We aim to be definite in our advertising; try to have something to say and say it in such a manner that you can understand it. Advertising space is too expensive to waste in generalities. Those who have goods to buy want to know where they can buy them to the best advantage. We have goods to sell; just the things you want to buy. By making definite statements concerning these goods, the styles, the qualities, the prices, we arrest your attention. If investigation follows then it's "up to us" to satisfy an old customer or make a new one.

Paterson, N. J.

Dear Sir:

For a number of years past the Civil Service Commission has experienced considerable difficulty in securing enough male eligibles in shorthand and typowriting to meet the needs of the service. The supply of such eligibles resulting from the semi-annual examinations in these subjects has not been equal to the demand. Recently, several special stenography and typowriting examinations have been held in the larger cities, but without producing the desired result. The Commission would be pleased to have you make this known to young men who may be interested.

Yours respectfully,

John H. Prooton,
