The few days preceding the meet however, will be of sufficient length Resolved, that we thank the In- and most readers will prefer to con-Cabinet members are busy with their several report1 and some of them have been sompleted. They During the past year death has are generally asking smaller ap-

word of the present administration but it is not at all improbable that before the budget is made up it will exceed more than the billion dollar We memorilize their names as mark as did the last appropriation they have appeared before the high. schemes of public improvement and est tribunal to render an account of betterment in almost every direction

There are many public plans and enterprises for improvment of the public service but none of them are startlingly new although they areall increasingly orgent. The Secretary of the Navy has issued orders for the reorganization of the Navy De partment and are looked upon by hose whom it will offect as nothing short of revolutionary. If he is an sessful in carrying out his plans much good will be accomplished The keynote to the changes in the Naval establishment has been exreased in the not novel traism that the ebject of the Navy is to maintain an effective war fleet on the seas. There is probably, not a school boy that knows that this is a self-evident proposition and not a Senator who would maintain that there could be any other legitimate object for the Navy and, yet, there are Senators and members, admirals commodores, captains and lieutenants of the Navy with their wives, mothers-in-law, sisters, cousins and aunts who have for seventy-five or Patmyra-George Ansloy, Walter a hundred years lived, moved and had their being on the hypothesis that the object of the Navy was to maintain; first, a splendid Navy Department at Washington with dissinguished officers at the heads of cers at a dozen-naval-stations and Navy Yards that are no longer used pense and that cannot be used for oretary three million dollar deficit by any legitimate Naval purpose because the entrance to these Navy Yards is too shallow for the admisand their families and friends. These Congressional investigation of Naval officers have intermarried in net ministers, until they form the ed as follows,

The Postmaster-General is contemplating improvements in the Postal establishment, nothing new but several things orgent that have been long advocated and that would on Tursday, to the tenant house of broken wrists, 6 broken that have been carried into effect in a Isaac Stoll. more effective and less unwieldy The selling of milk has lessened Government than our own. All re the mising of pork in this town, but forms and governmental betterments here have to wait on legislation; teg week one weighing 550 pounds and islation has to wait on a Congress the other a little over 400. that has been elected thirteen A goodly number of the patrons of months before it meets, a Congress the Bevans creamery after deliverthat knows more about District ing their milk fill their cans with county or parochial affairs than water from the spring at the cream about National affairs, a Congress ery which goes to show the scarcity George C. Palmer to George S. composed of hundreds of men who of water.

THE FOOLISH FISH.

Two speckled & hes Played round a hook, 'I'was well baited: One went to look At the fat little worm And as he saw it equirm, Said, I'll take a bite 'Twill be no harm'.

The other fish said: "Don't People living up in air Are very wily creatures And they little care In what way they take us They catch us and they make us Their food, to boil or bake us So don't go over there.

My mother once was caught Just in that same way But, somehow she escaped How, I cannot say; She gave me this advice: "Never round a hook to play" I shall never forget it Till my dying day."

Then the little wise fish He swam round about, But the tittle foolish fish Had in his mind, a doubt So he thought he'd take a taste Of the squirming little thing Poor little fellow. He went upon the string!

CECILIA A. CULLEN.

RIMES OUT OF REASON

When the English tongue we speak Why is "break" not rhymed with "freak"? Will you tell me why it's true We say "sew," but likewise "few"; And the maker of verse Can not cap his "horse" with "worse"? "Beard" sounds not the same as "heard"; "Cord" is different from"word"; Cow" is cow, but "low" is low"; 'Shoe" is never rimed with "foe." Think of "hose" and "dose" and "lose"; And of "goose" and of "choose." Think of "comb" and "tomb" and "bomb"; "Doll" and "roll" and "home" and "some." And since "pay" is slined with "say," Why not "paid" with "said," I pray? We have "blood" and "food" and "good"; "Mouid is not pronounced like "could." Wherefore "done," but "gone' and "lone"? Is there any reason known? And, in short, it seems to me Sounds and letters disagree.
