

KIDNAPER SENTENCED.—Thomas Finigan, who was convicted at the August term of the Adams county court, on the charge of kidnapping a family of free colored persons from that county, was sentenced to one year, by the court, sitting at Gettysburg, after a refusal to grant a new trial, to five years solitary confinement at hard labor in the Eastern Penitentiary.

SCIENTIFIC LECTURES.—Doct. R. LEONARD is delivering a course of evening lectures on Anatomy and Physiology, at the Court-house, in this Borough, commencing on Tuesday evening last. The subject is one of very deep moment, and one with which every person should more or less be acquainted. The Dr. appears to be thoroughly conversant with the subject of which he treats, and, with the aid of a very ingenious piece of mechanism, a perfect model of the human frame, explains the anatomical structure and mechanical functions of the human body.

THE POWDER MILLS belonging to Mr. Beatty, about 8 miles from Baltimore, on the Susquehanna Railroad, was blown up, with a terrific explosion, on the morning of the 23d ult. Five men were blown to atoms, and three large buildings belonging to the establishment, which stood 70 feet apart, were scattered over a space of ten acres. The quantity of Powder in the mill exceeded two tons. In every direction from the mill, for the distance of a mile and a half, all the buildings were injured more or less.

"A New Man"—One Term.

A few of the presses, which, with more apparent zeal for the advancement of an individual, than the success of party, have advocated the re-nomination of Gov. Shunk, are careful to conceal from their readers the important fact, that, so far as there has been an expression of opinion on the subject, the opposition to so suicidal a course is at least as strong in numbers as its advocates. This is shown to be true by the proceedings of Democratic meetings and the opinions of the press, which we have from time to time published, but which are denied even a passing notice in those journals which evince a determination rather to sink the party by a nomination of the present Executive than to succeed by the selection of a new candidate.

The following proceedings of the Democratic Committee of Superintendence of the city and county of Philadelphia, we copy from the *Pennsylvanian*:—
DEMOCRATIC COMMITTEE OF SUPERINTENDENCE.—At a meeting of the Democratic Committee of Superintendence of the City of Philadelphia, at the Eagle Hotel, Chestnut street, on Thursday evening, November 19th, 1846, FRANCIS COOPER, Esq., was called to the Chair, in the absence of the President.

The following resolutions were unanimously adopted and ordered to be published, to wit:

Resolved, That the diminished vote in this state and New York is the principal cause of the Whig success; and we believe the Democracy of each of these States to constitute a decided majority, by whom the principles of the Democratic party and its ascendancy will, at the next election, be triumphantly maintained.

Resolved, That to obtain success we must devote to close and scrupulous devotion to principles and not to men; and that the candidates of the party ought to be such as are known to be firm and energetic in the advancement of Democratic doctrine, and can command the approval and support of the entire party.

Resolved, That we recognize "Rotation in Office" as an essential principle of the Democracy; that officers belong to the whole people and should be constantly distributed among those entitled by political and personal merit to receive such honors; long terms of service and constant re-elections are unsuited to the Democratic institutions, whose objects are to promote the greatest good of the greatest number.

[Communicated for the People's Advocate.]
New York, Nov. 10, 1846.

Gentlemen: In consequence of frequent applications made to our friends, to become agents for different Insurance Companies, such as Marine, Fire, Life, and Inland Navigation, some of which applications purport to come from respectable Insurance Companies of this city, we have deemed it our duty to say to you, and through you to your friends, that from recent developments there are those who do not possess the confidence of the public.

Should you, or any of your friends, be applied to, to become agent for any Insurance Company located in this city, we will take pleasure, on application from you, to report to you such facts as to their standing, capital, and respectability, as may be proper subjects of inquiry; wishing thereby, to protect the interior from what we deem a system of imposition, which seems to be of modern origin, and is practiced to a great extent in our country.

Feeling a desire to serve you in this, or in any other way that may promote your interest, and that of the community in which you reside,

We are yours respectfully,
WOODWARD & DEWEENBERY,
45 William-Street.

We are satisfied from the standing and facilities of the above firm, that they have in their power to be of great service to their friends in the manner above mentioned.
Elias G. Drake, President Trust Fire Ins. Co.
Lambert Suydam, President of the Equitable Ins. Co.
J. W. Savage, President National Fire Ins. Co.

R. A. Reading, President of the City Fire Ins. Co. of the City of New-York.
Jno. Brewer, President East River Mutual Insurance Co.
Jas. D. P. Ogden, President Nautilus Mutual Life Ins. Co.
A. M. Merchant, V. President of the Alliance Mutual Ins. Co.
Chas. Town, President of the "Etna Fire Ins. Co. of New-York."
T. W. Thorne, President of Jefferson Ins. Co.
N. G. Rutgers, President of the General Mutual Ins. Co.
T. B. Satterthwaite, Assistant President New York Insurance Co.
A. B. Nelson, President Sun Mutual Ins. Co.
Walter R. Jones, President of the Atlantic Mutual Ins. Co.

IMPROVED CARRIAGE AND WAGON WHEELS.—Mr. C. P. Connolly, residing in the western part of the State of New York, has just had patented an improved wheel for carriages and waggon, which from its advantages over the wooden wheels now in use, will entirely supersede them. Mr. C.'s wheel is entirely of iron, so constructed that the spokes are inserted through holes in the shell of the hub and fitted into the rim of the wheel. A screw inserted in the shell of the hub keeps the spokes in their places. The spokes are attached to the hub in such a manner that if the rim should break the wheel can not come apart, each spoke binding it with the same degree of force. The advantages of Mr. C.'s wheel is that it is 25 per cent cheaper and lighter than wooden wheels, much stronger in its material and construction, and more easily repaired.—The invention has received the approbation of very scientific mechanics who pronounce it superior to any other kind of wheel now in use.

THE SOMNIFIC GAS.—On Thursday a railroad accident occurred at Wenhams, Mass., by which a young Irish girl was so much injured as to render necessary the amputation of an arm. The *Salem Register* states that

"The operation was performed by Dr. Fisk, who administered to the sufferer, with perfect success, the new preparation made known by Dr. Charles T. Jackson and Dr. Morton, Dentist of Boston, the inhalation of which produces insensibility to the pain of surgical operations. The unconsciousness of the girl continued undisturbed until near the close of the dressing, when she simply acquired what they were doing, but with another inhalation, immediately relapsed into insensibility, and, upon coming to herself, supposed she had been dreaming."

GROWTH OF THE FREE STATES AND OF THE WEST.—A recent calculation as to the political strength of the free and slave States, gives the following results: The total vote in the Union for President in 1844, was about, in round numbers, 2,700,000
The vote of the free States was 1,900,000
The vote of the slave States was 800,000

Majority free States' vote 1,100,000
The striking fact here is, that the majority in the free States exceed the whole vote in the States not free.
The electoral vote of the free States was 161
Slave States 114

Majority of voters in free States 47

FRAUD IN SUGAR.—It is stated that a large portion of the white sugar in the market has a large admixture of *flowed marble* in it—any two or three ounces to the pound.

Gen. Scott took passage in the South-america for Charleston, S. C. on Friday last, on his way to join the army in the south.

COSTUME OF FORMER TIMES.
When Gov. Bowdoin reviewed the troops of Massachusetts, in 1785, he was dressed in a grey wig, cocked hat, a white broad-cloth coat and waistcoat, red small clothes and black silk stockings.

In 1792, Gov. Hancock received his guests in a red velvet cap, within which was one of fine linnen, turned up over the edge of the velvet one, two or three inches. He wore a blue damask gown, lined with silk, a white satin embroidered waistcoat, black satin small clothes, white silk stockings and red morocco slippers.

The Judges of the Supreme Court of Massachusetts, as late as 1793, wore robes of scarlet, faced with black velvet; and in summer, black silk gowns. Gentlemen wore coats of every variety of color, generally the coat and collar of velvet of a different color from the coat.

1783, Gen. Washington arrived in New York from Mt. Vernon, to assume the duties of the Presidency. He was dressed in a full suit of Virginia homespun. On his visit to New England soon after, he wore the old Continental uniform, except on Sabbaths, when he appeared in black.

John Adams, when Vice President, wore a sword, and walked the streets with his hat under his arm.
At his levees in Philadelphia, President Washington was clad in black velvet, his hair was powdered, and gathered behind in a silk bag; yellow gloves, knee and shoe buckles; he held in his hand a cocked hat ornamented with a cockade, fringed about an inch deep, with black feathers; a long sword in a white leather scabbard, with a polished steel hilt hung at his hip.

Never accuse another without positive proof.

FLOUR FOR ALGERS.—The New Orleans Bulletin says:—"Among the sales of flour yesterday, were upwards of two thousand barrels destined for direct shipment to Algiers."

"I weeded my friends," said an old eccentric man, "by hanging a piece of stair carpet out of my first floor window, with a broken announcement affixed. God! it had the desired effect. I soon saw who were my friends. It was like firing a gun near a pigeon house; they all forsook the building at the first report, and I have had no occasion to use the extra flaps of my dining table since."

Later from Mexico.
Telegraphed for the N. Y. Sun.
Another Revolution.—Probable Interference of England.—Surrender of Tampico.

WASHINGTON, Nov. 28, 1846.
I learn that important despatches have this day been received from our squadron in the Gulf of Mexico. The Mexican administration is dissolved, and Almonte is going to England. Santa Anna has been compelled to refund the two millions of dollars which he recently stole from a conducta.—The English Minister in Mexico, Mr. Bankhead, probably interfered with the course of Santa Anna. Mexico is in a bad condition. The following intelligence by telegraph is from the New Orleans papers of the 21st inst.—The U. S. steamer Mississippi arrived at the S. W. pass on the 20th, and immediately forwarded the news up to the city of the capture of Tampico on the 14th inst. by the U. S. squadron. The fleet sailed under Com. Conner on the 11th and 12th, and on the 14th Com. Perry crossed the bar with the Spitfire, Vixen, Petrel, Bonita, and Keeler, having received reinforcements from the Cumberland, Mississippi, Princeton and St. Marys. There was no opposition made to the army by the Mexicans, and the town was surrendered to our forces unconditionally, the garrison having been previously withdrawn. The Mississippi sailed immediately for the Balize, for troops to garrison the city. She touched at the Brazos, and despatched a lieutenant to Gen. Patterson's camp to obtain troops for the garrison. A force would also be immediately despatched from New Orleans. Tampico is now possession of the marines and sailors of the fleet.

ENERGETIC WAR MOVEMENTS.
Advices from Havana to the 13th inst., received at New Orleans, states that nothing has yet been done under the letters of marque and naturalization which Mexico has sent there for sale. The U. S. steamer Mississippi, Commodore Perry, left New Orleans on the 21st, with a detachment of 50 men and the guns and munitions of war belonging to the State of Louisiana, tendered for the use of the United States by Governor Johnson. General Brooke is prepared to take the responsibility of despatching to Tampico any amount of troops that may be deemed necessary for its defence, and Gen. Jessup is furthering this important object with alacrity, in his department. About 600 men will soon have been sent from New Orleans to guard the captured city.

Death of Cap. Ridgely.
The late advices from Monterey brought the melancholy intelligence of the death of the gallant Capt. Ridgely, of the artillery. On the 25th ult., whilst riding into town, his horse slipped on the smooth pavement, and threw him with such violence against a rock as to produce concussion of the brain, which terminated his existence.

DEATH OF REV. MR. ARMSTRONG.—This gentleman has been for several years the Secretary of the American board of Commissioners for Foreign Missions, and has been a most faithful and zealous servant in its cause. He recently went to Boston with a view of seeing off and bidding farewell to the missionaries who sailed a few days since from that port. He was on his return to New York, and perished in the ill-fated wreck of the Atlantic. He is very generally regretted.

LECTURES.
C. C. BURLEIGH, Esq., of Philadelphia, Providence permitting, will spend some eight or ten days in this County, lecturing on the subjects of Intemperance and Slavery. He will be at the times and places as follows: Springville, at the Presbyterian Meeting-house, Wednesday Dec. 2d, at 2 o'clock P. M., and at Dimock Corners, in the evening of the same day.
Montrose, Thursday and Saturday evenings, Dec. 3d and 5th.
Friendville, Friday, at 2 o'clock P. M., Dec. 4th, and at Forest Lake, in the evening of the same day.
Great Bend, Tuesday, 2 o'clock P. M., Dec. 8, and Liberty, evening of the same day.
Brooklin Centre, Thursday, 1 o'clock P. M., Dec. 10, and at Harford village, evening of the same day.

Possibly other notices may be given. It is desired that the friends in the several places named, will make the necessary arrangements for the meetings. Let the lovers of truth, eloquence, and logical reasoning, be sure to rally out to the meetings. They will hear one of the ablest speakers in the United States, by so doing. A. L. P.

A CURE FOR THE PILES.
Box, N. Y. April 1st, 1845.
Dr. Smith:—No man ever suffered more severely with the Piles than myself—I have made use of many kinds of medicines for this troublesome complaint, but found no relief until I used your Improved Indian Vegetable Sugar Coated Pills, and four boxes effected a complete cure. I can recommend them in all such cases.

WM. LANPHEAR.
It is a fact not universally known, that the ingredients in many pills in common use act with too much force upon the liver and coats of the stomach, and by their drastic qualities very frequently produce the Piles. Not so with Dr. Smith's Pills.—They will cure this distressing complaint in every instance.
Office 179 Greenwich street, (large brick block.)
P. S. Always ask for the Improved Indian Vegetable Pills.
P. S. And see that G. Benj. Smith is written with a pen on the bottom of the box.
Agents—N. Mitchell & Co., and J. E. Hildridge, Montrose.

COLDS, COUGHS, CONSUMPTION, &c.—It should be remembered that a cough is always an evidence that some impurity is lodged in the lungs, which, if not speedily removed, will so irritate those delicate organs as to produce inflammation of the lungs, a disease which we all know is the high road to consumption.
Wright's Indian Vegetable Pills are a safe, easy, and certain cure for colds and coughs, because they carry off by the stomach and bowels, those morbid humors which, if deposited upon the lungs, are the cause of the above dangerous complaints. A single twenty-five cent box of said Indian Vegetable Pills is generally sufficient to make a perfect cure of the most obstinate cold; and at the same time the digestion is improved, and the blood so completely purified, that new life and vigor are given to the whole frame.

Remember, the only original and genuine Indian Vegetable Pills have the written signature of Wm. Wright on the top label of each box.
Agents for the sale of Wright's Indian Vegetable Pills in Montrose, Mills & Sherman. For other agencies see advertisement in another column.

FARM FOR SALE.
A GREAT BARGAIN.
THE subscribers wishing to dispose of their real estate, offer for sale their farm whereon they now reside, pleasantly situated in Dimock township, Susquehanna co. Pa., containing one hundred and twenty-five acres of first rate land; suitably divided into plough, meadow and woodland, and in a very good state of cultivation.

There are on the premises a framed dwelling house, a good framed barn; wagon house and other out buildings—also, a fine bearing orchard, with never failing springs and streams of water. Title indisputable, and possession given on the first of April next. For further particulars, and for a view of the property inquire of the subscribers on the premises.
EZEKIEL BEDELL & SON.
Dimock, Dec. 1, 1846. 25-4w

MILLS & SHERMAN.
Montrose, Nov. 4, 1846.

IT has been currently reported, and through the country, and is the declared opinion of hundreds, that in point of variety and quality, the supply of HATS and CAPS, at Merrill & Son's Hat and Cap Store on the West side of the Public Avenue in Montrose, exceeds anything of the kind ever exposed for sale in this region of country. Reader, do you discredit the rumor? Remember the Poet's admonition:
Our doubts are traitors,
And make us lose the good we oft might win;
Remember that.
