TIMBER WEALTH OF FAR WEST, Where the Heart of the American

Timber Belt is Now,

In the United States the heart of the lumber belt has moved westward. almost the entire wood supply came from the then untouched forests As the woodsmen cut deep into the heart of the wood the industry was forced to find other fields from which to draw its supply, and the vir-Reeder Morgan and family have states bordering on the Great Lakes were cut into. Although these gions are by no means depleted to day, the Pacific coast is rapidly becoming the heart of the lumber trade Washington, there is at least one-third of the entire supply of standing timber in the United States. In fig ures, it amounts to more than 600,000,

The forest reserves and national parks set apart by the United States government within the limits of these three states aggregate an area or 32, 428 square miles or more than 32 per cent, of the total wooded area of the states. In the State of Oregon alone where a careful examination has been feet, or one-fourth of the States total supply.-Review of Reviews.
