For the benefit of our readers who may not have access to the pamphlet laws we will publish from time to time brief abstracts of those especially affecting the general public. The new game and fish laws are too long to print in full but we will epitomize them so they may be understood. A digest has been published and perhaps Mr. Marvin may have a supply. No harm in asking him.

Some interested observers are suggesting that it might be an excellent plan to have a short sermon, or other religious service, precede Sunday games. There is an increasingly large class of people who spend the Sabbath, either as observers, or participants of base ball, tennis or other sports and the idea is that if these people cannot be induced to attend church they should have the benefit of religious instruction where they may be found at the grounds. Whether this plan will be generally favored is doubtful, but the prevalent disposition of many to while away the Sabbath in playing games is certain sooner or later to attract public attention to the matter of Sunday desecration. A person may have his own ideas as to the propriety of spending the day of rest in such amusements but he cannot overlook the example he sets in doing it in a most public manner. The younger generation is prone to copy the example set by their elders and seeing them thus engaged, it is hard to place them under restraint. For those who labor all the week, bread-winning for their families, there may be some excuse that they need the day for open air recreation, but what excuse do those who have leisure all the week for sport offer either to their consciences or to their more sedately inclined neighbors, to say nothing of the old fashioned religious aspect of the matter.

Advertisement for Shoo-Fly. MORE Milk from cows! Work from horses! Protect your stock from flies and you'll make more money. Animals that are pestered by flies simply cannot properly digest their food. Why spend money buying special feed and then let the flies rob you of your profit? Shoo-Fly kills every fly it strikes. Free your stock from flies by spraying them with SHOO-FLY and they'll take on flesh immediately. Your cows will give one-third more milk and your horses will do more and better work. Protect your stock and get the profit that belongs to you by spraying them with Shoo-Fly. The Animals' Friend. It will keep off flies and all other insects longer and more effectively than any other. Animals themselves and before long, feed and manure more by snapping than they do by work. Half a cent's worth covers three quarts of milk a day. One gallon protects a animal a whole season. Saves to cost immediately. A trial will convince you. Comes all sizes. Does it quicker and avoids infection by keeping off flies. Heals from the bottom with practically no cost.
