ADMINISTRATOR'S NOTICE.

NOTICE is hereby given to all persons indebted to the Estate of FREDERICK W. BAILEY late of the Township of Brooklyn, in the County of Susquehanna, deceased, to make immediate payment, and all persons having any charges against said Estate, are requested to present them duly attested to the subscriber for settlement. FREDERICK BAILEY, Administrator. Brooklyn May 20, 1847.

NEW ARRANGEMENT.

LATHROP & CHAPMAN, FARMERS EXCHANGE, Springville, Pa.

THE Subscribers would respectfully give notice to the public that they have received a new and complete assortment of Spring and Summer Goods, all of which they will exchange for any kind of produce that the public are generally accustomed to traffic in. They feel assured that they are prepared to compete with any that are engaged in the "Rag trade," "Our friends in Thank-hamock to the contrary notwithstanding." We sell for the profit, and no hounding—Call and prove for yourselves—We do not endorse the 10 per cent project, but the proof of the pudding is in the eating. A. LATHROP, E. F. CHAPMAN. May 17, 1847.

GARMENT CUTTING.

THE subscriber having withdrawn for the present from all connection with the tailoring business except cutting, will hereafter give his attention to that particular branch exclusively. From a long and successful experience, with recent improvements, and a regular receipt of the latest fashions, he has entire confidence in his ability to please all who may employ him. To prevent misapprehension he would further state, that having worked heretofore for the sake of working, he intends in future to work for the sake of the pay; (except therefore when charity may dictate otherwise.) Those therefore who are able to pay but always withhold, will please also withhold their custom. Shop over the Hat Store, first building north of the Stage House. P. LINNEN. Montrose, May 5, 1847.

WOOL CARDING, AND SPINNING.

THE subscriber wishes to inform his friends and former customers that he is prepared to card Wool with despatch and in the best style. He will also take good clean Wool in the fleece and deliver it in good sound Yarn at from 8 to 10 cents per run. Those having to hire their spinning done, would find this to their advantage, and save themselves the trouble of preparing their own wool. Wool will be taken to manufacture into Broadcloth, Flannel, Blankets, and shawls, to suit customers. Two hundred pounds of beech-nut Lard will be taken in exchange for payment. N. B.—It is expected that payment will be made in all cases when the work is delivered, either in cash or saleable produce. DANIEL H. KEELER. Silver Lake, May 15, 1847.

HORIZONTAL SPINNER!

IN connexion with the following certificate were handed to us the testimonials of several highly respectable ladies, who have used the Domestic Horizontal Spinning Wheel, and who concur in saying substantially, that they can spin with it seven or eight run, (or about four day's work) per diem, with as much ease as they can perform an ordinary day's work with a common wheel. The inference is irresistible; that it will hereafter be more profitable for the farmer who manufactures his wool, with this machine to have in his employ at the same cost for labor, one girl, than four girls with the common stand-and-spin wheels:— [People's Advocate.

The undersigned, citizens of Montrose, have witnessed with much satisfaction the operation of a novel machine denominated the "Domestic Horizontal Spinning-wheel," lately invented by Hiram F. Wheeler of Springville, in this county. It appears to us to be a valuable improvement, in view of the ease with which it is used and the rapidity with which it executes. We doubt not that our Farmers generally, with all who "spin" will approve it too. Montrose, Susquehanna Co., Pa. Col. Franklin Lusk, Hon. Wm. Jessop, Gen. D. D. Warner, Joseph Williams, Thos. Johnson, Hon. M. C. Tyler, S. S. Mulford, Henry J. Webb, P. M. J. B. Salisbury, Walter Follet, Treasurer, J. W. Myers, E. Patrick, Jr., M. D. Daniel Searle, Wm. J. Mulford, J. Lyons, Wm. J. Turrell, Isaac L. Post, Geo. V. Bentley, Wm. L. Post, Rev. John Long.

RIGHTS will be sold on the most reasonable terms to those who wish to make in any of the United States (except Ohio). Those wishing to engage in a business both pleasant and profitable will please call on the subscribers in Springville, Susquehanna county, Pa. H. F. WHEELER, Patentee. J. SMITH, Jr., Agent. Springville, April 8, 1847.

THE TREASURY OF HISTORY.

Comprising a general introductory outline of Universal History, ancient and modern, and a series of separate Histories of every principal nation that exists, their rise, progress, present condition, &c. BY SAMUEL MAUNDER.

Author of the "Treasury of Knowledge," "Biographical Treasury," "Literary and Scientific Treasury," &c. including THE HISTORY OF AMERICA.

EDITED BY JOHN ISMAN, Esq. The republication of this valuable work has been undertaken partly on account of the high favor with which it has been received in England, but chiefly in consideration of its intrinsic value, arising from the felicitous adoption of the plan to a want that has been long and generally felt, and which judgment and fidelity manifested in its execution.

The idea of giving in a single work, of no very formidable dimensions, and at a price which brings within the reach of every moderate circumstance, a sufficient outline of the whole history, and some similar outlines of the history of every nation, is no obviously judicious and appropriate as to require no subjoined. Every person who cares at all for the acquisition of a general knowledge must desire to possess such a general knowledge of past events, not only in his own country but in all countries, as shall enable him to understand the perpetually recurring allusions that are found in almost any course of general reading; because for want of such understanding there is always a serious diminution both of pleasure and profit, even in the perusal of such works as are designed chiefly for amusement. For instance, most of Sir Walter Scott's novels are founded upon history, and abound with references to historical events and personages, a want of some acquaintance with which detracts seriously from the interest and delight they are so well qualified to awaken; and so of most other works belonging to the better class of what is called light literature. But the difficulty was not to obtain this general knowledge without going through many books, requiring a greater expenditure of time and money than most persons are able or willing to afford; and to obviate such difficulty has been the purpose of Mr. Maunder.

His plan has the merit of completeness, and is undoubtedly the best that could have been desired. He gives first a general sketch of ancient and modern history—a rapid and comprehensive bird-eye view, as it were, of the rise and progress of nations, the most important incidents of their career, and their relations to each other; and after this he takes up the nations separately, furnishing a concise digest of all that is important or desirable to know concerning each, and thus affording a sort of key to the changes and events that were more briefly indicated, rather by their results than by their incidents, in the general sketch or outline. Thus the salient points of history are brought within a manageable compass; and an excellent foundation is laid for more thorough and extensive reading in reference to any portion of the world, or any epoch of which a complete knowledge may be desired.

In the execution of this plan the author has been very successful. His notice of historical events, though brief, are lucid and satisfactory; and he traces the connection of effect and cause, and the inter-connection generally with most commendable freedom from partiality or bias; thus supplying a very good idea of the philosophy of history as well as the facts which history records. In a word, the work will be found valuable to the general reader and a very useful help to the student.

Complete in two volumes, large octavo, with engravings, \$4. An edition in paper covers, complete, suitable for mailing, \$3.

IT IS WRITTEN

IN THE BOOK OF NATURE AND OF COMMON SENSE, that the natural vegetable production of every country are, if properly applied, amply sufficient for the cure of every malady incident to each peculiar climate.

Wright's Indian Vegetable Pills

of the North American College of Health, are composed of plants which grow spontaneously on our own soil, and are therefore better adapted to our constitutions, than any foreign medicines; and, as they are founded upon the principle that the human body is in truth

Subject to but one Disease, viz: corrupt humors, and that said medicine cures this disease

Natural Principles by cleansing and purifying the body; it will be manifest, that if the constitution be not entirely exhausted—a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a swamp or morass to fertility, we drain it of the superabundant waters in like manner if we wish to restore the body to health, we must cleanse it of impurity.

Wright's Indian Vegetable Pills will be found one of the best, and the very best medicine in the world for purifying the blood.

Grand purifying principle, because they expel from the body all corrupt and impure humors, the cause of disease, in an easy and natural manner; and while they every day

Give ease and pleasure, disease of every name is rapidly driven from the body.

The following highly respectable storekeepers have been duly appointed, agents for the sale of Wright's Indian Vegetable Pills in Susquehanna county:
