HORIZONTAL Sal Part of Vill Name De Roy (

N connexion with the following certificate were handed to us the testimonials of several highly respectable ladies, who have used the Domestic Horizontal "Spinning Wheel, and who concur in saying substantially, that they can spin with it seven or eight run, (or about four day's work) per diem, with as much ease as they can perform an ordinary day's work with a com-mon wheel. The interest is irresistable; that it will hereafter be more profitable for the farmer who manufactures his wool, with this machine to have in his employ at the same cost for lubor, one girl, than four girls with the common stand-and-spin wheels:-People's Advocate.

The undersigned, citizens of Montrose, have witnessed with much satisfaction the operation of a novel machine denominated the "Domestic Horizontal Spinning-wheel;" lately invented by Hiram F. Wheeler of Springville, in this county. It appears to us to be a valuable improvement, in view of who " toil and spin" will approve it too. Montrose, Susq'a co. Pa.

THE TREASURY OF HISTORY. Comprising a general introductory outline of Universal History, ancient and moddern, and a series of separate Histories of every principal nation that exists, their rise, progress, present condition, &c. BY SAMUEL MAUNDER.

Author of the "Treasury of knowledge,"" Biographical Treasury," Literary and Scientific Treasury," &c., including THE HISTORY OF AMERICA,

EDITED BY JOHN INMAN, ESQ. The republication of this valuable work has been The republication of this valuable work has been undertaken partly on account of the high favor with which it has been received in England, but chiefly in consideration of its intrinsic value, arising from the felicitous adaption of the plan to a want that has been long and generally felt and from the judgment and fidelity manifested in its execution.—

The idea of giving in a single work of no week. that has been long and generally felt and from the judgment and fidelity manifested in its execution.—
The idea of giving, in a single work, of no very formidable dimensions, and at a price which brings it within the reach of very moderate circumstances, a sufficient outline of the world's whole history, and similar outlines of, the history of every nation, is so obviously judicious and appropriate as to require not enlogium. Every person who cares at all for the acquisition of useful knowledge must desire to possess such a general knowledge of past events, not only in his own country but in all countries, as shall enable him to understand the perpetually recurring allusions that are found in almost any course of general reading; because for want of such understanding there is always a serious diminution both of pleasure and profit, even in the perusal of such works as are designed chiefly for anuscement. For instance, most of Sir-Walter Scott's novels are founded upon history, and abound with references to historial events and personages, a want of some, acquaintance with which detracts seriously from the interest and delight they are so well qualified to awaken; and so of most other works belonging to the better class of what is called light literature.—But the difficulty has been to obtain this general knowledge without going through many books, requiring a greater expenditure of time and money than most persons are able or willing to afford; and to obviate such difficulty has been the purpose of Mr. Maunder.

His plan has the merit of completeness and is un.

to obviate such difficulty has been the purpose of Mr. Maunder.

His plan has the merit of completeness and is undoubtedly the best that could have been desired.—
He gives first a general sketch of ancient and modern history—a rapid and comprehensive birds-eye view, as it were, of the rise and progress of nations, the most important incidents of their career, and their relations to each other; and after this he takes up the nations separately, furnishing a concise digest of all that is important or desirable to know concerning each, and thus affording a soft of key to the changes and events that were more briefly indithe changes and events that were more briefly indi-cated, rather by their results than their incidents, in the general sketch or outline. Thus the salient points of history are brought within a managable cempass; and an excellent foundation is laid for

cempass; and an excellent foundation is laid for more thoreugh and extensive reading in reference to any portion of the world, or any epech of which a complete knowledge may be desired.

In the execution of this plan the author has been very successful. His notice of historical events, tho brief, are lucid and satisfactory; and he traces the connection of effect and cause with singular acumen-and generally with most compendable treaders for nd generally with most commendable freedom from of the philosophy of history as well as the facts which history records. In a word, the work will be found invaluable to the general reader and a very useful

107 Fulton street, New-York.

IT IS WRITTEN IN THE BOOK OF NATURE AND OF COM-monsense, that the natural vegetable productions of every country are, if properly applied, amply suf-ficient for the cure of every malady incident to each

peculiar climate. Wright's Indian Vegetable Pills of the North American College of Health, are composed of plants which grow spontaneously on our own soil, and are therefore better adapted to our constitutions than medicines concocted from foreign drugs, however well they may be compounded; and

as they are founded upon the principle that the hu-man body is in truth Subject to but one Diseasc.

viz: corrupt humors, and that said medicine cares Natural Principles by cleansing and purifying the body; it will be manifest, that if the constitution be not entirely exhausted—a perseverance in their use, according to directions, is alisolutely certain to drive disease of every

name from the body. When we wish to restore a swamp or morass to tertility, we drain it of the superabundant waters a like manuner if we wish to restore the body to Wright's Indian Vegetable Pills

will be found one of the best, if not the very best medicine in the world for carrying out this because they expel from the body all correct and impure humors, the cause of disease, in an easy and natural manner; and while they every day

Give ease and pleasure, iscase of every name is rapidly driven from the The following highly respectable storekeepers have been duly appointed agents for the sale of Wright's Indian Vegetable Pills in Susquehanna
