That Italian laborers save more money at the same wages than any other European immigrants is a statement made in a report of the moderately good-looking, and not prettily or smartly dressed, there is fepartment of commerce and labor The reason is easily found, says the New York Sun.

A great majority of the unskilled laborers in this country are employed in railroad construction and simicarried on where there are no accommodations for boarding and lodging the men. To boarding camp thus becomes essential to the contracting company.

Most of the Italians in addition to that amount spent am average of \$3 a month for beer, cheap cigars and tobacco, which with the expense of \$1 a month for shanty rent brought total cost of living up to about \$10 a month.
