### IRY THIS TEST.

And see if your Kidneys are Diseased.

A very simple way to determine whether your kidneys or bladder are diseased is to put some of your urine in a glass tumbler and let it stand 24 hours; if it has a sodiment or a cloudy, ropy or stringy appearance, if it is pale or discolored, you do not need a physician to tell you that you are in a dangerous condition. Dr. David Kennedy's Favorits Remedy speedily enres such serious symptoms as pain in back, inability to hold urine, a burning scalding pain in passing it, frequent desire to urinate, especially at night, and the staining of lines by your urine.

The Rev. Anron Coons, D.D., pastor of the M. E. Church of Rhinecliff, N. Y., says: "I most sincerely believe that Dr. David Kennedy's Paverite Remedy is the best kidney, liver and blood medicine made, and arguntly recommend it, for I know by experience it will do all that is claimed for it."

It is absolutely harmless and purely vegetable. #### THE TITLES OF MAYORS.

Proper Form of Addressing Montclost Heads to Leading Eng-Hids Claies.

When, asks the London correspondent of the Manchester Canedlan, is a mayor entitled to the prefix "right worshipful?" The question is not a purely academic one, says the London Telegraph, as I have seen the "right worshipful the mayor of St. Pancras" In print lately. The mayors of Lon-don boroughs, following the example "Yes. I seked her father for her hand yesterday," remarked Cholly.

"You did? Well, did he use his foot to answer?" Inquired the friend.

"Oh, no," replied Cholly; "I used the long-distance "phone." — Cincinnati Comercial-Tribune.

Worshipful the mayor of St. Pancras" in print lately. The mayors of London horoughs, tollowing the example of those in the country, are generally content to be styled "worshipful." The lord mayors who have arisen in the finst ten years at Manchester, Liverpool, Leeds, Birmingham, Sheffield and Briston and the country of the cou tol copy the precedents of London and York, and are "right honorable." Mrs. Eupeck (reading from a novel)
"And so they were married and lived ancient cities—such as Exeter, Chester happily ever after that." Now what do you think of that?

Mr. Enpeck—I think they must have
of these cities till the creation of its lord mayoralty three years ago. These fine distinctions recall a story of the rural deans of Oxford discess in the days of Bishop Samuel Wilberforce. Phose rural deans represented to their diocesan that they had a grievance in the fact that, whereas are his hops were "most reverend," bishops "right reverend" and deans "very reverend." they had no title to distinguish them from their fellow-clergy. The bishop suggested "rather reverend." Then the subject dropped.

### AN UNKNOWN CENTENARIAN.

New Granda Semi-Spaniard Who Claimed to Have Lived 184 Years in 1878.

The interest in centenarians is always great, and, indeed, to some peo-ple fascinating. As recently as 1878 a certain Michael Solis, of semi-Spanish origio, resided in Bogoto, Colombia, and was alleged to be 184 years old. La Epoca, a new Granada Jourwrote at the time of one Miguel | left Lollo, whom we take to be identical "Some 20 of the Yankee vessels had with Michael Solls; "The signature been sent to the bottom, and the res of this venerable anciano (ancient) is of the flect were flying in terror from affixed to a deed relating to the the awful missiles floor from our guns affixed to a deed relating to the foundation of a convent, and is dated 1712. It will fall to signal to signal to such of his his bate as white as anow," It militates against the genuineness of Michael Solis that luring the last 60 years or so prerious to what we may describe as his discovery no one had ever seen or seard of him, says the London Lancet. He is apparently unknown to such well-known writers on centenarlans as Kaston, of Salisbury, and three of Senor Sampson's ships go away, but this cannot be verified."

THE DAYS OF MOTOR CARS. How We shall Get About at That Period of the World's

History.

When the motor car shall have ousted the horse vehicle, says Henry Norman in the World's Work, there will be no need for families to herd together. To make a call 30 miles distant will be nothing when everyone has an automobile, and consequently we shall be able to live with great benefft to ourselves in charming but now hopelessly out-of-the-way country places, and yet be in no way cut off from the advantages of town life Theaters, concerts, good doctors, good shops will be within reach wherever we may pitch our tents: there will be so need to disfigure the landscape with networks of railways. Our streets will be cleaner and quieter, and our goods delivered much more expedi-tionally. According to Mr. Norman, leated to flod and the care of souls our grandchildren will wonder how and ought not to be diverted from buying the "La France." when we were dependent on horses, therefore no minister of the Gospel, JOHNSON, OF FEET, trains and bleycles. trains and bicycles.
