\$50,000.00 Cash Given Away to Users of

We are going to be more liberal than ever in 1904 to users of Lion Coffee. Not only will the Lion-Heads, cut from the packages, be good, as heretofore, for the valuable premiums we have always given our customers, but

the same Lion-Heads will entitle you to estimates in our \$50,000.00 Grand Prize Contests, which will make some of our patrons rich men and women. You can send in as many estimates as desired. There will be

- TWO CREAT CONTESTS The first contest will be on the July 4th attendance at the St. Louis Worl l'a Fair; the second relates to Total Voto Fur President to be cast Nov. 3, 1934. \$20,000.00 will be distributed in each of these contests, making \$40,000.00 on the two, and, to make it still more interesting, in admitted to this amount, we will give a Grand First Prize of \$5,000.00 to the one who is nearest correct on both contests, and thus your estimates have two opportunities of winning a big cash prize.

Five Lion-Heads cut from Llon Coffee Packages and a a cent stamp entitle you (in addition to the regular free premiums) to one vote in either contest:

Printed blanks to vote on found in every Lion Coffee Package. The 2 cent stamp covers the expense of our acknowledgment to you that your estimate is recorded. PRESIDENTIAL VOTE CONTEST

WORLD'S FAIR CONTEST What will be the total July 6th attendance at the St. rid's Pair? At Chicago, fully 4, 1971, the attendance was 3 nearest correct estimates recoved in Weolson lining y's office, Toledo, Ohlo, on or before June 38th, 1934, w first price for the nearest correct estimate, second price nearest, etc., etc., as follows: First Frise Second Prize Frize - 5500.00 sach Frizes - 200.00 "
Prizes - 100.00 "
Prizes - 50.00 "
Prizes - 50.00 " TOTAL. 2130 PRIEES.

hat will be the total Preputar Vote cast for President (whose conditions contilined) at the election November 5, 1547 in seriou, Li 1936 Ximonople voted for Freshent, For neurost confirmates received in Workson Spice Co. 4, office, Tokado, Co. before Nov. 5, 164, we will give first price for the searcest constituate, second prize to these to one of the control of TOTAL \$20,000.00 \$20,000,00 2180 PRIESS.

Distributed to the Public-aggregating \$45,000.00-in addition to which we shall give \$5,000 to Grecers' Clerks (see particulars in LIGN COFFEE cases) making a grand total of \$50,000.00.

WHEN THE PRE-MONITION CAME, Probably the Most Interesting Electric

"Have you any bellef in premonitions or in this business of being able clock, and to-day he was able to an-

The war corespondent was slient for a space and the rust of is waited surmounted would have discouraged eagerly for his answer. For he was most men. the acknowledged cracle of our little

the city.

"Although I suppose I wasn't particularly communicative the young fellow seemed not to notice it, for he atinged a one-sided conversation for fifteen minutes or more, in which my part was noddling my head once in a while to show that I was awake and that was about all. He was a bright young chap, and rambled on in a happy vein, and I was glad to let his talk play an agreeable accompaniment to my thoughts. At last I got up, and, intimating rather broadly that I wanted to be alone, I went back to my seat in one of the rear coaches. The last look I had at him he was sitting there smoking a cigarette with a smile still on his lips,

"You all know about the wreck. How the engine and first three cars were smashed into kindling wood, and all the rest that filled the papers. But one thing that was unnoticed and hence kept out of print and which I'm going to tell you is the reason for my belief in the intuitive second sight which our friend Raclin here has duce a beautiful effect. seen fit to denounce.

"After the first smash I pulled myself together, found that I was unfriend up in the smoker. I walked forward as rapidly as I could, picking my way through the wreckage until I reached what was left of the buffet Pullman. I found the boy with his legs plufed under one of those heavy six-wheeled trucks. He was conscious and a faint smile lit up his face as he saw me bend over him, in spite of the agony he was suffering. He was so weak from the loss of blood that he suldn't raise his arm but following the direction of his eyes I noticed an envelope in his hand which he was elutening tightly.

boy's request but it was all useless, Perhaps it was better that he never got here. It would have been a worse ending to the story if he had." "Yes," broke in Raclin. "But what

about the second-sight business? Where does that come in?" "Oh," responded MacDonald, "the letter itself answers that," and he in three pictures. One shows her in drew a crumpled envelope from his Havana harbor before the explosion pocket. We all leaned closer, that which wrecked her, one the explosion we might not lose a word.

"The thing is not addressed, is the explusion: short, and to the point," MacDonald begnn.

"Here it is," and he read: "Whoever may find this will please below as a favor to a dead man. In return, a check will be found inclosed for \$1,000 payable to the bearer. First go directly to — West Seventy-see ond street, New York City, and inform Miss A. B. Conklin that the owner of the inclosure is dead; that his service in the Philippines has prevented his finding her sooner. Secondly, deliver into the hands of no rendered at the funeral. secondly, deliver into the hands of no

one but Miss A. B. Conklin the inclosed package L. S. Rodman."
"That's nil," and MacDonaid started to put the thing back in his pocket. But we were not to let the matter rest there. In unison we demanded of sim the sequel, and finally, after nuch persuasion, he told the rest.

"I went to the address given in the instructions and found that there was nishes his next article for the no such person as 'Miss A. B. Conk-Saturday Evening Post on "How I lin." She wasn't dead exactly, but an old white-haired mother told me courteously enough that her daughter,

compare the leaders of the wings of that once powerful party, which however no longer, as Sam Randall used to say, "flap together."

"So I didn't give up the inclosure.

After thinking about it for three days I decided to see what it was, and insamuch as 'Miss A. B. Conklin' could never see it I concluded it. me to open it.

It was a wording ring, done up in a piece of paper, on which was this hildish bit of verse:

When you've returned with spurs well enrand

From battles o'er the sea, And your true wife will be. "At the bottom were signed the

the acknowledged cracle of our little crowd, and his seldom-voiced sentiments were highly valued.

"It's a little story about a friend of mine. It happened the other day. You know I landed in Boston, and was hurrying to get back to New York after a year and a half's absence on one of those fine Shore Line trains. Up in the buffst car I can into a most necessary where ago Mr. Shearer was painting at a factory, where he was caught in a line of shafting and in it is used to hadly that he is a line of shafting and into a caught in a line of shafting and in the caught in a line of shafting and in the caught in a line of shafting and in a line of shafting and in a line of shafting and in the caught in a line of shafting and in a line of shafting and in the caught in the caught in a line of shafting and in the caught in a line of shafting and in the caught in a line of shafting and in the caught in a line of shafting and in the caught in a line of shafting and in the caught in a line of shafting and in the caught in a line of shafting and in the caught in a line of shafting an

The clock is called the "Electric Wonder." It is 12 feet a inches high, 4 feet and 4 inches wide, and 29 inches deep, and weighs 850 pounds. One large dial gives standard time, while directly under it is a dial which shows the changes of the moon and gives the Government weather report twenty-four hours in advance.

By watching the clock one can see bandsome pictures of the ships in the United States navy pass behind a glass. The ships are arranged according to their speed, and the effect is The history of Christ is shown from

the nativity to the ascension—the last supper, betrayal, cracidaton, the resurrection, and ascension, by pictures painted by the inventor and illumi-One of the most interesting features

of the clock is a miniature Niagara Falls, with real water tumbling down, the color of which appears to change, Just below the cataract is an electric fountain and an arch, arranged to pro-

Flags appear on a staff near the centre, and in front of the dial, and indicate the kind of weather expected, twenty-four hours in advance. The interpretation of the flag appears on the calendar dial simultaneously with the appearance of the flag. The weather reports are produced by a thermometer, a barometer, a hydrometer, a spirit level, and a compass.

The history of the United States, from the landing of Columbus to the present time is shown by ninety-six paintings, which are attached to a ribbon 108 feet long, and moved by electricity.

When the clock strikes the hour the figures of Uncle Sam and the Goddess of Liberty pass out of an electric "Take it," he said, and then shut elevator on one side of the miniature his lips tight together. It burt him to Niagara Falls, walk through a gate, down a stairway, around the base of "There ign't much more to tell," the cataract and the electric fountain the newspaper man replied quietty, "I to the opposite side. Here they came to New York to carry out the ascend another stairway and enter another elevator. These figures appear to be of flesh and blood, and walk without being attached to any wires. An Huminated picture on one side shows the Delaware River full of ice, with Washington crossing with his

army. The battleship Maine slso appears in three pictures. One shows her in which wrecked her, one the exptosion scene, and the other the wreck after

On the back of the clock the Lord's Prayer is given, inlaid with 312 pieces of wood. The portraits of American poets, musicians, and all the Presifollow out the instructions written dents also appear on the back. The below as a favor to a dead man. In portraits are all in motion, and travel r

rendered at the funeral.

The base of the clock contains all the electrical appliances, which are self-winding. There are 640 feet of electric wire used in its construction and 32 feet of pipes to provide water for the falls. There are also 412 electrical connections.

The "Electric Wonder" has useful features. During the summer it can e arranged to operate an electric fan, and in the winter months it can be fixed to light a gas stove. There is also a burglar-alarm attachment, which will show the number of the door or window being entered, besides illuminating the room and sounding alarms, eight in number.
