It is a hopeful sign when a party begins house cleaning in its own domain and just now that process is in vogue at Washington where an investigation is being made by a congressional committee of the conduct of certain officials with respect to allowing private individuals and corporations to obtain grants of valuable lands. It is a result of the Pinchot-Bullinger controversy and what ever the effect may be on the republican party it is well for the country, whose interests are larger than that of any party, to know the truth and whether there has been connivance on the part of any official to allow its property to be taken to enrich corporations or individuals. A party which investigates its own family and lists unworthy members may be injured politically but in the end will reestablish itself in the public confidence. The party that knows its own faults and makes due effort to correct and not hide them will triumph, because people will have confidence to believe that it is making every effort to conserve their best interests. The only way to maintain popular esteem is to be fair and above board, exposing wrong doing and giving every one a square deal. A somewhat striking example of this is the method being pursued by the Governor of N. Y. and it will be admitted that he is making himself solid with the masses of voters in both parties by outspoken efforts in their behalf.

The DISPATCH, which seems to have a grudge against Commissioner Clane, remarks that he will likely be on hand when the contract for printing the ballots is let. Would it have the people infer that without Mr. Clane's presence it would have a better show on a competition for work. The contract for printing ballots for the February election was awarded to the PRESS yesterday, all the Commissioners being present, but it was because it bid lower than the DISPATCH, and not because of official favoritism. Notwithstanding the innuendo of our neighbor we don't believe any of them are in that business.

Frozen To Death

The protectors, persons appointed to make out lists of those to whom sales of liquor cannot be made, used up all their blanks in naming the drinkers at Branchville, N. J., and are awaiting a new supply. As one result Jacob Craven and his son who were listed went to Newton last Saturday where they filled up and on returning were put off the train because they had lost their tickets and had no money to pay fare. The father followed the track and got home but the son wandered off in the snow and was found frozen to death. A similar accident as to results, probably from the same cause, happened in this county in Lackawaxen township last Saturday when Warren McKean, who had been to Groesby with his team and started to go home, either fell from or was thrown off his sleigh into a snow bank where he was found doubled up, face downward dead. If, as reported, he was sold liquor until he was not in a condition to care for himself and was then allowed to go out in such a storm as raged last Saturday, the landlord who thus violated the law not only should be prosecuted but suit also should be brought against him for damages. It is bad enough for landlords to sell a man liquor until he becomes intoxicated, it is inhuman to allow him in that condition to go out in a storm or in very cold weather. But then would a landlord of that class have any humanity in his nature.

STRENGTH FOR TODAY IS ALL THAT WE NEED

Strength for today is all that we need; As there never will be a tomorrow; For tomorrow will prove but in the today With its measure of joy and sorrow.

Then why forecast the trials of life, With such sad and grave persistence; And watch and wait for a crowd of ills That as yet has no existence?

Strength for today—what a precious boon For the earnest souls who labor; For the willing hands that minister To the needy friend or neighbor.

Strength for today—that the weary bear's In the battle for right may quell not; And the eyes bedimmed with bitter tears In their search for light may fail not.

Strength for today, on the down hill track, For the travelers near the valley, That up, far up on the other side 'Ere long they may safely rally.

Strength for today, that our precious youth May happily shun temptation, And build from the rise to the set of the sun On a strong and sure foundation.

Strength for today, in house and home, To practice forbearance sweetly, To scatter kind words and loving deeds, Still trusting in God completely.

Strength for today is all that we need; As there never will be a tomorrow; For tomorrow will prove but another today With its measure of joy and sorrow.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any disease that it fails to cure. Send for list of testimonials. Address: F. J. In Jail For Arson

Pike County has another likely candidate for the penitentiary and it is not likely he will be black balled if the reports of his transgression are true. John Noel of Wisconsin, who has been employed as a saw filer in the mill at Shohola, was brought down here Monday on a commitment issued by Judge Z. Oliver charging him with setting fire to the saw mill at Shohola. He had been laid off and out of revenge and to make work sprinkled kerosene about the mill and applied a match to burn it down. The fire was discovered and extinguished and Noel was caught and instead of work may have free board for some time.

Makes Strong Healthy Children. A child needs nutritious food; not rich, heavy food, but something that the delicate little stomach can easily digest. Such a child can only thrive and grow when given proper food values in the right proportion. For building up delicate children there is nothing quite so good as Jossell's COD LIVER OIL EMULSION.

which is both a food and a medicine. It is a scientific emulsion of Norwegian Cod Liver Oil, pleasantly taken and children love it. Its body-building qualities are wonderful. If you have children who are "not strong"—especially those at school—do not fail to try this splendid remedy. If "run down" yourself it will make you feel like a new person within a week. Try it! Sold everywhere. Jossell's Emulsion. In large bottles, 75c.

One of the most vociferous charges that Mr. Bryan used to make against the Republican party during his campaign was that it did not treat the big thieves and the little thieves alike.

BIG THIEVES IN PRISON

This charge finds complete refutation in the fact that the Federal authorities have placed Millionaire Banker, John R. Walsh, of Chicago, in prison for five years for violating the Federal Banking laws. John R. Walsh is the wealthiest man that this Government has ever placed behind prison bars. Recently Mr. Morse, another wealthy New York Banker, was sentenced to serve and is now serving a 15 year term in the Federal prison at Atlanta, Ga.

President Taft, in his prosecution of these big malefactors of great wealth, is demonstrating that the law is being administered alike to the rich and the poor. This will furthermore be a great object lesson to those who are engaged in dark and shady enterprises.
