unexpected changes are noticed. The Cabinet Ministers who have been Miss Roosevelt wore a heavy vell West and East are returning and completely covering her face. Even reporting at the White House. They bring good news and are satisfied and her picture appeared on the first with the situation. Secretary Hitch- page of one of the principal newscock is back from St. Louis; and papers. Secretary Cortelyou has returned from

a tour of inspection in and around New York. The question of who should be on the republican ticket for Vice President will be left for the Chicago convention to determine. A representative from Indiana, who called at the White House yesterday, informed the President that while Senator Fairbanks will not strive for the nomination, he will not decline it if it comes to him as the voluntary wish of the party. Congressions Hepburn of Iowa, also saw the President yesterday. He says that Speak er Cannon under no circumstance will consent to become Vice President. Little is now said regarding Mr. Hitt for that office.

One question which it was thought would occupy a subordinate place in the coming campaign is rapidly coming to the front owing to a variety of unexpected circumstances, and that is the Philippine. The recent decision of the Supreme Court, handed down last Monday, that not even American citizens, if they happen to reside in the Philippine Islands are entitled to a trial by Jury, together with the vigorous dissent of Mr. Justice Harlan, attracts wide attention. It has long been an open political secret that the anti-imperialists will support the party which denounces imperialism and promises freedom and self-government to the Filipinos. This the Maryland democracy, inspired by the former being only the forerunner what the fine hand of Senator Gorman has done. In a few days a large Philippine Commission will arrive in then works down the stem, and into Washington, and be entertained at the tuber where it continues to luncheon by the President, as well as develop and causes the tissue of the by the business men of the city. No potato to break down and rot, after political speeches may be made, but the disease has entered the tuber from June 15 to 18 the Filipinos will there is no possible remedy though it be the guests of the New York Stock may be checked by keeping the Exchange, with a big banquet at potato dry and cool. It is therefore Delmonicos. The editor of Manila better to prevent loss than apply the Times is in Washington, to urge free remedy. The spores are carried in trade. He thinks the people of the the air, and fall on the leaves of Islands will be glad to come into the potatoes during June for the early, Union as a Territory, with the privi- and in July and August for the late leges of citizenship. All these matters blight, After the leaves commence are somewhat perplexing and indicate to blight nothing can care them.
