The Legislature of Aguascalientes had given its vote to Gen. Almonte. A letter from Oajaca says that Santa Anna has been unanimously nominated for President by the Legislature of that State.

Gen. Valencia had reported having arrived at San Luis Potosi on the 5th June, where he took immediate command of the army. General Salas had also arrived there, and taken charge of his post.

It seems, from what we see in the Monitor of the 11th, that Santa Anna and Canalizo had the examination of the latter for his conduct York. The Belfast Journal says some of the let us turn a moment to our exchanges, and purpose of giving to our enemies a leader, was reported that he had been appointed Governor of the State of Vera Cruz, he was to be employed in the defence of the capital.

El Estandarte de los Chinacates, published at San Luis Potosi says that a large number guerrillas has been organized at Bocas, about twelve leagues from San Luis, and that they

were all well armed and equipped. Gen. Alvarez sent an express from Ameca the possession of a courier going from the capital to Puebla. The Government had called on the different persons sending letters in order that they should be opened and read, to show whether or not they dontained any information of which the Americans could avail themselves. El Republicano of the 11th, has accounts from Puebla, in which it is stated that the American forces would not move towards the capital before six weeks, (from the 10th June,) as they were awaiting reinforcements and heavy artillery from Vera Cruz. El Monitor, of the same date, publishes a letter in which the writer states that he has been informed that the whole forces will move towards the capital, in all from the 15th to the 20th, as

The Federal party is just now in the comfortable predicament of a man perfectly surrounded by a host of enemies, with no avenue of escape before him, and no hope for his life but in unconditional surrender. Notwithstandso look out for a large Shank majority from ing all the strategetic efforts of the leaders the party is almost without hope, or the pros pect of hope. Even the nomination of Gener al Taylor is to them a doubtful experiment without reference to his most equivocal politi-cal position. They/look around them in vain for the means of succor and defence, and like the drowning man who clutches at a straw, are too apt, in their fooiish desperation, to seize upon expedients which only serve to expose still-further their extremity, or to add still cise the right of suffrage at such place as may more to their irremediable difficulties. In this plight they look back mournfully upon the Past, and despairingly forward into the Future.

They have exhausted their treasonable ob jections to the war, and now they are alarmed not only at the denunciations they receive from the people at home, but also from the soldiers in our army abroad. They look terrified to see the hacked and battered warriors who triumphthat the captain or commanding officer of each scene of General Taylor's greatest glory-on that very field burning the proudest of the chiefs of Federalism in effigy, and responding to the attacks upon the President, and the Democratic party, "as the authors of the war," by the bitterest curses against the Federal leaders, and the most fearful progressications of their fast-coming retribution. And so, on the subject of the war, they are being gradually compelled to spike their guns.

The debt which was to pass upon the broad mountains, according to the Federal predictions, they see, with horror, reduced millions below their foolish estimates. Even on this subject the loud war of misrepresentation has already dwindled to the low whimper of insinuation and innendo.

We need hardly repeat what that sys quintessence of knavery and corruption-especially when in the hands of those in the slightest degree tainted with dishonesty—and by far too many know it by sad experience. Unlike individual or co-partnership enterprises, those institutions are created at first with comparatively a fictitious capital, and then added and superadded to this wrong is that of a complete exemption of the individual stock holders from a just liability to redeem the notes of the institution when it shall cease to be for their interests so to do. This is not theory of humbug but FACT. Let ten individuals unite their ten thousand dollars each in a co-partner ship business, no matter of what character let them throw out their promises-to-pay, or in other words, their notes, and if they exceed the capital, and the company becomes bank and what is further evidence in this case, then rupt, those individuals, severally as well as was but two or three Whigs" in Congres jointly, are holden to their creditors for every who did not vote for that resolution. We submit it to the public, therefore, to sy Scott and Gen. Taylor. Which is right?

"State Book of Pennsylvania"

We have recently been presented with a new work bearing the above title, by Hon. Tus. H. Burrowes, with the request that we etion which we have made we are well pleased with the work, and believe it to be a desider tum in the catalogue of Pennsylvania School Books. But as our opportunity of perusing it has been rather limited, we have thought that the following recommend from Gor. Here, then, the question arises, what can Shunk, who is known to be closely identified

lage have unanimously recommended the Book The question above, therefore is fully and to be used in all the schools under their lure
