A warning has been sounded by some papers, that the late election at which the republican ticket in Carbon County was defeated, is notice that there must be a reorganization and that those in control of the machine must let up if they do not want to see the county in the democratic column. Hufford who was the candidate for sheriff was defeated. He is the same man who took the Senatorial nomination last year and carried his county by 80 majority. The same feeling prevails in other counties and also in the state. The vote in Philadelphia at the last election is cause for anxiety with the candidate naming bosses. It shows that with a fair election there are enough uncontrolled or independent voters to down them. Tammany Hall considered it self impregnable but the people wiped it out, and years may intervene before that corrupt organization again wins its way to power. The people eventually will come into their own. Office holders and office seekers may trust themselves to the front and insist on party regularity to be elected, and they may dominate for a time, but current events are teaching that party shibboleths are no longer all potent. It may be unpalatable medicine but the self appointed and in-leaders will be forced to take it in Allopathic doses.

SAFE AND SURE.

Among the medicines that are recommended and endorsed by physicians and nurses is Kemp's Balsam, the best cough cure. For many years it has been regarded by doctors as the medicine most likely to cure coughs, and it has a strong hold on the esteem of all well-informed people. When Kemp's Balsam cannot cure a cough we shall be at a loss to know what will. At druggists' and dealers'.

Census Enumerators.

It may be matter of interest to intending applicants for appointment as Census Enumerators to learn how they will be selected. On receipt of applications from applicants by the Supervisor each will be mailed an official application and test schedule. The test schedule is to be filled out by the applicant from an imaginary story prepared at the Census Department, and his ability to prepare this schedule will decide his eligibility to become an enumerator. Also his knowledge of the district which he wishes to enumerate will aid to decide his ability to act as an Enumerator.

NO WONDER SHE'S CROSS.

The woman who has a thousand petty cares and annoyances a while she suffers with headache or side ache must not be blamed if she cannot always be as genially amiable. What she needs is thoughtful care from her family and such a simple and natural remedy as Lane's Family Medicine, the herb tea that makes weak women strong and well. Sold by druggists and dealers.

Worthy Guardian of Fleck.

The proverbial sagacity of the shepherd's dog is well known, and a striking example of this was seen in Custer the other day. A flock of sheep was being driven along the road, and in passing the village the shepherds entered one of the shops for a moment. In his absence a motor car came up, but in a twinkling the dog came forward and had the sheep cleared to the side of the road for the car to pass, the same as if his master had been there.—London Mail.

The Prescription Counter

We consider the Prescription Counter the keystone of our whole business structure and have spared neither time, effort or money in making this the most complete and thoroughly organized and equipped dispensing department in our state.

Beginning with a stock of drugs, fine chemicals, pharmaceuticals and proprietary preparations which is lacking in nothing ordinarily called for by physicians and public in this locality, we have supplemented this stock with a dispensing equipment probably not excelled.

Our system of double checking all work has been so thoroughly perfected that mistakes are unknown in our finished work and all who have anything to do with prescriptions are regularly qualified licensed pharmacists thoroughly experienced in their work.

Fred Atkinson of Travers City Mich renewed old acquaintance here last week after an absence of thirty three years. Mrs. Harriet Atkinson of Hawley accompanied him here and made a few calls.

Tile Briere our School teacher had an entertainment for Thanksgiving Wednesday afternoon, assisted by the Baladen School Nellie Wiggo teacher. The School house was trimmed with corn pumpkins and other vegetables to represent the pieces and dialogues recited. The children did well with their singing and speaking. The teachers deserve great credit for the training the children had.

Tea Possibilities. I have just had an invitation to an electrical tea to be given by a woman doctor, said the bachelor girl. "I'm looking forward to it and wondering what is going to happen to us—whether she will give us a little battery and let us entertain ourselves, make the tea on an electric stove, or just electrocute the bunch of us."

Another Disciple of Fletcher. "Johnny" spoke Mrs. Lapelling in a tone of sharp reproof. "You shouldn't bolt your food in that manner. You must learn to plagiarize your victuals."

Texans Now Making Money Catching Rattles for Them. Just at this season of the year the snake business in San Antonio, Texas, is at its height, says an Indianapolis News special despatch. W. O. Learn, who has handled probably more rattles than any man in the United States, says that the business is exceptionally good. Owing to the drought little farm work is going on in Southwest Texas and the idle Mexicans are all busy catching snakes, at which work they can make a good income. Mr. Learn is now handling more than two tons of rattlesnakes a day from the Brownsville country alone.

Mr. Learn has under his instruction more than twenty girls, some of them young and beautiful, whom he is training as snake charmers for carnivals and other shows. These girls work daily in a room where there are thousands of rattlesnakes and other reptiles. After a little instruction in how to handle snakes there is practically no danger, even from rattlesnakes. These reptiles, declares Mr. Learn, when handled kindly and not tentatively, practically never bite the trainer. In fact, he says they are like all other dumb brutes—they learn to love the hand that fondles them and will not strike at it unless they are injured in some way.

The young women who qualify as snake charmers receive \$20 to \$30 a week, and this is increased as they show efficiency. A really attractive girl who learns to handle snakes in an apparently sensational manner often receives \$50 a week. Mr. Learn states that he has no trouble in getting all the girls he can find employment for.
