NEW POWER LOOM .- Mr. P. Collins, of Cabotville, Mass., has invented an improved power loom, which a correspondent informs us, "is the most perfect and simple loom that be ever saw." When he saw it in operation, it was weaving cloth one yard wide driven by a cams nor treadles," and makes the same quality of cloth at any degree of speed. It rups at one hundred and forty picks per minute and quality of weft in other looms. "The shut-tle," our correspondent adds, " will not threw

A DEACON'S INVENTION .- A curious invention to prevent sleeping, in church has been brought out. It is a long squirt fixed on the deacon's scat, under the pulpit. It turns on a pivot, and being filled with cold water it can be aimed at an individual in any part of the house. One of the audience being discovered asleep, the deacon discharges a stream of cold water in his face, which has, thus far, never failed of waking up the sleeper. Much credit is due to the gentleman who planned this ingenious de-

but subsequently the sufferer was supposed to die, from what cause does not appear.
