### IF YOU HAVE PAIN IN YOUR BACK

Do Not Be Deceived. You have Kidney Trouble, and You Do Not Need a Physician to Tell You So.

the condition of your urine. If you have a pain in the back, then took to the condition of your urine. It is easily done, Take a glass or tumbler and fill it with urine; after it lass atord 24 hours, if it If it is pals or discolored, stringy or ropy, your kidneys and bladder are in a dangerous condition and need immediate attention, or the consequences may prove fatal. Dr. David Kennedy's Pavorite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepals and chronic constipation, and it will take you but a short trial to convince yourself of its wonderful curative power. G. F. Sammer of No. 409 Tioga street,

Syracuse, N. V., in a recent letter says: "I was afflicted for years with avers pains in my back and kid-neys. I tried many doctors and many medicines, but got no relief. I bought a bottle of Dr. David Ken-nedy's Pavorite Ramedy and it has entirely cured me."

It is for sale by all druggists in the **Hew 50 Cent Size** and the regular \$1.00 size bottles—loss than a cent a doss.

Sample beffle—enough for trial, free by mail.

Dr. David Kennady Corporation, Rondout, N. Y.

Hard to Understand.

# Tired Out

"I was very poorly and could hardly get about the house. I was tired out all the time. Then I tried Ayer's Sarsaparilia, and it only took two bottles to make me feel perfectly well."—Mrs. N. S. Swinney, Princeton, Mo.

Tired when you go to bed, tired when you get up, tired all the time. Why? Your blood is impure, that's the reason. You are living on the border line of nerve exhaustion. Take Ayer's Sarsaparilla and be quickly cured. "11.00 a busile.

Address of the state of the sta

MARCONI SENDS A MESSAGE,

Blinding Flash of Binish Light and Great Steetrie Sparks Signat Its Depastore.

"All ready!" he oried to the electridan, who stood to the power room watching the inventor through the tong connecting hallway. A lover was pulled and a dish hum filled the room. Pain in the back is an almost infallible | The indicator of the volt meter begun sign of kidney disease; a smur-sign is to race past all sorts of figures on the

face of the dish. "Now I'll send to Poldbu." He pressed the key, says World's Work.

There was a blinding flash of blobb light, for with each movement of the urine; after it has atord 24 hours, if it | Mey great sparks fumped two inches has a sediment, if it is milky or cloudy, | hetween the two silvered knobs of the hadnesten coll. One know of this coll is connected with the earth, forming the ground consection, the other with the wire teading to the serial wires. Each spark means an oscillating impulse from the battery to the nevial wire, and from the wire the oscillations of other occur which carry through space at the speed of 187,000 miles a cond. With the blinding finsh accompanying each movement of the key occurs a report to be compared sectrately with the noise attending the dis-charge of a Krak-Jorgensen. It was terrifying—the light, the noise and in the midst of it all the inventor enimly pressing the key, making more notice, more light Imagine a company of inyou can understand the sound that acampanies sending a message. Mar-oni, who stuffs cotton in his ears when sending, is now experimenting to dead-en this sound. But somehow, to one inpressed by the fact that here, in this very toom, a message was being sent through the air across the gloomy

> Wild Animals That Are So Supplies clous as to the Engly Lared.

to Their Beath.

It may be doubted whether those of us who are able to obtain aufficient food vithout difficulty can appreciate the find pilobards on heard a least will continue their feast until they can only ife lowe and gasp. A superfluity of food comes at such long intervals that when it does come the avian intellect reels.

and 1,200,000 respectively, says the San at the prospect, and what seems a hore | Francisco Argonaut. of plenty brings dire diameter. Seeing that gulls and gannets know no better, ng helpleisly on the surface of the is eyesight and will quickly take away

is life, says Longman's Magazine. A spake which throats its head through the palings to seize an unwary frog and finds itself unable to draw sack again with the frog in its throat has wit enough to disgorge the amby the leg so as to swallow it on the safe side of the pakings, but probably a anake which happened to be on the wrong side in company with a freq would consume it on the premises and on render itself incapable of wriggling through the bars.

NEW SYSTEM OF TELEGRAPHY.

One with Novel Peature by Which 50,000 Words an Hour Are Transmitted.

At a recent test in Germany of the sined. In transmitting, this system, lke other fast systems, uses a strip of paper previously punched with boles noat novel feature of the system is play or cultivator. the method of receiving, says an electrical paper. The incoming electric impulses cause a thin strip of metal. resembling a telephone disphragm, to ibrate and thus move a tiny mirror attacked thereto. A slender beam of light from un incandescent light falls upon the mirror, and is reflected hence to a strip of photographically sensitive paper, which is steadily uncome. Chemicals for "development" being applied, the paper exhibits a conentions for dashes and downward ones for dots. The message must then be deciphered and the translation must be written out.

Languages Spoken in Chicago. In a pamphlet entitled "A Sketch of the Linguistic Conditions of Chicago," Prof. C. D. Buck, of the University of Chicago, mys that 46 languages are spoken in that city, which is more connopolitan in character than Constanti nople or Cairo, or any other city of the past or present. Fourteen tongues are spoken by 10.000 or more persons each; newspapers appear regularly in ten languages, and church services may be heard to about 00 languages cago," says the professor, "in the secand largest Bohemlan city in the world, the third Swedish, the third Norwegian, the fourth Pollah and the fifth German, New York being the fourth

Backward Prench Columbra-France spends annually for her col omica a little more than \$25,000,000 while the aggregate of its business with them, expert and import, is but \$22,000,000, and but 4,000 a year emigrate to French colonies. But France has not been the least successful country in building a colonial empire, for | go share yourself." of the exports and imports from them

When you want a pleasant physic WANTED — Faithful person to try Chamberlain's Stomach and all general stores in Pike county.

SLANG IN THE MAKING.

Many of the Up-to-Date Physics Cannot He Transd to Their Orlanda.

The study of slang in the making has always been hampered by the fact that no lovestigator ever sees the in ventor at his work. In some college student's room, behind the screens of a drinking hall, or among the roustahouts of the levee the words and highworld an rendily have probably first been altered. Where fixed the man who coined work "champ?" asks the New York Evening Post. Who first thought of saying to his rival; "Go 'way back and all down?" No one to be contented with inferior specijust come to light in Chicago. It is not one of the clusive sort, full of fancy and inspiring suggestions. Ibi it has the most of having been de signed, as it were, before our eyes, like the wheat cakes which the whiteeapped cook makes in the window of a dulety restaurant. It is the were "seg," which is applied to the young wanten now attending the University of Chicago. Since enducation has been absoluted in the obviously insecurate to call them counts. At the same time, the west times and take up the less compilmentary terms which the young men in some easiern colleges upply to their feminine fellow students. The new word is certainly as emphonious as the old (more so, if anything, became it has no histor), it is highly descriptive and not to the least uncomplimentary.

#### NEVER VICTIMS OF CUPID.

There Are More Unchelors Thus Old Mulde In the Census Ruumerntion

It is estimated that there are now in the United States 2,500,000 more single men of marriageable age than there are single women, the official fig-ures being as follows: Unmarried men, 10,448,153; unmarried girls and women, 7,573,819. The male population of the United States, through the excess of male immigration and the higher male craving for sustenance experienced by hirth rate, is more than 1,000,000 in ex-(ast for long periods. Gulls will sat than for a man and the marriageable until they cannot fly, and when they find pilobards on board a least than for a man and the marriageable and pilobards on board a least than for a man and the marriageable and pilobards on board a least than for a man and the marriageable and pilobards on board a least than for a man and the marriageable and the formale.

There are more divorced women who have not commercial than there are we are not surprised to hear of a John divorced men, and for all these reasons Dory stuffed to the very month, floatringeable age is larger than the num water, unable to escape from a flock ber of single women. In New York it of sea birds which have deprived it of is 240,000, to Pennsylvania 180,000, to Obio 120,000, in Hitters 200,000, in Call fornis 150,000, in Texas 150,000 and in Konsas 75,000. In Massachmetts the number of nomarried men exceeds the number of anmarried women by only a few thousand. In Utah there are 35. 000 unmarried men and 23,000 unmar ried women of marriageable age. In Washington, the capital, the number of single men is at one and of single women about the same.

### MODERN CARTHAGE.

Where Street the Pamous Andlant City the Stalking Camel Saw Draws American Plows.

For the first time in many centuries something modern has appeared on the site of the ancient city of Carthage Here where ones flowed the av war and peace, is a vast, lonely plain Pollak-Virag system of telegraphy a Of the streets through which the con speed of 50,000 words an hour was atnothing now remains but the less wheat-fields Popular Mechanic describes the stalking camel plodding spresenting dots and dashes. The glong drawing the modern American

The soil is as rich as it was on the day when the Phoenicians founded the city, and the American and his indus tries have found their way to the his toric spot where the Romans wrough such devastation in their conquests Americans, in charge of untive work men, may be seen directing the use of the modern farming implements in harvesting or tilling the soil. These machines are a source of wonder to the natives, who for generations employed

only the crudest of farm implements. The place is on the northern coast of Africa, about ten miles from the present city of Tunis. Americans find the market there for their inventions a
