

Let us learn Wisdom from the Past.

A crisis has arrived in the political affairs of the country, which should cause every patriot to survey the prospects of the future.

The causes which have produced the sad result which we have seen are many and complicated. Some of them are the natural result of long years of triumph—of an apparent secure lodgment in power.

There are those who will yet have to learn this great truth, that the democratic party was not established for the benefit or advancement of any man or set of men—that its organization was for higher purposes than the filling of offices, and the distribution of their spoils—that it was instituted to preserve republican institutions from the threatened encroachments of monarchical sentiments—the protection of popular rights from the insidious wiles of their ever watchful foes—and to secure to all, political, civil, religious and personal rights, equally, and in their highest purity and most enlarged independence.

In our own state, at all events, the cause of the late result is too apparent to admit of a doubt. High party leaders at Washington permitted the Tariff of '42 to remain as it was, Pennsylvania would have remained as she was. And we are inclined to the belief, that the same cause has had its due effect in all the states north of Mason & Dixon's line, where the Whigs have been victorious.

We revert to this not to harrow up the feelings of discord which have well nigh wrought our destruction, but rather that we may learn wisdom from the past, and that we may in the future at once avoid the cause and its consequences.

STEAMBOATS ON THE SCHUYLKILL CANAL.—Our readers will recollect, that during the past summer the Schuylkill Canal has been enlarged and rebuilt.

On Monday last the little Iron Steamboat "Pilot," belonging to our enterprising townsman, Capt. J. Downey, arrived at Pottsville, direct from New York, with a full cargo of Merchandise.

During the past summer Capt. Downey, with a truly liberal spirit, purchased two Iron Steamboats, neatly fitted with Cabins for the accommodation of Passengers, and situated in point of size to the Schuylkill Canal, with the view of establishing a regular daily line for the transportation of Passengers and light freight, between this town and Philadelphia.

The firing from a musket barrel, suspended on the ballistic pendulum, proved that sixty grains of well prepared cotton were equal to one hundred grains of the very best powder. The residuum after the discharge was very inconsiderable. After eight discharges from the same gun, there was scarcely any perceptible heat.

Final design, by running his boats regularly on the Canal, during the next year.

FRANCIS DODD.—This colored man, a fugitive slave from the south, has made some warm friends in England. They have raised the sum of \$750, which has been brought to this country by the "Acadia," to be sent to his former master, that he may not be forcibly taken back to bondage by the slaveholders.

[COMMUNICATED.]

WOODBOURNE, Pa. 12th mo. 1, 1846.

My dear friends, publishers of the four weekly papers of Montrose, and all other editors of the United States, please insert the following petition, and supply the intelligent of every district within your respective counties, with printed copies or manuscript, as others will please transcribe the same, that millions, if they please, of all sects and parties, may soon forward their names to Congress in behalf of peace, that "Nation shall not lift up sword against Nation, neither shall they learn war any more."

To the Senate and House of Representatives of the United States, in Congress assembled:

The Petition of the subscribers, inhabitants of the United States, respectfully sheweth:

That your Petitioners are deeply impressed with the evils and miseries attendant on War, and more especially in relation to that now existing between our beloved and heretofore highly favored country of peace with all the world, and prosperity within our borders, and distracted Mexico, requiring with ourselves and all other nations, the endearing toleration and civilization of christianity mutually bestowed upon each other, instead of the savage and arbitrary barbarity of the darker ages, "with garments roll'd in blood."

Thus we feel constrained to implore your Honorable bodies to devise some speedy and efficient means, thro' mercy, that its demoralizing effects, and torturing effusion of human blood, to the loss of millions and millions of money, and many a human life of talent, worth and vigor, may soon be stayed, and the blessings of those ready to perch rest upon you.

Temperance Convention.

At a meeting of the Committee, appointed at the Convention of November 16th, '45, to make arrangements for a general Mass Convention, to be held the 2d Tuesday of January, '46, B. S. BENTLEY, Chairman, and I. L. Post, Sec'y.

On motion, Resolved, That Geo. Fuller, Esq., B. S. Bentley, Esq., and I. L. Post, be a Committee to draft a Circular for general distribution in the County.

Resolved, That F. B. Chandler and I. L. Post be a Committee, to ascertain the best place for holding said Convention.

Resolved, That T. P. St. John, I. L. Post and F. B. Chandler be a Committee on Music.

Resolved, That G. A. Grow, Esq., be requested to deliver an address on the occasion.

Resolved, That Wm. J. Mulford, R. J. Niven and M. C. Tyler be a Committee to provide accommodations for visiting friends.

Resolved, That A. Chamberlain and W. J. Turrell, Esqrs. be a Committee to draft a set of Resolutions, to be presented to this Committee at their next meeting.

Adjourned, to meet at the call of the Chairman. B. S. BENTLEY, Ch'n. I. L. Post, Sec'y. Montrose, 9th Dec. 1846.

TRADE WITH MEXICO.—The taking of Matamoros opened a considerable trade, and that town has assumed twice the consequence it ever had under Mexican rule.—The New Orleans Bulletin suggests that the capture of Tampico affords an opportunity for a large and profitable trade to the merchants of the United States, and expresses a hope that the Government will open the port, and others that may come into our possession, on terms of liberality.

MODERN PROGRESS.—The newspapers in Buffalo head their news with the following announcement: "Received by Lightning, printed by steam." Speaking of the progress in the electro-magnetism, etc., Punch thinks that thunderbolts will be made so common that timid people may fasten their bedroom doors with them.

Further Experiments with the Gun Cotton.

A series of experiments were made at the arsenal, in this city, yesterday, in the presence of several gentlemen, under the auspices of that scientific officer, Captain Alfred Mordecai, who has devoted much attention to the subject and written a work on gunpowder and projectiles.

We were highly satisfied at these experiments, made by the ordinance officers at the arsenal. The gun-cotton was tested fully as to its projectile force for small arms, and partially for cannon.

The firing from a musket barrel, suspended on the ballistic pendulum, proved that sixty grains of well prepared cotton were equal to one hundred grains of the very best powder. The residuum after the discharge was very inconsiderable. After eight discharges from the same gun, there was scarcely any perceptible heat.

With the twenty-four pounder, one pound of gun-cotton was nearly as strong as three of ordinary powder; but it did not keep in this proportion. As the charge was increased, two pounds of cotton was about equal to four pounds of powder.

A shell which required several pounds to burst it, was filled with less than two ounces of the cotton, and upon being discharged it exploded most beautifully.

But we hope to have the pleasure of laying Capt. Mordecai's official report before our readers.—Washington Union.

The Robbery of the Santa Fe Trains.

The St. Louis papers contain further particulars of the robbery of the United States trains by the Indians.

"The robbery took place near the pass of the Arkansas. There were thirty wagons and one hundred and sixty mules in the train, and they were accompanied by forty men. The wagons were filled with clothing and hospital stores, commissary's stores, sugar, coffee, &c. They took possession of every thing, except the wagons, and made off with the property. This outrage was committed by a party of Pawnee Indians, and little opposition was made by our men, as they were without ammunition.

The St. Louis Era says the Indians cut open and scattered about three hundred sacks of flour to the four winds of heaven. The prairie, for miles around the spot where the robbery was committed, is said to have been as white as if covered with snow. The villainous rascals, immediately on getting possession of the wagons, set to work powdering themselves, and the color of their yellow skin was soon turned to one of snowy whiteness. "The sport of snow-balling each other with hands full of flour they enjoyed to a great degree; and after taking the most of the frolic, they bedecked themselves out in the sacks, and in this garb returned to Fort Leavenworth, on the plain, two or three days after the robbery. One fellow had modelled his sack into a turban, and the brand U. S. was immediately in front. The letters were quite unintelligible to them, but nevertheless they seemed to prize them highly, as in all the breech clothes made of them the U. S. was contrived to be preserved in front. They carried off all the arms and clothing belonging to the train, and about fifty head of mules."

THE HANCOCK EXPEDITION.—Several gentlemen who accompanied Gov. Ford to Hancock, from this place, have returned home, from whom we learn that the posse have been disbanded. A military police, composed of seventy men, who volunteered for the service, will remain at Nauvoo, under the command of Major Jackson, of McDonough county. We understand that it is the intention of Gov. Ford to keep his forces at Nauvoo until he is satisfied that there is no further disposition on the part of the natives to molest the "new citizens," who were driven away, but who have now returned to their homes.—Illinois State Register, Nov. 20.

THE CANAL COMMISSIONERS of this State have adopted a resolution exempting the companies composing the regiment of Pennsylvania volunteers ordered to rendezvous at Pittsburg, FREE OF TOLL, in passing over the public improvements. This is right, and the Canal Board will receive the thanks of their fellow citizens for this act of liberality. The same policy should be pursued by private companies. If the troops ordered to Pittsburg take the route via Chambersburg, they will have to march from the latter place, a distance of 150 miles, which will require about a week to perform. The crossing of the Allegheny mountains at this inclement season of the year, will make the marching very severe. Every soldier should be provided with a good blanket, and a substantial pair of boots. We sincerely hope that every facility will be given our gallant troops, and abundant supplies will be furnished by our friends in the interior to cheer them on to their place of destination.

NEGRO MISSIONARY.—At a recent meeting of the Presbyterian Synod, held at Westport, in this State, a negro, named Ellis, was admitted to the ministry. He is to be sent as a missionary to Liberia. The Episcopalian Herald says that his wife and two children have been purchased by the Presbyterian Church in this State, at a cost of \$2,500. He has acquired his education by his own exertions; and, upon examination, proved himself a good Latin, Greek and Hebrew scholar, but better versed in Greek. His examination in Theology was highly satisfactory. He is said to be very humble and polite in his manners and conversation—demeaning himself at all times in a way becoming his condition in life. He is quite black and about 35 years of age. He has appended to his name of his former master, and is known by that of Harrison Ellis.—Mobile Herald.

POPULATION OF THE UNITED STATES.—Estimating the increase at three per cent per annum on the census of 1840, the population of the United States would be 20,140,370, on the 1st of June, 1847.

SALT RHEUM CURED.—This is to certify that my wife, being for some time afflicted with the Salt Rheum, and having occasion to use some Pills, I procured Dr. Smith's Improved Indian Vegetable Sugar Coated Pills, after her taking some three or four doses, she found that her hands commenced getting better, and in less than three weeks they effected a final cure. She then recomended me to some of our near neighbors, by the name of Levi Smith, who has been long complaining with the same complaint for three years, and could find no cure, and after taking one box was much better, and still continues to take the Pills with a happy effect. O. P. BEACH. Knoxville, Pa. March 17, 1846. Office 179 Greenwich street, (large brick block). Always ask for the Improved Indian Vegetable Pills.

And see that G. Benj. Smith is written with a pen on the bottom of the box. Agents—N. Mitchell & Co. and J. Ethridge, Montrose.

A determination of blood to the head, as it is called, can be accounted for upon no other principle than from corrupt and stagnant humors in the venous circulation, which prevent the proper return of the vital fluid to the heart. The blood can have no more predilection to the head than for any other part of the system; but when the passages are impeded to the extremities; but when the passages are impeded, and it becomes, as it were, prisoner in the head, no wonder there is a distension or swelling of the blood vessels, a pressure upon the brain, and headache, giddiness, palpitation of the heart, insensibility, apoplexy, and other dreadful results. Wright's Indian Vegetable Pills are always given to prevent the above unpleasant consequences, because they expel from circulation those very humors which are the cause not only of all disordered motions of the blood, but of every malady incident to man. They also aid and promote the return of the blood to the body, as well as prevent any and every consequence from what is termed a rush of blood to the head. CAUTION.—It should be remembered that Mr. Edward Cole, of Philadelphia; Mr. John Dixon, of Philadelphia, are not agents of ours, and as they purchase no Wright's Indian Vegetable Pills at our office, we cannot guarantee as genuine any medicine they may have for sale. Remember, the only original and genuine Indian Vegetable Pills have the written signature of Wm. Wright on the top label of each box. Agents for the sale of Wright's Indian Vegetable Pills in Montrose, Mills & Sherman. For other agencies see advertisement in another column.

Receipts for the Peoples' Advocate.

For the week ending Dec. 10, 1846. Wm. Wyan, \$1.00 page to No. 52. S. A. Woodruff, 1.00 " " 67.

DIED.

In Household, on the 19th ult. Mr. ALEXANDER H. HODGSON, of the firm of Hodgson, Edgerton & Co., and son of Samuel Hodgson, Esq. of Carlisle, died, aged 25 years.

Advertisements.

TO MY CREDITORS.

NOTICE is hereby given, that I have applied to the Judges of the Court of Common Pleas in and for the County of Susquehanna, for the benefit of the Insolvent Laws of this Commonwealth, and that the said Judges have appointed Monday the eighteenth day of January next, at ten o'clock in the forenoon, at the Court-house in Montrose, to hear me and my creditors, at which time and place you can attend if you think proper. JAMES MORAN. Montrose, Dec. 9th, 1846.
