J. H. VAN ETTEN, PUBLISHER, Milford, Pike County, Pa.

George Weightman and wife of Brooklyn are visiting the family of their daughter, Mrs. James P. Van Ethen.

An examination for teachers permanent certificates will be held in the old academy here, Saturday, May 9th.

The marriage of Miss Lizzie L. Shimer of the borough and Harry Treibis of Shawnee will take place at the home of the bride on eighth street, April 29th. Rev. E. M. Smead will perform the ceremony.

The familiar figure of Anthony Kline, a veteran of the civil war, will no longer be seen here. He was taken, Monday, to a soldiers home at Dayton, Ohio.

The house, on Harford street, occupied by Miss Mary Walls, prior to her decease, has been rented for the summer by P. Hathway of Staten Island.

George E. Horton was this week refused a license for the Park Place Hotel at Branchville. The grounds for opposition were, selling on Sunday, to minors, and general disorder in the conduct of the place. The evidence as to Sunday selling was not disputed.

Liquor dealers in New York are adopting resolutions to boycott the agricultural products of the state because the up state members voted to pass the excise bill which increases the price of licenses fifty per cent. They say everything from the sturdy cheese to buckwheat cakes and honey must be tabooed from the restaurant table.

What about the ladies village improvement society? Rod Quick and Emil Borgot have taken the initiative and fixed up part of Centre Square in fine shape. It is a credit to their good taste and public spirit.

An Anti-Trust Decision

The case of the government against the Northern Securities Company has been decided in favor of the former in the St. Paul courts under the anti-trust law. And so this wasn't a mere bluff of the Roosevelt administration, after all. The government has won before a tribunal composed of men of high judicial standing and against the most eminent counsel which the trusts could secure.

A more notable victory has not recently been achieved and a more popular one with the people it would be difficult to imagine.

Congratulations are due to the president and to the attorney general, the first a man of firm purpose, the second, one of the most accomplished and high minded of American lawyers. This decision must be rather convincing evidence to democratic minds that the republican fight against illegal combinations is not a sham battle.

Primary Election Notices

The Republican primary elections throughout Pike county will be held on Saturday, May 9th, 1903, from 3 p. m. to 8 p. m. for the nomination of candidates for the following offices: One delegate to the state convention.

One jury commissioner. One judicial confessor. Seven members of the county committee. One town committeeman in each election district.

Twenty days before said primary elections each candidate shall notify the county chairman of his candidacy and pay his assessment of one dollar.

By order of the county committee. W. A. H. MITCHELL, Chairman. FRANK B. TIBBALL, Secretary.

Methodist Church Jottings.

(By Rev. V. A. Wood.) The newly appointed pastor of the M. E. church and his wife desire to extend their thanks to the many friends in their new field of labor who have accorded them so hearty a reception and ministered so patiently to their temporal comfort. The strangeness of a new situation is fast wearing away and we feel already at home among the people in whose company we are to undertake the work of a new conference year. Let us make it our petition as we enter upon this work that God will aid us in being mutually helpful and in bringing souls into His Kingdom.

It so happens at this time that the great occasion of a golden wedding is to be celebrated by Mrs. Wood's parents who reside in Oberlin, Ohio. The official board of the church upon learning of this event and the wish of the pastor to accompany his wife to the scene of the festivities readily granted him a leave of absence for the coming Sunday. He will return on the 25th inst and conduct services at the usual hours of Sunday, the 26th. Mrs. Wood is contemplating remaining at Oberlin three or four weeks for much needed rest and recuperation.

On the 19th there will be a prayer service conducted by William Angle in the church at the usual hour for morning service, 10:30. No evening service. The sermon subjects for the 26th will be as follows: Morning: "God's Call to Sacrifice." Evening: "Defying the Almighty."

The Sewing Circle of the Epworth League met at the Van Tassel home Tuesday evening and a delightful evening was enjoyed by all. Refreshments were served. Games and songs helped pass the time in a lively way.

Presbyterian Choralists

(By Rev. E. M. Smead.) The regular morning and evening services will be held next Sunday. All are most cordially invited to come and worship with us.

Next Monday and Tuesday the Presbytery of Hudson will meet at Chester, N. Y., for the regular spring session. Elder John C. Wallace has been chosen to represent the church with the pastor. Tuesday evening there will be a popular service at which several ministers of the Presbytery will speak upon "The need of the Prayer meeting in Modern Life." The pastor will have a part in this discussion.

It is with great pleasure that we extend our welcome to the Rev. and Mrs. Victor A. Wood who has been sent to take charge of the Methodist church of this village. We hope that every success may attend the efforts of these co-laborers in the Lord's work and that their sojourn among us may be as pleasant and profitable to them as we believe it shall be for ourselves.

We hope to have one or two loads of our people attend the annual Pike county Sunday school association convention at Dingman's the first of May. Revs. Wood and Perot are to have a part in the program as announced in another column and we hope that as many will go from our three schools as possible.

The "Bag Sale" which was held in the parlors of the church last evening was not largely attended but the handsome sum of over thirty-six dollars and a half was added to the treasury. We extend many thanks to those who have helped to make this sale a success. Especially are we grateful to the representatives of the other churches of the village who were in attendance.

Like the running brook, the red blood that flows through the veins has to come from somewhere.

The springs of red blood are found in the soft core of the bones called the marrow and some say red blood also comes from the spleen. Healthy bone marrow and healthy spleen are full of fat.

Scott's Emulsion makes new blood by feeding the bone marrow and the spleen with the richest of all fats, the pure cod liver oil.

For pale school girls and invalids and for all whose blood is thin and pale, Scott's Emulsion is a pleasant and rich blood food. It not only feeds the blood-making organs but gives them strength to do their proper work.

For Sheep Growers

American Protective Wool is making money for the sheep raisers. Ohio XX washed wool has sold in the last four years from 23 1/2 to 31 1/2 a pound against 19 cents a pound during the three years in which the Wilson tariff act, with its free wool clause, was in operation. The rise in price has greatly stimulated wool production, the clip of 1902 being 346,341,000 pounds against 259,163,021 pounds in 1897. At this end of the free wool period. This has occurred in spite of the fact that the high price of meat during a part of this period has induced many farmers to kill both lamb and mutton.

An English Opinion John F. Fraser, an English writer and statistician, says that he believes the British artisan superior to the American workman, but that the American manufacturer, the employer and the director of labor is infinitely superior to his British prototype. The chief reason America is pushing ahead as an industrial nation is through ability in administration. Give the British workman time and he will turn out a better article than anybody else, but the American is alert, has rest for his work and is more or less of an inventor. While we creep in England, Mr. Fraser says, America bounds.

The president is reported hunting lions in the snow. The term strenuous suits him well. Nothing seems to stop him. And now Mr. Bryan will give forth his opinion as to what really should have been done in the merger case.

Dun's Review's quarterly statement of railroad traffic at St. Louis and Indianapolis indicates the enormous freight business being done by the railroads and the consequent business activity. During January, February and March of this year the number of loaded cars moved at St. Louis and Indianapolis was 123,000,000 against 949,000 during this period of 1902 and 979,000 in 1901, both in themselves highly prosperous periods.

The Detroit Free Press says that since Mr. Cleveland has denied that he is going to be the next president, smoke is again issuing from Mount Watterston in Kentucky, with every sign of another violent eruption.

The foot and mouth cattle disease has been suppressed in New England but the Atkinson mouth disease still has occasional outbreaks.

The democratic leaders are endeavoring to belittle the Judge Parker boom. They say he lacks experience. Why should they worry about a candidate? They still have Bryan the peerless failure.

Capital sentence cannot be pronounced upon a criminal in Sweden until a confession of the crime has been obtained from him.

Russia has 464,360 acres of forest. That is to say, more than one-third of the whole country is covered by trees; and there are four acres of forest to every inhabitant.

The Canton of Zurich, in Switzerland, is probably the only place where a man need not cast his vote in person. He may inclose the filled-in form in an envelope and post it.

In the Mootshal, near Schwyz, in Switzerland, is a cave which was only explored a year ago. It proves to have over 6,000 yards of galleries, and so is probably the largest in Europe.

Dewey's remarks comparing the American and the German navies to the detriment of the latter, created considerable ill feeling among the Germans, both in Germany and this country. Since that occurrence, however, ten large Dutch green bay trees have been purchased for the White House ornamentation, and this is believed to have made the score a standoff.

Spring Medicine

There is no other season when good medicine is so much needed as in the Spring. The blood is impure, weak and impoverished—a condition indicated by pimples and other eruptions on the face and body, by deficient vitality, loss of appetite, lack of strength, and want of animation.

Hood's Sarsaparilla and Pills

Make the blood pure, vigorous and rich, create appetite, give vitality, strength and animation, and cure all eruptions. Have the whole family begin to take them today.

Hood's Sarsaparilla has been used in our family for some time, and always with good results. Last spring I was all run down and got a bottle of it, and as usual received great benefit. Mrs. BRIDGES, Dover, N. H.

Hood's Sarsaparilla promises to cure and keeps the promise.

THE LAW LAID DOWN. A contract with a foreign insurance company made in another state, in which it is valid, but in direct violation of the laws of the state in which the insured resides, is held in Swing vs. Munson (Pa.), 35 L. R. A. 223, not to be enforceable in the latter state.

The diversion or attempt to transmit the electric light power caused by the erection of a building upon land over which it is accustomed to flow, is held in Jessop vs. Bamford Bros. Silk Manufacturing company (N. J. Err and App.), 35 L. R. A. 329, to afford no ground of action to a person who suffers by reason thereof.

An electric light company is held, in Snell vs. Clinton Electric Light, & P. company (Ill.), 35 L. R. A. 324, to have no right to make payment for a transformer a condition of furnishing electricity to one whose building is wired by a third person, where it furnishes transformers free of charge for buildings wired by itself.

A bicycle used by a painter, paper-hanger and billposter to earn a livelihood is held in Roberts vs. Parker (Iowa), 37 L. R. A. 764, to be within the provision of a statute exempting from execution the tools of a family, and who in the head of a family, and the use of which he earns his living, although the bicycle was not known when the statute was enacted.

Where a licensee walking upon railroad tracks was approached by a train, and stepped therefrom to avoid collision, but was pushed upon the rails by a stray cow pasturing on the right of way, it is held in Schreiner vs. Great Northern Railroad company (Miss.), 35 L. R. A. 75, that the failure of the company to build the statutory fences cannot be held the proximate cause of the accident for which it would be liable to answer in damages.

EUROPEAN ECHOES. Sixty-three million eight hundred and eighty thousand cows are milked in Europe every day in the year.

In Belgium there are no extensive forests or timber lands, and wood for all purposes must be imported.

Capital sentence cannot be pronounced upon a criminal in Sweden until a confession of the crime has been obtained from him.

Danger of Colds and Grip The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of this dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by Balch & Son, Matamoras, all general stores in Pike county.

TOLD IN NUMBERS. About 20,000 automobiles are in use in the United States. The lowest priced vehicle at the New York automobile show was \$300; the highest \$1,400. American tourists annually spend abroad an average of \$75,000,000 and foreign tourists leave about \$20,000,000 here. Americans bought in Paris last year \$24,000 worth of goldsilver pins, \$25,000 worth of human hair, and \$120,000 worth of hairbrushes. The highest point to which a man has ever climbed is 29,000 feet to the summit of the Andean peak, Aconcagua. The feat was accomplished by two men sent out by the Royal Geographical society.

Grip Remedies in Great Demand When colds and grip are prevalent the quickest and surest remedies are in great demand. Mr. Joseph D. Williams, of McDuff, Va., says that he was cured of a very deep and lasting attack of la grippe by using Chamberlain's Cough Remedy after trying several other preparations with no effect. For sale by Balch & Son, Matamoras, all general stores in Pike county.

THE DOCTOR'S PART

Your physician, after a careful study of your case, decides what remedies are needed to meet the conditions present. He writes down the names of the remedies and the quantities required and that is a prescription. Here the responsibility of the physician ceases, and yours and your druggist begins.

The next thing is to make sure that the right remedies are supplied and that they are rightly compounded.

How shall you make sure? C. O. ARMSTRONG DRUGGIST.
