased to hear that she contemplates giving a musical on the evening of April 16th, at the Deerpark Club Hall. This little lady is a musical wonder. All her friends here will greet her on that evening.

The L. C. U. connected with Hope church will hold its annual Easter supper at Prescott's Hall, on the evening of April 14th. A souvenir in the form of a chicken will be presented to each person taking supper.

Work is progressing nicely on St. Joseph's rectory. The foundation is being laid. Gentlemen from Lackawanna, Parker's Glen and Shohola have it in charge.

The C. E. society connected with Hope church will hold a business meeting and social Friday evening at the home of Misses Maggie and Jennie Hilferty on Washington St.

An Easter supper under the auspices of the L. A. S. connected with Epworth church will take place on Thursday evening, April 16th, at church parlors. The ladies are making great preparations for this supper. Every one is welcome to attend.

Mrs. D. Lord and Mrs. Emaline Lord and son, Clarence, all of Hale's Eddy, N. Y., who have been the guests of Ed. Lord and wife, returned home on Sunday.

Rev. O. J. Shoop will be returned to Epworth church another year. His friends in Matamoras and congregation are very much pleased with the good news.

The Blue Ribbon Society connected with Hope church will meet on Friday afternoon at 3.30 o'clock, after school hours, at the home of Mrs. John Simpson, on Cookson St. All are requested to be present.

George Weaver and family will leave Matamoras soon and will be located at Widwick, N. J.

John Davis has left his residence on Washington street, and is now living on Pennsylvania avenue.

Mr. and Mrs. Bishop have changed their residence. They now occupy the cottage recently vacated by John Davis on Washington street. S.

### KIMBLES

C. O. Wheeling, wife and three children of Port Jervis visited the former mother, Mrs. George Cortright, last week.

Kate Killam of Hawley closed a very successful term of school last week, Thursday, with recitations, singing, etc., with much credit to herself and the scholars. A large number of her friends attended the exercises from the vicinity and slawley.

Mrs. John Kirby and daughter of Honesdale are visiting friends in this place.

William Weaver moved from here to Rowlands and will work for Giles and Hess. FRANK.

### Sick Headache?

Food doesn't digest well? Appetite poor? Bowels constipated? Tongue coated? It's your liver! Ayer's Pills are liver pills; they cure dyspepsia, biliousness.

25c. All druggists.

### INDUSTRY AND INVENTION.

Microphones are now made so sensitive that by their use one may hear the groans of a dying fly.

The secret of making carbon paper and typewriter ribbons is known to scarcely two dozen people.

The sand blast as a substitute for soap, water and scrubbing brush is a novel idea, but this has been used recently in the renovation of the exterior of the government printing office and the treasury building at Washington.

Wireless telegraphy gives worse results on land than at sea. A coherer placed underground is not influenced by electric waves, which proves that the curvature of the earth constitutes an absolute barrier to wireless telegraphy.

Some of the uses of by-products of slaughtered animals: The blood is used for the production of albumen, the bones are knifed, handles, toothbrush handles, chessmen, etc.; the horns for combs, backs of brushes, large buttons, etc.; the hoofs for buttons, ornaments and fertilizers. Neat's foot oil, extracted from the feet, has a high commercial value. The fat is used for glycerin and butterine. Gelatin, glue, peapain and other articles are obtained from slaughtered cattle and sheep. The value of such articles made every year represents many millions of dollars.

### ARMY AND NAVY.

Some men in the German army are sent, when ill, to spas and watering places for treatment at public expense.

For saying that certain infantry officers ill-treated their men, an editor at Klausenburg, Austria, has been sent to jail for eight months and fined \$48.

Of the five new battleships authorized by congress the three 16,000-ton vessels will be named the Vermont, Kansas and Minnesota, and the two 13,000-ton vessels will be named the Mississippi and the Idaho.

There are now some 2,000 lieutenants in the army, less than 300 of whom are graduates of West Point. Four hundred have been promoted from the ranks for merit and 500 have been drawn directly from civil life.

The recent explosion upon the submarine boat Le Francaise has revealed a new danger in this type of craft. The accident established the fact that in stormy weather oxygen gas escapes from the electric accumulators.

### THOUGHTS ON MATHEMATICS.

A number is a unit. "Quite a number" means any old thing—possibly "a whole lot."

Mathematics is called an exact science, probably because it exacts so much brain work.

Mathematics is that science which teaches us how not to let others do us as we would do them.

Some people are natural-born mathematicians. They find it as easy as rolling off a logarithm.

Things equal to the same thing are equal to one another, but there are some things few of us feel equal to.

A "prime" quantity is one that cannot be divided, but a million dollars can fall under that head under some circumstances.

The radical sign indicates that a root is to be extracted. When the dentist tackles the correct tooth, it is the square root.

It is impossible to square the circle, but it is always easy to square the policeman.—David H. Dodge, in N. Y. Times.

Might Have Made a Difference. "I say," said Berkeley to his wife yesterday at dinner, "you didn't say anything to anyone about what I was telling you the night before last, did you? That's a secret."

"A secret? Why, I didn't know it was a secret," she replied regretfully. "Well, did you tell it? I want to know."

"Why, no, I never thought of it since. I didn't know it was a secret." —Stray Stories.

### SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, Shortsville, N. Y.

"This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for men a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be only of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu."

For sale by Balch & Son, Matamoras, all general stores in Pike county.

WANTED—Faithful person to travel for well established house in a few counties, calling on retail merchants and agents. Local territory. Salary \$1024 a year and expenses, payable \$12.70 a week in cash and expenses advanced. Position permanent. Business successful and rushing. Standard House, 334 Dearborn St. Chicago. 6-1-3

### Artistic Monuments IN WHITE BRONZE
