SANDYSTON.

When the new road across the mountain was being fought for, our freeholder, John E. Jager, did everything in his power to get that road. Now that it is in process of building and instead of putting Mr. Jager in as superintendent, another man is selected from a distant part of the county. Mr. Jager should have had the position and he would not pull up guide stakes and then ask what they were for.

One of the bridges near Junior Layton's was swept away by the high water last week. One or more small bridges were badly damaged, and some fences washed away was about all the high water damage.

A committee composed of three trustees visited the school houses in this town Saturday to examine into their condition and estimate the amount of repair necessary. If their estimates are carried out and they should be Sandyston will have comfortable school rooms for once.

Hainesville is out with a flaming poster announcing a grand 4th of July circus or something of that nature. I do not understand that it will be a celebration for it savors more of nickels and dimes, but if their program is carried out it will eclipse "Barnum's greatest show on earth."

Our town committee are taking the preliminary steps to the laying out of a new road over lands of Mrs. Maria B. Van Etten to take the place of the one washed away last week. The old road runs along the bank of the Big Flatbrook and every freshet damaged the road making much expense to the town.

Up to Sunday night the rainfall as indicated by the Weather Bureau instruments recorded 9.51 inches. The above marks the greatest rainfall of any month since I have kept the bureau records.

The project for having a rural delivery mail route through Walpack is thought to be a failure. If the route was to start from Stroudsburg I do not wonder at the opposition of the Walpack people to the route.

Complaints are being made by the people along the route from Layton to Flatbrookville that the mail from Branchville to Layton does not arrive at Layton in time to catch the mail from Layton southward. The Walpack carrier leaves Layton at 3.45 hence those people mail arrives one day behind time.

On Sunday last I visited the club house farm at Bevans and was shown the 175 sheep and lambs and among them are four fine specimens of Angora goats, and the fleeces taken from them are certainly handsome.

The constant rains have prevented farmers from plowing corn and in many pieces there is more grass than corn. With the 4th of July only a few days away it is doubtful if much corn will come up to the standard of knee high by the 4th.

What a racket a letter can raise and then to find out its author. It is laughable if it was not ridiculous.

His Last Hope Realized

[From the Sentinel, Odo, Mont.]

In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which seemed almost impossible to check, and along in June the case became so bad that he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the grass in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little worked a complete cure, and he cannot help but feel grateful. The season for bowel disorders being at hand suggest this item. For sale by Balch & Son, Matamoras, all general stores in Pike county.

Senator Platt's, of New York, talk with the president included, it is understood, a reference to the chairmanship of the national committee during the coming presidential campaign. No intimation, however, has been received as to whether the president has committed himself in any way as to the man who he desires to manage his campaign.

With the notorious extravagance and lawless procedures in various parts of the state, Kentucky should stand a good chance of redemption by the republicans, unless the democratic machine is absolute in its efficiency, regardless of majorities.

Governor Taft has called down upon himself nothing but praise from the American press for his last report given out by the war department. That the Philippine civil government is in the hands of a man whose only concern is the best accomplishment of the task committed to him has already become the settled conviction of the people of the United States.

Chamberlain's Colic, Cholera and Diarrhoea Remedy

The uniform success of this remedy has made it the most popular preparation in use for bowel complaints. It is everywhere recognized as the one remedy that can always be depended upon and that is pleasant to take. It is especially valuable for summer diarrhoea in children and is undoubtedly the means of saving the lives of a great many children each year. For sale by Balch & Son, Matamoras, all general stores in Pike county.
