

terday, they resolved to sustain and uphold? However deeply the democracy of this country may regret that Mr. Buchanan should differ with them, upon a question so momentous, as the preservation of free soil for the homes of freemen, there is nothing in their past history or conduct, to warrant the imputation, that they will surrender their deliberate opinions and principles, for those of any man, however exalted or respected. The democracy of Bradford have shown their devotion to principle on more occasions than one; nor is the "Wilmot Proviso" the first question upon which they have had the misfortune to differ with the Secretary of State. The tariff of '46, is a memorable example that the finest intellect may err, and the judgment of an honest people be correct. Single handed and alone, in Pennsylvania, did the indomitable democracy of this county and Congressional district, fight the battle of right against privilege—labor against monopoly, unsupported and unaided, save in the consciousness that their cause was just; and this democracy, is deliberately charged by the resolve of a Whig meeting, with the abandonment of a principle they hold dear as life, sacred as freedom itself.

The object of the Whigs, in their attack upon Mr. Buchanan, for the exercise of his undoubted right, and in their unfounded charges against the democratic party, is apparent and almost undisguised. It was prompted from no exclusive attachment for a principle, in favor of which, nineteen twentieths of the people of the North are united, but from a desire to obtain a party triumph, even at the expense of the principle they profess so zealously to uphold. Gov. Shunk, and the democracy of the North, must be denounced as opposed to the "Proviso," in the hope that some democrats might be misled, and induced to vote for the federal candidate James Irvin. We caution our democratic friends against the hypocrisy and deceit of the whigs in this respect. The sincerity of those men, who openly declare Henry Clay to be their candidate for the Presidency, may well be doubted, when they assail Francis R. Shunk, as being opposed to the "Wilmot Proviso." The principles of the "Proviso," are in no respect involved in the coming election. When the day does come, and it is close at hand, that the question is to be met—boldly, fearlessly met, we shall then see which party is the most ready to abandon it, and which the most steadfast in its support. When a voice from Aghlad shall declare to the faithful hostility to the "Wilmot Proviso," we shall then see which party submits its neck to the yoke.

The DEMOCRATIC REVIEW for September has been some days on our table, and merits an earlier notice. It is a number of great interest, being made up of several valuable articles, and decorated with a likeness of Hon. W. Woodworth, M. C. from New York. The Review is deserving of an extensive patronage. Price only \$3, (formerly it was \$5), a year.

THE HOME JOURNAL, of last Saturday, is a first-rate number. It contains part XII of Donkey & Son, beside a great many other good things. The JOURNAL has attained a high reputation, and merits the extensive patronage it receives. Published by Morris & Willis, No. 107 Fulton St. N. Y.

WISCONSIN.—The Federalists of Wisconsin have elected John R. Tweedy, Delegate to Congress over Strong Democrat. This result is not claimed as a political, but rather as a moral triumph, the popular Democratic majority in the District being about one thousand.

NOMINATED.—Gen. Calch Cushing, now in Mexico, has been nominated by the Democrats of Mass. for Governor. Geo. S. Catlin of Connecticut, has also been nominated by the Democrats for the same office.

The Democrats of Luzerne and Columbia, have nominated Col. V. Best, editor of the Danville Intelligencer, for the Senate. He will certainly succeed.

LIBERTY TICKET.—The following ticket selected by the Liberty Party has been politely handed in for publication:

FOR GOVERNOR,
F. JULIUS LEMOYNE,
of Washington Co.
FOR CANAL COMMISSIONER,
WILLIAM B. THOMAS,
of Philadelphia.
FOR SENATOR,
RALPH B. LITTLE,
of Montrose.
FOR REPRESENTATIVES,
JOHN MCKINNEY,
of Great Bend.
IRA KINNEY,
of Braintrim.
FOR COMMISSIONER,
SAMUEL BARD,
of Bridgewater.
FOR TREASURER,
ALFRED BALDWIN,
of Montrose.
FOR AUDITOR,
HIRAM ALLEN,
of Forest Lake.

The Mexican War.—The Union of Saturday night, in an editorial in relation to our recent triumphs in Mexico, thus forebodes the course our Government will probably pursue, should peace not take place from present negotiations:—

"We believe that our government and our people are alike unanimous in the opinion, that if our propositions of peace be now rejected, there is no longer room nor encouragement on our part for the policy of conciliation. We must offer the olive branch no longer.—The war must be resumed at once, and with new vigor. Its burdens must be thrown at once upon the conquered. We must levy contributions. Its pressure must be severely felt—and while we conduct our military operations with that strict and scrupulous regard to the laws of war which becomes a free Christian people, and which an American army can never forget, our enemy must yet be made to know that to him the continuance of war, which he elects, is only the continuance of calamity, and loss, and humiliation."

The administration of Joseph Ritner and Co. cost the people of Pennsylvania as follows:

Buckshot War,	\$147,000 00
Loss of State Stocks,	750,572 00
Big Break Huntington county,	381,000 00
Lightner's Star Chamber Report,	30,000 00
Gettysburg Tape Worm,	600,000 00
Sinnemahoning Extension,	160,000 00

Amounting in all to the sum of \$2,068,572 00. If from this sum, the \$125,000, for which the Repairs on the "Big Break" were offered to be made, and could have been made, is deducted from the \$381,000, you have the remaining sum of

\$1,932,452 28 Cents,
for not a single cent of which the government or the people received the benefit.—Easton Argus.

Federal Explanations.—The Federal papers are filled with explanations, documents, letters and certificates, to show that J. W. PARRON did not defraud his creditors out of \$22,000 when he took the benefit of the Bankrupt act, and that those creditors only lost by him about \$5,000. As to the amount of the loss, we regard that to be the smallest part of the matter. It is the principle which the Democracy object to, and hence they are determined to elect that honest old farmer of Montgomery county MORRIS LOVINGSWORTH, who did not require any certificates to sustain his character for honesty, integrity and patriotism.

JOHN A. DIX.—A New York paper, which advocated the nomination of Silas Wright till his decease, has raised to its mast head the name of John A. Dix as its next choice. "His sentiments, as held forth in his public speeches in that dignified assembly, are well known to this nation. On the Oregon question, he was the calm, firm, and unflinching advocate of our nation's rights; and in his subsequent speeches in that body, he was the warm and able supporter of popular rights.—He has ever been a man of the people."

THE RESULT.—Twenty-six of the twenty-nine States have voted for members of Congress, and the result briefly stated, is—Whigs 111, Democrats 100, Native I, vacancies 2. The vacancies (in Ohio and Michigan) will be filled by Democrats which will give the Democrats 102, Maryland, Mississippi and Louisiana, have yet to vote. Their delegations last Congress stood—Whigs 3, Democrats 11. If they should return the same this year, the parties in the House will stand—114 Whigs, 113 Democrats, 1 Native, (Mr. Levin, who will vote probably with the whigs on most questions.)

FORCE OF GEN. SCOTT, according to a Mexican account:

Brought by Scott to Puebla	Men
Volunteers arrived with Pillow	7,500
Do. do. Cadwalader	2,000
Do. do. Pierce	2,500
Total number arrived	14,000
Sick deserted &c.	1,500
Garrison left in Puebla	1,000-2,500

SANTA ANNA'S EXCUSE.—Santa Anna's account of the late battles and his defeat is, we think, not worth the room it would occupy in our paper. He says that some General whom he does not name, disobeyed orders, and thus instead of concentrating, he had to divide his troops, and was routed. He then touches upon the propriety of an armistice in the abstract and concludes by saying that if the present armistice does not result in peace the war can be renewed. He is still at the head of a respectable body of troops, and the nation will support him in maintaining his honor. At the same time, he threatens to punish factious and seditious opposition to the supreme authority.

ESCAPE FROM THE PENITENTIARY.—A McCarty made his escape from the penitentiary at Pittsburg, on Saturday, by getting from the tower to the wall, with a rope made of pieces of sticks tied to strips of sheets. The Chronicle says:—McCarty is a cute rascal—a couple of years since, he walked out of the court house at Greensburg, while on trial, stole a horse and escaped. He got out of the Meadville jail shortly before, by pulling the jailer's wife into his cell, taking the keys from her and locking her in.

While in jail here, sheriff Trovillo found it impossible to keep iron upon him, and now he has escaped from the ever watchful vigilance of Maj. Beckham. McCarty is a travelling juggler, and seems very successful at tricks of kinds.

Beware of Counterfeits.—There are in this city, counterfeit notes on the Merchants' and Manufacturers' Bank of Pittsburg. They are tolerably good imitations but the engraving is rather coarse, and the dotting in the circle enclosing the figure 5, is irregular. In the genuine it is exactly regular, being machine made. The notes we have seen are 5's, signed A. payable to S. Henore, or bearer, letter T. Scott, President, and William H. Denny, Cashier, dated March 1, 1845. The signature of Mr. Denny is rather coarsely done, and the word Pittsburg is lighter than in the genuine.—Phila. Ledger.

HORRIBLE.—The negro boy who murdered his master near Flemingsburg, Kentucky, was executed at that place, according to law. The Flag says there was an immense crowd of the people present, who pressed forward to the gallows amidst laughing, jeers, and awful oaths. "After the execution, drunkenness and fighting became the order of the day, and before the corpse was cold, trials for fighting were being held in the court-house."

THE DIFFERENCE.—The President of the United States is allowed a salary of \$25,000 a year. The Queen of England has for private pay \$300,000; household expenses \$262,500; salaries of household \$656,300; royal bounties \$5,000; pensions \$6000, and some other matters, which make up an aggregate of \$1,725,000; which is a pretty good price to pay for the services of an amiable personage.

VICE PRESIDENT DALLAS.—Vice President Dallas has been making a visit to the Western part of this State, and every where he received the hearty greeting from his friends that his high position and eminent talents so justly entitle him to. In Allegheny, Westmoreland and Fayette counties, the Democracy turned out in great numbers, and gave him such a greeting as Democratic Statesmen may well be proud of.—Dem. Union.

From the Brazos.—General Marshall, at Monterey, has been ordered to proceed to Vera Cruz without delay. Colonel Tibbatts, on his way from Monterey, with six companies of infantry, escorting a train, was attacked near Ramos by a large body of Mexicans, but succeeded in beating them off. General Urrea continues his operations.—He has issued a manifesto to the American soldiers, urging them to leave their camp, and throw themselves into the arms of Mexico who has never injured them.

The thirty in the North Carolina regiment has been effectually quelled, and the regiment has been ordered to the rear. Reports of threatened aggressive movements by Urrea had induced General Wood to adopt rigid precautionary measures.

HUMILITY IN THE USE OF ROUGE.—We found, the other day, in an old and rare book we were turning over, a mention of the first use of rouge, which, by this account, seems to have been somewhat perverted from its original purpose. It was worn by the Roman Generals in their triumphs, that they might seem to blush continually at their own praises."

LUCIFER MATCHES.—One of our exchanges tells a long story about an emigrant to this country who made a large fortune in a short time by making lucifer matches. This is nothing. We have heard of scores of young men who have made fortunes by making Lucifer matches—at least they were such matches, we are certain, as are not "made in Heaven."

YANKEE PLOUGH.—An American merchant, at the Cape of Good Hope, has, within twelve years, sold one hundred thousand Yankee ploughs, chiefly to the Dutch, for the use of their vineyards.

THE COAL TRADE.—The amount of coal carried through the Delaware and Baritan Canal, from the opening this year to the 1st September, exceeds that of last year by 142,692 tons. Ruin, Ruin!

The Hon. Richard H. Wilde, formerly a member of Congress and a distinguished poet, scholar and jurist, died on the 9th inst. of yellow fever at New Orleans, where he had recently taken up his residence.

"The Whigs are sound on all great national questions."—Springfield Gazette. Yes—"all sound"—Like a Chinese gong—and no substance.—New Haven Register.

SILAS WRIGHT.—Gov. Wright's friends have had a county convention, at Canton, at which they resolved to erect a monument over his grave.

We see it announced that a new anti-slavery paper, called "The Crisis," is about to be published at Moundsville, Western Virginia.

EASIER TO DO THAN SAY.—Most things are easier to say than do, but the Mexican word for kiss is *fennanquilizitis*.

It is said words hurt nobody; nevertheless, Sampson *jaired* a thousand Philistines to death.

There is a boy out West who is so bright that his father uses him as a looking-glass to behave by.

Love is like a diamond with a flaw in it; it is precious but imperfect.

The Yellow Fever, by the last accounts, was abating in New Orleans, but had broken out at Vicksburg.

It is stated that the late Mr. Wright leaves property to the amount of only \$10,000.

There are 27,000 Daughters of Temperance in the United States.

New York Markets.—Wheat Flour is selling at from \$5.66 to \$5.75. What is worth \$1.10 a \$1.25. Corn, 65 a 68 cts. Rye, 85 cts. Oats, 48 a 50 cts. Butter is worth by the firkin, 16 and 17 cts; fresh 22 to 25 cts. Beef, at the usual moderate rates.

Who are quacks. The administrator of a college? the professor of the Water cure?—the disciple of the great Hahnemann who administers his minute doses, and wonders at the non-benefit of the million? The student of the Botanical doctor? the mesmerist? the ten thousand inventors of Patent Pills, all of which is one true system? We pause for reply. Out courts of Justice show the blinding, bleeding, choleraic faculty often arraigned for manslaughter; but like a band of brothers they swear all other trials in all other medicines had proved, before they took to the Water cure. The Water cure has men like E. L. Butler to prove its powerful medicinal agency, over all other remedies. The only true system says—oh, no, it is steam bath says a most respectable group, which can reply upon, it cured us when all else failed.—hold! says another party, botanical doctor has proved itself the only safe and reliable means of cure, we have been through all your systems and they all failed; botanical treatment cured us.—A loud cry was heard from millions of voices.—Vaughn's Vegetable Lithon. triple Mixture, the Great American Remedy, after all other trials in all other medicines had proved, before they took to the Water cure. So we read, and the agent of medicine in this place will give you a pamphlet, look into it. Dr. C. Vaughn's Lithontriptic pills at a rate of many thousands per year.

CURES! CURES! CURES! are constantly being performed by Dr. Jayne's Family Medicines.—Mrs. Sabers, wife of Capt. John Dunham, No. 6 Galbraith's Court, Philadelphia, had a very bad cough, soreness of the breast, and sore throat, obstinate habit, loss of spirits, with weakness and pain in the small of the back. Spitting of blood and liver complaint has been entirely cured by using Dr. Jayne's Sensitive Pills. Alterative and Expectant.

[From the Great Falls, (N. H.) Northern Light.] "It is with pleasure that we give place to the following letter from Mr. J. H. Hockins, of Tamworth who was opposed to the past cure of Consumption, but was restored to health by the use of 'Dr. Jayne's Expectant.' We can speak with confidence of this medicine, as we know of many of our friends who have been greatly benefited by it. Ed. Tamworth, N. H., Dec. 10, 1845.

Dear Sir:—I have the honor to make known to you, for the benefit of the public, that I received from the use of a bottle of Dr. Jayne's Expectant, which I purchased of you. I had been sick between five and six months, caused by the lung fever, which left me in a very low state of health, with a very bad cough, and for about three months I could hardly speak in a whisper. My friends all thought me to be in a decline. My physician said he had done all for me he could. About this time I fortunately saw advertised in the papers, 'Dr. Jayne's Expectant' for sale by you. I immediately sent to you for a bottle, and in two days after using I began to feel better. I continued to use it until I recovered my voice and could speak tolerably well, and before using the whole bottle I was nearly as well as ever. My health is now good. I attribute my cure wholly to Dr. Jayne's medicine. To Mark Noble Esq., Great Falls, N. H. Prescribed only by Dr. D. H. Philadelphia, and sold as agents by N. Mitchell & Co. druggists, New York, Pa.

HYER'S PILLS. The American Improved Hygienic Vegetable Medicine. THESE Pills are one of the best Medical Compounds in use at the present day.—As a common family physic, for administration in all temporary complaints of the stomach and bowels; head-ache, colds, &c., they may be fully depended upon, and a prompt use of them on the first appearance of indisposition will invariably save much sickness. They are especially adapted to all cases of weakness and general debility.—any derangement of the system, and especially with females.—and a steady, uninterrupted use of them, in strict conformity with the directions will very soon restore the organs of the stomach to their natural tone and action, and regulate the bowels, and renovate the whole system.

There is no disposition to give extravagant commendations of them. What is here stated, is the result of actual experience with them, and that through a period of fifteen years. It is not supposed, or pretended, that they will raise the dead; neither are they designed to be used as freely as we use our own! Such is the true purpose of medicine. Its only appropriate office is to assist nature in restoring the system to a proper tone and action, when unavoidably, or through carelessness or excess, it becomes deranged. Many are careless, and liable to irregularities of the system: it is needless almost to say, that a prompt use of safe and effective remedies, in the first appearance of illness, is the part of wisdom. It is a Medicine the Proprietor knows these Pills to be. And he is certain that in forty nine cases out of fifty, where a fair trial is made according to the directions, they will be used again as a standard medicine. He has never known an instance, where they have been thus used, in which they have not met with unequalled success.

Numerous testimonials may be seen at the General Office of sale, and references will be given to substantial living witnesses of their valuable curative properties. The Pills are purely vegetable; are of two kinds, stimulant and purgative, purifying the blood, and producing a healthy action through the entire system; are a valuable Anti-Bilious Medicine, and eminently useful in all lingering complaints—Weakness, General Debility, Dyspepsia, Pulmonary Affections, Liver Complaints, Rheumatic and Spasmodic Affections, Female Complaints, Palpitations, &c. No Family, after a fair trial, will be without them.

They are put up in FIFTY CENT and DOLLAR PACKAGES, each having a pamphlet embracing a valuable Treatise on Disease, with full directions for use. The Dollar packages are the cheapest to the purchaser. They may be ordered through Druggists, giving the Street and No. of the General Depot.

Sold, Wholesale and Retail, at No. 140 Fulton street, Second Floor, N. Y., Between Nassau-street and Broadway.

As you value Health—Try them! Agents: BENTLEY & READ, Montrose, E. TITMAY, Brooklyn, H. GIBBS, Orwell, Bradford county, and R. C. TRIVETT, Binghamton.
