SANDYSTON.

The Jagger trial has been the absorbing topic of discussion during the past week and almost every family had one or more representatives at Newton as witnesses or listeners. The court room would not hold only a fraction of the people wishing to hear the trial and the hotels were filled to overflowing. The press printed the evidence in full and one could read all that was said, and run no risk of being injured in the crush to get inside the court room.

Richard T. Layton will sell all of his personal property at his home farm on Wednesday, March 9, 1904, consisting of 18 cows, 9 horses and all farm implements. It will be the biggest sale ever held in this valley.

Sunday last was Valentine Day and lots of sweet and otherwise pictures were sent. It calls to mind a valentine I got 39 years ago which told me that I was honorably discharged after a 3 years term of service in Co. G 1st N. J. Cav. It don't look so long ago to look back, but that time is gone and I prize that valentine very highly.

The proprietor of the hotel at Layton will give a dance Thursday evening of this week and this promises to be the event of the season as mine host Montross will spare no pains to make it an evening of pleasure for all.

Mrs. Wykes, mother of Mrs. Morgan Hughes of Layton, had the misfortune to fall Sunday morning breaking her hip. She is quite an aged lady and it may make her a cripple for life.

Some time ago a deer was seen in Pine Hill, and a few days ago a party of fox hunters found where it had been killed and taken away on a sled. The penalty for such violation is pretty severe, and the guilty parties will keep that story to themselves.

A Mr. Vanauken has rented the farm of Mrs. Mary Raaser, near Layton, and will occupy the same on April 1st.

The argument urged by a prominent citizen of this town that the person to be elected freeholder "should be a person who had never held that office before, that he might mingle and get acquainted with other prominent men of the county." Well, if that isn't a hot argument for the candidate.

Wash. Lantz, our most popular auctioneer, is thinking very strongly of quitting the business on account of the exposure attending vendues.

Of all the reports of the trial printed in our county press, that reported in the Wantage Recorder is the clearest, most brief, and yet tells the whole story.

A party from this town remarked that it was nice to be freeholder saying that they could meet and as there was too much business to get through with that day, adjourn to hear the trial and take next day for business and I wondered if they got pay for two days, one day for business and one day to hear a murder trial. Better try the 3 commissioners plan.

The continued cold is making ice, and should there come a sudden thaw those living along the Flatbrook and Delaware should prepare for the approaching danger.

Arthur Hankins was driving up the great coil hill with a load last week and one of the horses slipped and went back to the foot of the hill on its back, the other horse stood up and that with the load went back too. The roads are very icy.

Dingman's is headquarters for Lowrey's confections.

Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

"It has been a long time since we have been without Hood's Sarsaparilla. My father thinks he could not do without it. He has been troubled with rheumatism since he was a boy, and Hood's Sarsaparilla is the only medicine he can take that will enable him to take his place in the field." Miss Ada Dorr, Sidney, Iowa.

HOW MAPS MAKE WAR NEWS PLAIN

To enable its readers to follow intelligently the momentous events of the Japanese-Russian war, The North American, Philadelphia's newspaper, has gone to extreme pains and unlined expense in preparing a colored map of the territory involved in the struggle.

Going to the general lack that prevails of exact knowledge of the topography of the lands bordering upon the town, harbor, ports and countries which are mentioned daily in the cable dispatches in the North American, it is impracticable for the average person to gain a comprehensive notion of what is progressing in the Far East.

Those who would gladly spend time to supplement the tidings that are read by them in the newspapers by researches in atlas or gazetteer are often prevented from doing this by lack of facilities.

It is to place within the reach of such a means of watching the movements of the Russian and the Japanese fleets and troops step by step as they immerse themselves in the struggle that has only just begun that The North American has prepared this map.

To show its utility it is necessary only to think how few there are that realize the immense expense of land and water that go to make up the geographical details of the war.

How many know that Russia, planning for decades a war of conquest which has for its object the gobbling of Manchuria and territorial aggressions in other parts of China, has expended nearly \$400,000,000 in building the Trans-Siberian Railway from St. Petersburg to the shores of the Japan and the Yellow Seas?

How many know that this road, 6000 miles in length, is depended upon by the Czar to enable him to throw any part that may be necessary of his 5,000,000 soldiers into Manchuria and China to crush by force of numbers any nation that might resist him?

How many realize that in order for the Czar to bring his Baltic fleet into the Yellow Sea it will be necessary for the vessels to sail 15,000 miles, skirting Europe, Asia and Africa?

How many can tell off-hand the relative positions of Korea, Japan, Manchuria, China, Port Arthur, Chafso, Chemulpo or Seoul?

All these points may be settled instantly by reference to The North American's map.

This map will be given free with each copy of next Sunday's North American. It is absolutely the latest map out. It is printed in four colors, and the spelling of the names is verified by comparison with the most recent government reports.

No more valuable gift, either from a standpoint of education or utility, has ever been presented by a newspaper to its readers.

Advance orders for next Sunday's paper already insure that the demand will be immense. To render it certain that you are provided with a copy, your newsman should have your order at once.
