REPUBLICAN COUNTY TICKET.

Jury Commissioner, GEORGE H. McCARTY, Milford Borough.

If you are a good citizen you wish to have a part in the government of the state. You can only do this by exercising your right of suffrage. If you remain away from the polls and do not vote you leave the choice of officials who are to manage the State's affairs to others who are interested and you have no cause, or reason, to complain if the choice is not personally satisfactory. You have no business in such an event to criticize or condemn. It is not in any sense your right to find fault with the officials if they do not conduct the affairs in the manner they should or as you think proper. They are not responsible to you, nor are they bound to consider your opinion. You had no part in saying whether or not they should be elected, you were too indifferent, or careless, to express your mind or exert your influence by your vote. As to the candidates on the ticket, the proposed amendments to the constitution, the law which will govern you for years to come, are to be considered. There is no politics in them. They are for all parties and all people. They will be the law if adopted and whether you like them or not you must obey them. If you are an intelligent voter you have made yourself acquainted with the provisions, if you are not you ought to be so ashamed that you will immediately set to work to inform yourself and then having reached an independent frame of mind go out to the election and mark them and the ticket as your conscience and best judgment dictates. Any how don't be a shirk go out and vote. Let the people rule, and every voter is one of the people.

DONT COUGH, BUT LIVE LONG.

If every cough were cured before it got a strong hold, human life would be lengthened by many years. If every coughing sufferer knew that Kemp's Balsam would stop the cough in a few minutes, he would be glad to escape the serious consequences. If any medicine will cure a cough Kemp's Balsam will do it. At druggists' and dealers' etc.

It is said that the seventh amendment, which is creating a panic with some democrats, is a measure advocated, if not actually proposed, by the leaders of that party to enable the legislature to pass a law providing for appointment of judges and inspectors of election in cities. The amendment specifically says laws regulating the appointment of said boards may be enacted to apply to cities only. If it will secure honest election boards in cities every one should favor it.

The readers of this paper will be pleased to learn that there is at least one blood disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any disease that it fails to cure. Send for list of testimonials. Address F. J. CHEENEY & CO, Tol. O. Sold by all druggists, 75 cents. Take Hall's Family Pills for constipation.

An Estimate. "Do you think that Miss Kisser was having fun with me?" asked Chawley.

"Well, old chap, give me the details," was Arthur's response. "You see, I had my bull terrier with me. And I said to her, 'That dog knows as much as I do.' And she said, 'Don't you think four dollars and a half was too much to pay for him?'"—Cleveland Leader.

Blending Schools.

Emerson thought the author of "The Way of a Man" and several other popular novels, is very fond of outdoor life. It takes a good man to beat him when it comes to telling a story around the camp fire at night. While camping out in the Adirondacks with a party of his friends, the conversation turned on schools, and how plainly they could be heard. Emerson was getting "louder and louder," until silenced by the following statement by Mr. Hough: "Out in the Rocky Mountains it takes eight hours to hear the echo of your voice. When I camp out there, and just before I pull the blankets around me for the night, I shout out, 'Time to get up!' and—do you believe—the echo wakes me next morning!"

back view explains this. He placed the lower end of the ladder, into which the neck of the bottle was inserted, in the corner of the room, and in the center of the wall. At the top of the ladder was a hook at which it was held in its upright position. It is a pretty little contrivance, and one which has been worked over with any pretty piece of work intended for. The cardboard can be fastened to the wall at the top. It is fastened to the wall at the top. It is fastened to the wall at the top.

Marjorie's Remark. The tramp narrated to follow was the story of an intensely tragic occurrence. "Yes," he said, "there was a beautiful lawn in front of the house, nicely kept, and it looked a real good chance for getting a bit of honest sympathy. So I walks in, gets down on me hands and knees, and starts chewing the grass. Out comes a kindly-looking old lady as I ever seed, and wanted to know what I was doing. Told her I didn't 'ad grab for work, and was obliged to eat grass. She looked very sympathetically at me, and then said: 'My pore man. Come around behind the house. The grass is longest there.'"

Climbing Stairs is Good Exercise. Climbing stairs is avoided by most women as an unsafe exercise. Yet it is detrimental because of the bad way in which it is done. The body works to its best advantage in lifting its own weight, as in hill-climbing. In mounting stairs, let the chest lead, the body remaining normally erect; use the stair as a base upon which the spring in the ball of the foot lifts the weight. With a full breath in the body as though by the elevation of the chest. There is a buoyancy attending this exercise which removes from it much of its bad effects.
