The Foreign news which we print today will be found of rather more than ordinary interest. The intelligence of renewed outbreaks in France is by some doubted, but we think it is as likely to be true as otherwise.

GOV. SHUNK's health, as near as we can learn, is quite precatious, and it is generally be- ter. We speak advisedly. heved that he will hardly survive the summer. It is rumored that he would probably resign his office previous to the 10th inst., so that a successor could be elected in October.
