 Lancaster.

REPUBLICAN COUNTY TICKET.
 Jury Commissioner,
GEORGE H. McCARTY,
 Milford Borough.

It is a pretty safe prediction that there will be trouble in the Democratic rank next year when it comes to making a nomination for congress man for this district. Some papers are approving Mr. Palmer, the present incumbent, and suggesting that he is the logical successor of himself. But will Northampton accede? If he was satisfactory to her political manipulators why did they break the agreement, or did they do so in order to take Pike out of the race. Will the Democrats of this and Carbon county submit, if after breaking the agreement it is found to be done in the interests of Palmer for another term, with the dead certainty that Northampton will be next, and probably next for several succeeding terms. With the tariff settled there may not be opportunity for a congressman on the minority side to make any great display of forensic or other ability and Northampton may feel that one of her sons can square up to the opening.

They call Dr. Shull a dead one and predict that in future his once potent arm will be paralyzed. He may be dead in their opinion but possibly in his own he is not yet buried, and may be a trouble maker when it comes to the round up for votes. We are not entering on the discussion of Democratic situations with any view to arouse party feeling but only mention the facts as they seem to us.

Of course when it finally comes to sending in a valiant warrior to scale the breach and seize the colors Northampton republicans may select their invincible leader Schneebeli, as the one to carry off the honors.

The bill introduced in the House by Hon. A. M. Palmer to permit National Banks to loan part of their deposits on real estate security will mark an advance in banking if it becomes a law. It is perhaps not all ways best to place the borrowing temptation before some men or to make it too easy for them to obtain loans, but as it is now many are deterred from borrowing to make necessary and profitable improvements because of the difficulty of obtaining a satisfactory endorser and of putting up collateral. The rate of interest 6 per cent which banks demand and a renewal every three months at most makes the interest more than a flat 6 per cent a year and if a man could borrow at 5 per cent a year he would save considerable. The bill would be a relief to banks because now to dispose of their surplus they must buy only interest bearing bonds and take the chances of depreciation. In loaning at a safe margin to home customers on real estate they would obtain better security with no chances of fluctuations in value.

The appearance of Milford never was more attractive and its conditions never more healthful than at present. The State bacteriological department after examination of both the water and milk supply pronounced them absolutely free from contamination. Our streets have been treated with a dust preventive, and barring the fact that it is an exceedingly dry and dusty period, are in excellent condition. The V. I. A. has done much to beautify the surroundings and the town council and health board have been alert to aid in making the town a pleasant place in which to spend the summer. No contagious or infectious diseases exist here, malaria and mosquitoes are unknown, and the fly pest is at a minimum. If you do not believe all that is said a visit will convince you that the picture is not overdrawn. We invite investigation and the closest comparison with any other town in this section. If there is a pleasanter or more healthful place in which to pass the summer than Milford we would like to have it mentioned.

Vernon M. Pierce, assistant director of the U. S. good roads department, was in town this week and made an examination of the streets and the affect glatin has had on them. He reports that the result is as good as could be expected, that no dust preventive will be wholly satisfactory without careful preparation before being applied. All dust should first be removed from the street so as to have a clean hard surface. He recommends for roads such as ours as the best all round dust layer, water gas oil manufactured in Philadelphia which costs about 5 cents a gallon.

Benefit of Sawkill Church
 An entertainment for the benefit of Epiphany Chapel, at Sawkill will be given in Forest Hall on Thursday July 22, at 8 15 p. m. It will consist of Stereopticon views of Jerusalem and the Holy Land with an explanatory lecture by the Rev. Dr. S. C. Mitman, chaplain of the Lehigh University, who took these views himself. ARMSTRONG'S
 Broad & Catharine Sts. Milford, Pa.

Under the Act of May 12, 1909, Supervisors will have a job measuring roads. The act says they must within six months measure all public roads in their townships. It may be done with a cyclometer and the miles must be reported to the State Highway Commissioner.

After August second passengers over the Erie to New York can cross in the Cortlandt Street tunnel by paying five cents. The tunnel is operated by a distinct corporation.

Eleanor, age 11 months, daughter of E. F. Killein of N. Y. died at Matamoras Sunday evening.

Mrs. Frank Schorr has gone for a weeks visit with friends in Hawley and Greentown.

An Italian track laborer on the Erie was found dead in the Delaware river near Pond Eddy Wednesday Morning. Near by on some rocks was a pool of blood. An investigation was made to determine the cause of death and whether accidental or by foul means.

Without an autopsy being held a jury empaneled by Justice Zollner guessed that he came to his death by being hit with some blunt instrument in the hands of a person unknown. He with a companion had been over in New York State the previous evening and were seen to gather near where the body was found much intoxicated.

Yesterday was St. Swithen's Day and as no rain fell we may expect fair weather for the next forty days. If it remains as it has for several weeks past people and the earth at the end of the period will look and feel like dried herrings.

The certiorari process issued by O'Neill against the Chief Burgess of Matamoras to remove the case to the higher court for review, will not test the merits of the matter or determine the right to impose fines for speeding. It will only settle the question of the regularity of the proceedings. The real merits could only be tested on an appeal, and if autoists are in doubt as to the right of the Borough officials to arrest and fine for over speeding an appeal should be taken to determine that question.

They were sentenced to pay a fine of \$500 each and undergo two years imprisonment in the Eastern Penitentiary, unless the Supreme Court allows an appeal they must now serve time.

Allison Leifer and wife returned here from their wedding trip to Bermuda and are at their home corner Fifth and Ann Streets

He Was Under Oath.
 The late Professor Rowland, of Johns Hopkins University, was the most eminent physicist since the days of Joseph Henry. Among his notable achievements in the realm of pure science was the calculation of the mechanical equivalent of heat and the use of gratings in spectrum analysis, for which purpose he devised a machine that could cut 49,000 lines to the inch on a plate of polished metal. In the practical application of his knowledge he was noted as the inventor of the multiplex telegraph apparatus.

Some years ago, testifying in a case involving the Cataract Power Company, in answer to a question on cross examination as to whom, in his opinion, was the greatest American scientist, he replied, "I am."

After leaving the courtroom one of the lawyers ventured to criticize the answer for its effect upon the jury, whereupon Rowland exclaimed: "Well, what else could I say? Wasn't I under oath?"—New York Globe.

Good Stationery

is as necessary as good dress, whether for social or for business correspondence

Our stock of stationery and writing material for all occasions is always large and well chosen and just now is unusually complete.
