Simple 2: The world moves, but it doesn't speak English. Ptolony Philadelphus, the great old sport projetype of Lec pold of Belgium, is one of the rocks

pold of Belgium, is one of the roesa of ages in history for he founded the museum and library of Alexandria. He desired a copy of the Old Testament translated into Greek for his procloss library for he and the library were both Grook. This first Grock translation of the Old Testament is called the Septuagint. We can see from the Septuagint what sort of Greek was spoken over the ancient Greek world that Alexander built; very coarse and crude and mongrel and homely as compared with Attic Greek; full of local words to suit local needs and emergencies and business, as simple as Dor Latin was in Europe in the middle ages, and such as English will one day become when spelling and speech may be as simple and natural as the common

Taste is Localized.

man.

Taste is carjously localized in the nouth. Put a lump of sugar on the tip of your tongue and you will find it tasteless. All sweet or aromatic substances, such as wine, sugar and cof-fee, can be properly appreciated by the from built of the tongue, a piece of knowledge that every true connois-seur applies when he sips instead of taking a monthful. With most other substances, however, the reverse is true. In these cases the tip of the tongue serves only for touching—it is the back part that tastes. The sides of the mouth, too, are quite in-sensible to certain substances not tasteless. Put some sail or vinegar between the teeth and the cheek, and you will find thm absolutely flavor-
