REPUBLICAN COUNTY TICKET.
Jury Commissioner,
GEORGE H. McCARTY,
Milford Borough.

The session of Congress just concluded demonstrated in a remarkable degree the impossibility of enacting a tariff law in accordance with the Republican national platform, that is, making the duties equal the difference between the cost of production at home and abroad plus a reasonable profit for American industries, without data bearing on various industries other than that furnished by protected manufacturers whose personal profits are dependent on the tariff and whose views cannot be in any sense unbiased. Such manufacturers appear before the committee of Congress and as a result that any reduction of the duties below the existing law will ruin their business and throw thousands out of work.

The few who attempt to controvert these statements are, naturally, less familiar with the details of a given industry than those engaged in it and they are generally made to appear ridiculous because of that lack of familiarity. The Senator or Representative dependent on the manufacturers in his district in large measure for re-election is hardly in a position to treat their statements with incredulity. It is, therefore, imperative that Congress should have some official data on which to act and that, above all, the President who, as Mr. Taft has well said, has the entire country for his constituency, should possess that data also. Only a tariff commission of the type designed by President Taft can furnish such data.

At a picnic held by the Wyooskie Sunday School near the Wyooskie Fall on Saturday August 7 there was one unwelcome visitor, it being a rattlesnake. As W. E. Gillner was coming from the Falls he heard a noise, and discovered it was a rattler. He picked up a stone and threw it at him, which instantly killed it. With a stick he carried it to the picnicers where it was on exhibition for an hour and was sold to a camper at Elkton Pond.

MORE Milk from cows! Work from horses!

Protect your stock from flies and you'll make more money. Animals that are pestered by flies simply cannot properly digest their food. Why spend money buying special feed and then let the flies rob you of your profit? Shoo-Fly kills every fly it strikes.
Free your stock from flies by spraying them with SHOO-FLY and they'll take on flesh immediately. Your cows will give one-third more milk and your horses will do more and better work.
Protect your stock and get the profit that belongs to you by spraying them with
Shoo-Fly The Animals Friend

It will keep off flies and all other insects longer and more effectively than any other. Animals live longer and take more food and are more healthy by spraying them than they do by work. Half a cent's worth saves three ounces of milk a day. One gallon protects a whole season. Saves his cost immediately. A well will compare you. Causes all sores. Does it quick and avoids infection by keeping off flies. Heals from the bottom with practically no cost. Nothing better for flies. Prevents itching. Used and recommended by leading veterinarians and their own clients. Fly-killers everywhere find it invaluable for killing flies and other insects in poultry houses. Come in and let us tell you all about this excellent preparation. We know from actual experience what it will do. You can't afford to be without it.
